

## The Mightiest Little Peasant Chapter 2820

“He’s only in his 90s?”

In a building of the Ji family.

Ji Ruyin clenched the Jade talisman in her hand, her cold and beautiful face full of shock.

The news in the Jade talisman shocked her to the point of dizziness.

That person wasn’t an old monster that was five or six thousand years old as she had thought, but a young man who was only a few years older than her.

They were about the same age, but she had just reached the Emperor realm not long ago, while this one was already in the ninth tribulation realm. How heaven-defying a talent and how powerful a master did he have to be to be able to do this?

“He ... Who is he?”

After a long time, she finally came back to her senses and muttered to herself.

She couldn’t imagine what kind of force could cultivate such a heaven-defying monster.

Soon, her eyes dimmed again.

She had consoled herself before that it was because of her age that this man had no interest in her.

But now, he realized that this person was actually of the same age, and it had nothing to do with age.

“Am I really that unattractive in his eyes?”

She mumbled as she furrowed her brows. Her heart was filled with disappointment and bitterness.

“A!”

Soon, sighs could be heard in the building.

Meanwhile, the Ji family was in an uproar.

The news had already spread.

Ji juechen didn’t try to hide it because this news was too sensational. By tomorrow or the day after tomorrow, it would have reached the cloud Sea. By then, it would have already spread throughout the Ji family.

Everyone in the Ji family, especially the group of elders, was the most shocked.

“This senior ... No, this divine ancestor’s background is terrifying!”

“Hahaha! This is a great opportunity for our Ji family! As long as we hold on to this person’s thigh, our Ji family will be able to rise to the top.”

They were even more excited.

With such a shocking background, it wasn’t shameful for the Ji family to submit to him. Instead, it was a great opportunity.

Now, the Ji family was the number one force in the cloud Sea. In the future, they might even be able to dominate this Sea area and compete with the Super forces of the cloud continent and the Thunder continent.

As they discussed, they looked at the pavilion in the center of the island, and their eyes were filled with more respect.

In just half a day, the news spread from the Ji family to every corner of the sea, causing another sensation.

The cultivators of Yun Mihai were all speechless.

The peerless expert who had easily destroyed the Luosha Island, the demon Island, and the righteous Alliance was only a young monster less than a hundred years old?

This sounded ridiculous!

Soon, the cloud Sea was in an uproar.

In the next few days, everyone in the sea realm was discussing this matter. They were discussing the mysterious white-robed Saint ancestor, this heaven-defying monster!

Meanwhile, Tang Hao stayed in the attic the entire time, deducing the cultivation technique.

He had once sent his true spirit to the ocean, but he could no longer find an eighth tribulation beast or a ninth tribulation beast. He could not even find its shadow, so he could only give up and focus on deducing the cultivation technique.

The sisters, Chun Xuan and Qiu Ci, had already passed their tribulations and ascended to the great emperor realm.

He had also dealt with the things he had given Ji juechen and exchanged them for crystals. He then asked Ji juechen to purchase a large number of soul crystals using the most secretive means.

Half a month passed just like that.

“I can start refining!”

Tang Hao opened his eyes and mumbled to himself.

Since his last attempt, he had improved his refining method. This time, he was confident that he could make a mature ethereal extent.

To be safe, he still shot out rays of spiritual light and laid out layers of formations around the pavilion.

He didn't want anyone to know about the matter of the ethereal Plane besides himself.

"First, I'll refine the vessel!"

He flicked his sleeve, and countless purple lights flew out. These were All Soul crystals, and there were tens of thousands of them.

Then, the divine furnace flew out of his sea of the path.

The divine furnace turned, and all the crystals flew in.

BOOM!

Inside, the divine fire was burning and it started to refine these crystals.

Soon, these crystals began to merge together, small pieces of them merging together and becoming a larger piece. As more and more of them merged, their size rapidly expanded.

In the end, it was the size of a small mountain.

This Soul Source crystal was not a natural ore, but one that had been refined after birth.

After some research, Tang Hao had long since figured out the refining method and the fusion method.

After the fusion, he raised his hand and the hill-sized crystal flew out, floating in front of him. It was crystal clear with purple sand surging inside, like a galaxy of stars. It was like a dream.

Tang Hao was satisfied with the result.

Then, he started to draw a rune array and turned the huge soul crystal into a container.

It took him a full three days to complete the carving.

The next step was to make soul seeds.

He was already very familiar with this step.

Cutting down a true spirit thought and changing it, he quickly obtained a Golden Soul seed.

Finally, it was the last step.

He injected the Golden Soul seed into the crystal.

Then, with a thought, the soul seed trembled, expanded, and exploded. In a dazzling golden light, a chaotic space was born.

This space was very stable and was expanding at an unbelievable speed. It kept expanding and becoming bigger. In just a breath's time, it could expand several times.

"It's done!"

Tang Hao sighed in relief after some observation.

Then, his face revealed a look of joy.

This was a complete and mature Ethereal Plane, unlike the last time, when it was just an experimental object, an immature embryonic form.

This Ethereal Plane was not big enough yet, but it would expand continuously, just like this starry universe.

Then, with a thought, he entered the ethereal Plane.

In this world, it was still chaotic and there was nothing. He could only see that the boundary was constantly expanding and the world was getting bigger and bigger.

"How should I design this world and set the rules?"

"Also, what should I name myself?"

Tang Hao mumbled to himself as he stood amidst the chaos.

He recalled the situation when he first went to the great void realm.

At that time, his spirit was floating upwards, as if he had entered a layer of clouds. Then, a monument appeared in front of him.

"I'll also erect a monument!"

He muttered. With a thought, an ancient stone tablet appeared in the void in front of him.

"This world was inspired by the great void realm and combined with some of the characteristics of the spiritual illusionary celestial realm. I think we should call it the spiritual illusionary realm!"

Tang Hao pondered for a while. Suddenly, his eyes lit up.

He raised his hand and drew a few strokes on the tablet.

In the next moment, three vigorous and vigorous characters appeared on the ancient stone tablet. They were the words 'spiritual void realm'.
