

The Mightiest Little Peasant Chapter 2826

“Many thanks, divine ancestor!”

Chun Xuan and Qiu Ci were so excited that they knelt down.

The divine liquid in front of them was enough for them to open two immortal apertures, while the elders of the Ji clan would need one to two hundred years to open two immortal apertures.

Then, they sat down cross-legged, swallowed the divine liquid, and began to refine it.

Dazzling immortal radiance shone from their bodies.

Tang Hao glanced at them, then turned around and continued to look around.

His many true spirits were still sweeping the area.

“I’d like to see how long you can endure!”

He mumbled, a sharp glint in his eyes.

The ship was traveling at high speed in the sea.

Time slowly passed by ...

Behind him, the auras of the two women were rising. Suddenly, on the left side, Ji chunxuan’s body, there was a surge of energy that spread out. The White gauze dress could not withstand it and was shattered into pieces.

On her body, there was an especially bright ball of divine light.

That was the immortal aperture!

After opening this immortal aperture, her aura did not stop, it continued to charge towards the next immortal aperture.

Soon, Ji Qiuci’s body was also covered in a surge of energy, and her clothes were also turned to dust.

Tang Hao turned around and was stunned.

“Oh! It’s Suyi!”

Then, he came to a realization.

When breaking through, this kind of situation would sometimes occur, especially in the eighth tribulation realm. One had to wear the eighth tribulation treasured clothing to avoid this kind of situation.

“Cough cough!”

His old face turned red and he quickly turned his head away.

He didn't do it on purpose. He didn't expect this to happen at all. He didn't even notice that the two of them were wearing plain clothes.

Normal xiuzhe didn't wear plain clothes, and only he liked to wear them.

Firstly, with his strength, he didn't need to wear any treasured clothing or armor. Secondly, it was cheap, so he didn't have to feel bad even if it was broken. He could change it as he wished.

Why are these two girls wearing plain clothes!

Really!

He muttered to himself and continued to scan the surroundings.

After more than an hour, there were two more waves of Qi behind them. The two sisters had broken through almost at the same time, opening the third aperture.

“That's great!”

They opened their eyes and cried out in joy, their faces full of joy.

“Divine ancestor, we've broken through! You've already opened three apertures!”

Then, they stood up and walked toward Tang Hao.

After a few steps, they realized that something was wrong. They looked at each other and blushed.

The elder sister, Ji chunxuan, was even more embarrassed. Her beautiful face was flushed red, and she even lowered her head. The younger sister, on the other hand, was more generous. She quickly regained her composure and looked at the figure in front of her with his back to her and giggled.

“Sister, why are you so shy?”

She even glanced at Ji chunxuan and laughed mischievously.

Then, she took out a gauze dress and put it on.

“Cough! I say, don't you guys have any treasured clothing? I saw that you were all wearing eight tribulations treasured clothing!” Tang Hao turned around and looked at them.

“I originally wanted to wear the treasured clothing ...”

Ji chunxuan was also neatly dressed, but her face was still a little red."But ... Qiuci said that this dress is nice and that you would like it ..."

"Yeah!" Ji Qiuci chuckled."Isn't that so? there are only a few styles of treasured clothing. It's not as good as this plain clothing. Besides, this plain clothing is thin. With a light pull, no, with a spiritual thought, it can be torn apart! Isn't that more convenient?"

She laughed again.

"Convenient? Convenient for what?"

Tang Hao was surprised.

"It's for your convenience, divine ancestor!"

Ji Qiuci covered her mouth and laughed.

Tang Hao was stunned for a moment. Then, the corner of his mouth twitched.

F*ck! He was actually being teased by a little girl!

"Hurry up and change my precious clothes!"

He shouted with a stern face.

"Oh!"

Ji Qiuci didn't dare to say anything more and obediently responded. She pouted her lips slightly, looking extremely cute.

Tang Hao called back the divine furnace and gave them two balls of divine liquid.

Two hours later, the two of them broke through again and advanced to the realm of five apertures.

This divine liquid had been refined by the Taixu divine fire. The energy within was the purest, so they naturally absorbed it quickly. This efficiency was even higher than the aperture opening pill.

The two of them were still very excited about their first breakthrough. Now, although they were still a little excited, they were much calmer.

"The divine ancestor ... He can't be thinking of letting US Open the nine acupores today, right?"

Ji chunxuan whispered as she looked at the divine furnace that was flying back. Her expression was filled with shock.

It was shocking enough that they had opened four apertures in one day. Did the divine ancestor want them to open nine apertures in one day? This was simply too fast, so fast that it was somewhat inconceivable!

She had never heard of anyone who could open nine apertures in one day.

The divine power of this divine ancestor was truly shocking!

“Swallow it!”

Tang Hao called back the divine furnace and sent two more balls of divine liquid over.

Soon, the two women opened two more apertures and reached the realm of seven apertures.

“Eh? Who is that?”

Just as he was about to let his true spirit take the divine furnace and continue its search, Tang Hao suddenly sensed a powerful divine sense rush up from the depths of the sea. It arrived in front of him in the blink of an eye and transformed into a blue sea Dragon.

“Fellow Daoist, let’s stop when it’s appropriate!”

Dragon said.

“You’ve finally appeared!”

Tang Hao looked at him and said with a smile.

He had spent so much effort to sweep the area in order to force this guy to show himself.

“Dao friend, you’ve almost killed all the 8th tribulation and countless 7th tribulation cultivators here. Are you still not satisfied? Do you have to kill us all?” Dragon shouted, his tone angry.

“As long as you come out and my main body comes, I’ll stop!”

Tang Hao said.

The sea Dragon fell silent.

How could he not know what this guy’s goal was? moreover, he was also clear that this person was probably the heaven-defying monster that had recently been wildly talked about on the blue meteor star.

A nine tribulations warrior who was less than a hundred years old!

This person’s talent, abilities, and background were all extremely terrifying.

In the face of such a figure, once he showed himself, he would probably not be able to leave.

“You also know that I won’t show myself. Otherwise, I wouldn’t have only come as a soul!” “I’m here to negotiate,” Sea Dragon said.”What do you want so that you’ll let the cloud Sea beast World go?”

“Let me think!”

Tang Hao rubbed his chin and pondered.

This Old Sea Dragon wasn't a fool. He was very smart. He only had a soul, and his body was well hidden. If he didn't stop, he probably wouldn't be able to force this old man out. He might as well negotiate and gain some benefits.

“How about this! If you cut off half of your flesh, I'll stop and never attack your Cloud Sea beast Realm again.” Tang Hao said.

“Half?”

The sea Dragon was shocked. Wasn't this asking for his life?

“No! At most, one-tenth!” Dragon said immediately.

“I'll take a step back. One-third. There's no room for discussion. If you don't agree, I'll kill all the sea beasts in your Cloud Sea.” Tang Hao said coldly.

“This ... Good!”

Dragon pondered for a long time before nodding.

Then, Dao hun exploded.

“As expected of an old fox!”

Tang Hao grinned.

If Dao hun went back, he would be able to track him down. However, if he exploded, he wouldn't be able to track him.

After a while, another soul came from the sea area with a ring.

He opened it and saw a Dragon's body.

“Good! I won't attack your Cloud Sea beast Realm anymore. Similarly, I won't attack you!” Tang Hao said solemnly as he kept the ring.

This Old Sea Dragon was indeed courageous to cut off his own flesh.

Since the Old Sea Dragon had kept his promise, he had to keep his promise as well.

“Let's go!”

He steered the ship and returned to the Ji family with the two women.
