

## The Mightiest Little Peasant Chapter 2824

“Spiritual void realm? What was that? A small world?”

“No! It’s an extremely magical world that only the divine soul can enter. In that world, it’s exactly the same as the real world. There are many ancient scriptures and even a large number of true immortal inheritances that can be exchanged!”

“A true immortal’s inheritance? Is that true?”

“Of course it’s true, because this world was created by a true immortal. Do you think there’s a true immortal’s inheritance inside? now, the Hidden Sword Mountain, the White Horse sect, and the Empyrean River Palace have all gone crazy and entered this spiritual void realm.”

In the four corners of Wuzhou, people gradually began to discuss the spiritual void realm.

Many people had already gone up to the spiritual void realm, and many forces had gone up with their entire sects, so the news would naturally be leaked.

This news was too shocking and spread very quickly, causing a sensation.

It was a magical soul world!

There were also a large number of ancient cultivation techniques and true immortal inheritances!

A place like this could drive any force crazy!

As the news spread, Wu Zhou began to boil.

Everyone was enthusiastically discussing this magical world.

“What? There was such a magical world hidden in the purple crystal? There’s a true immortal’s inheritance inside?”

Many true spirit stage cultivators heard this and were stunned.

Then, he almost vomited blood.

In the cave abodes of true immortals, they had all obtained crystals or had the opportunity to snatch a few pieces. However, in the end, they didn’t take a single piece. Some of them had picked up a few pieces and thrown them away like garbage.

At this moment, they were all filled with regret.

On Mt. Po Jun, the two Saint ancestors of Wuling sect were also stunned when they heard the news.

They had never thought that the most precious thing in the cave abode was not the immortal sword they were fighting for, but the purple crystal.

“Hurry up! Go and find out which family has more Jingshi, we must get one!”

“Our fog spirit sect must get one at all costs!”

They all sent people to each sect to inquire about the number of Jingshi.

Many other 8th tribulation forces also turned their eyes to these sects and had the idea of obtaining Jingshi.

Each force only needed one of these crystals. There must be many forces that had extra.

Some forces took the opportunity to sell a few crystals at a high price, causing an intense competition. Some also held back on the crystals and did not sell a single one.

This was because they knew that the more time passed, the more valuable this thing would be. When it spread throughout the entire Azure meteor star, this crystal would become a rare treasure, and each one could be sold for a sky-high price.

As for those forces who had bought the keys, they all impatiently went up.

In the spiritual void realm, the number of people increased again.

The originally empty yellow mud village was now filled with people of all kinds of cultivation levels.

Many of them were looking left and right, their faces full of wonder and amazement.

This world was too magical!

“F \* ck! You guys are here too?”

“Tsk! Why can you come but we can ‘t?”

There were also enemies who met and were jealous, almost fighting.

No matter where they were from in Wu Zhou, as long as they came up, they would all be gathered in this yellow mud village. Naturally, they would inevitably meet some enemies.

“Hey! It’s so convenient, we don’t have to run around anymore, we can meet and reminisce here!”

Many people sighed.

This magical world had suddenly closed the distance between them. Originally, they had to fly for several days before they could see each other. Now, as long as they landed on this world, they could immediately see each other. It was very convenient.

At the village entrance, it was even more lively.

Many xiuzhe were using spells to fight the chickens, and it was hard to tell who was winning.

These were all newcomers who had just arrived. Under the guidance of the sect's veterans, they were practicing the use of spell techniques to adapt to the combat methods of this world.

“Ah!”

From time to time, someone would be pecked to death by the chicken, turning into white light and disappearing.

But very quickly, they came back up again, each of them looking ashamed and resentful.

It was too embarrassing to be pecked to death by a chicken.

“Come on! All 6th tribulation disciples of the Hidden Sword Mountain, gather. Our target will be the nearby Sky Serpent Valley. This time, we must conquer the sky Serpent Valley and get more fragments.”

“People of the White Horse sect, gather here!”

Not far from the village entrance, a wave of shouts could be heard.

The teams gathered here and then ran in all directions.

These were all people from various sects. Under the organization of their sects, they went to various places to kill fierce beasts and collect fragments.

“This is amazing! It's really unbelievable!”

“What kind of Almighty being could create such a magical world?”

After getting the key, the Saint ancestor of the mist spirit sect immediately came up. He looked around and was completely shocked.

“This senior must be a peerless figure with great wisdom and divine abilities to be able to create such a magical world!”

When he came back to his senses, he was so excited that his entire body was trembling.

“This world is too amazing. Everything is no different from reality. Basically, everything that can be done in reality can be done here. There are also treasures like true immortal inheritances for exchange. I think it won't be long before this world becomes a Second World.”

The Saint ancestor of Mt. Po Jun also came up quickly.

He was also shocked.

He also saw the future of this world. When all the keys circulated and more and more people came up, this world would become a Second World outside the real world.

If someone could control this world, they might be able to dominate the entire Wu Zhou, or even the entire Cang Liu star.

“What a pity!”

When he thought of this, he felt even more remorseful.

At that time, he had not seen the value of the crystal. If he had taken it in its entirety and studied it, he might have had a chance to control this world. But now, no one had the chance.

But perhaps, this result was also the best.

Since no one could control this world, he didn't need to worry about being controlled by others one day.

“The true immortal's legacy ... Is real! There was even the inheritance of a Celestial King. It was too incredible! I must get this inheritance!” He summoned the exchange Manual and scanned through it. He was so excited that his body trembled.

His pojun mountain's cultivation method inheritance wasn't that good. It couldn't be compared to many forces in Cang Liu star, let alone those more powerful forces outside the star.

If he could obtain this Immortal King's inheritance, his Army shattering mountain would be able to rise up and easily dominate the vast meteor star.

His eyes turned red, and he immediately went offline. He gathered all his disciples and charged into the spiritual illusion realm.

After the whole of Wu Zhou boiled over, the news began to spread to the other continents. Yun Zhou, Leizhou, Xue Zhou, and the other four continents were soon in an uproar.

Many powers sent people to Wu Zhou to fight for the key.

Soon, the news spread throughout the nine great continents.

This spiritual void realm had also replaced that mysterious young holy ancestor and became the focus of the world, causing all the forces in Cangliu star to go crazy.
