

## The Mightiest Little Peasant Chapter 2821

Tang Hao's heart was filled with emotions as he looked at the stone tablet in front of him.

Spiritual void realm!

These three words would definitely spread throughout the vast meteor star and then the entire starry sky.

Its existence was comparable to the great void realm created by the great void God in the ancient times, and it would be recorded in the history books for eternity!

"I'll first create a continent big enough to accommodate an endless number of cultivators ..."

Tang Hao mumbled to himself as he looked at the chaos in front of him.

In the next moment, endless dust emerged from the chaos. They condensed, transformed, and turned into pieces of land.

Boom! Boom! Boom!

The pieces of land began to collide and join together, forming a vast and boundless continent.

The void expanded continuously, and so did the continent. At the edge of the continent, new continents were forming.

"There must be a mountain!"

Tang Hao said in a low voice as he flew over the continent and looked around.

"Boom boom boom!"

As soon as he finished speaking, thunderous sounds came from all directions of the continent. The continent trembled and bulged as if there were real Dragons drilling out of the ground. The scene was extremely shocking.

Soon, majestic mountain ranges and majestic divine mountains appeared in all directions of the continent.

"I want water!"

Another low voice.

All around the continent, the land split open and turned into huge rivers that flowed in all directions.

Then, there were lakes and pools that dotted the land.

“There are also plants and vegetation!”

Tang Hao mumbled to himself. All kinds of plants burst out of the ground in all directions.

There were all kinds of plants in the world here.

“There must be living beings!”

As soon as he finished speaking, there were the cries of apes and birds, and the roars of all kinds of beasts from all directions of the continent.

Many of these creatures were pure-blooded, such as Golden-winged ROCs, true dragons, true phoenixes, and so on. Their bloodlines were extremely powerful, so their strength was naturally also extremely powerful. They would be the overlords of this mainland.

“Mountains, rivers, grass, trees, and living beings. Everything is here. Next is the sun, moon, and stars!”

Tang Hao looked around. With a wave of his sleeve, huge stars appeared in all directions and orbited the continent.

“There must also be dangerous places, dangerous lands ...”

His body sank and he landed on the ground. He began to open up a dangerous place.

“I’ll need fragments as well. I’ll set them to Bronze, Silver, gold, purple gold and dark gold! They’re all stored in the bodies of these beasts. Oh right, I’ll also set up some treasure chests so that I can get some fragments. ”

“We can also set up some equipment, but the number will be small ...”

“There are also many treasures that can be exchanged. The great void realm only has cultivation techniques, but I can add in some magic treasures, weapons, and books on the three Dao of elixirs, weapons, and arrays. Everyone can exchange for them.”

Tang Hao flicked his sleeve, and a magnificent temple appeared in the sky above the continent.

On the plaque, he carved the words ‘spirit void Hall’.

All the treasures in this world would be stored inside for exchange.

“Let’s choose this place as our first spawn point!”

Tang Hao went to the center of the continent and built a yellow mud village according to his memory.

After it was built, he walked around and felt a little emotional.

He could still remember the first time he entered the great void realm, and he was even more impressed by uncle bludgeon.

Then, he went around and built novice villages one after another.

These were all backup entrances. If the first entrance was too congested, the traffic would be diverted to these places.

The next step was to perfect the rewards and set the exchange standards.

There were still a lot of details that he needed to perfect and Polish to make it more perfect.

In the next half a month, he stayed in the ethereal Plane.

At the same time, he also used the remaining batch of soul crystals to refine a large number of keys.

Half a month later, he left the Mirage once again.

“It’s almost time!”

He opened his eyes and muttered.

He didn’t leave the pavilion. Instead, he tore open the void and left the Ji residence, heading north.

His destination was a continent in the North, called Wu continent.

Among the nine great continents of Cangliu, Mist Province was the largest, but it was the weakest. In the entire Mist Province, there were only two super forces, one called Mt. Po Jun and the other called Wuling Sect.

In other words, there were only two Ninth Tribulation Transcendents.

Although there were many other forces, they were still lacking compared to the other continents.

Tang Hao had chosen this place not because of the continent’s strength, but because there were traces of a true immortal’s descent on this continent. It was said that it happened ten thousand years ago, probably not long after the birth of this star.

That was why Tang Hao chose this place.

When he arrived at Wu Zhou, he sent out countless split souls in all directions.

Soon, a piece of news spread across Wu Zhou. It was said that somewhere in Wu Zhou, there were ruins suspected to be true immortals.

In the beginning, no one believed this news.

In Wu Zhou, even a holy ancestor’s remains were rare, let alone a true immortal. Wasn’t this nonsense? It was probably made up by someone who was bored.

Although most people didn't believe it, there were still people who believed it. They followed the direction in the news and ran over to take a look. They were shocked.

It really was a true immortal's cave!

They could all feel the wisps of true immortal aura coming from the cave.

When the news spread, the cultivators from all four sides finally believed it, and then they went crazy.

Soon, Wu Zhou was in an uproar. All the forces came out in full strength and rushed to the true immortal cave.

In front of the cave dwelling, the various forces were in a chaotic battle. Many of them were either dead or injured. Only then did they work together to break the formation and enter the cave dwelling.

"This is ... An immortal sword?"

As soon as they entered, the gazes of the experts from all over Wu Zhou were attracted by the immortal sword floating in the air, shining with divine light.

"It's a little broken, but it doesn't matter!"

The eyes of the two great nine tribulations were fixed, and then, there was a burning light in their eyes.

For them, a broken immortal sword was also a peerless treasure that could only be encountered by chance.

The next moment, the two of them rushed forward and began to fight for the immortal sword.

The rest of them were 8th tribulation. Seeing that they had no hope of snatching the immortal sword, they turned their eyes to a purple crystal at the side.

This crystal was huge, about twenty to thirty feet tall, and its shape was irregular.

"What is this?"

Someone wondered.

"It seems to be some kind of divine material. That's right, I have some impression of it. This is a soul crystal!" Some people took a closer look and recognized it.

"Soul crystals are also good. I've never seen such a big one before. If you don't want it, then give it to me!"

In the crowd, someone was the first to rush out and pounce on the crystal.

A few people followed behind, also wanting to snatch this crystal.

However, just as they were about to reach the crystal and lift their hands to grab it, the huge purple crystal suddenly exploded into small pieces and shot in all directions like a fairy scattering flowers.

The few of them were stunned.

“Motherf \* cker!”

They cursed a few times, but they thought that the Qi had shattered the crystal while they were fighting.

“Such a small piece, what use is it!”

Someone grabbed a piece, looked at it, and threw it out with a look of disgust.

This crystal had been crushed to the size of a thumb nail. What could it be used to refine? in the eyes of these true spirit stage cultivators, it had no value.

But there were also people who thought it would be a waste not to pick them up, and took these Jingshi.

In addition to these two items, there were also many nine tribulations weapons in the cave. After they were done fighting for them, they left.

After they all left, a white-robed figure appeared in the cave.

“The good show is about to start!”

He looked out of the cave and mumbled to himself before breaking into a smile.
