

The Mightiest Little Peasant Chapter 2827

The Ji family.

The ship landed.

Three figures flew out of the ship and landed in front of the attic.

Chun Xuan and Qiu Ci were both excited.

In less than a day, they had advanced from one aperture to nine apertures, which was unbelievable.

“These are the souls of 8th tribulation beasts. Take them. Also, these are some cultivation methods of true spirit. You can choose one yourself. Remember, you can’t tell anyone else.”

Tang Hao turned around and glanced at them. He flicked his sleeve, and beams of spiritual light shot out.

The two girls were stunned.

They had just opened their nine acupores, and they were already refining true spirit?

This was too fast!

“Yes! Holy ancestor!”

Then, they received it respectfully, and their expressions became more and more excited.

The patriarch was right. Following this divine ancestor was truly a world-shaking opportunity.

It probably wouldn’t be long before they had a chance to reach the ninth tribulation.

And this realm was something they didn’t even dare to think about before.

In the cloud Sea, there hasn’t been a single ninth tribulation cultivator in thousands of years. Even in the entire Azure meteor star, there weren’t many ninth tribulation cultivators. To be able to advance to the ninth tribulation was the dream of many cultivators!

“Alright! You guys can leave!”

Tang Hao waved at them.

The two of them bowed and saluted, then turned around and headed to the building at the side.

After they landed, they looked at each other in disbelief that they had reached the nine apertures realm so easily.

“Big sister, how do you think the divine ancestor is so powerful? He’s clearly still very young, not even a few years older than us.” Ji Qiuci looked at the pavilion on the side, her eyes full of admiration and worship.

“The divine ancestor is not an ordinary person. Of course, he is powerful. I don’t think even a force like the Daluo heavenly Palace can produce a figure like the divine ancestor.”

As Ji chunxuan spoke, she also looked to the side, her eyes shining.

“So powerful? Then where did the divine ancestor come from?”

Ji Qiuci asked curiously.

“Who knows! This isn’t important. We just need to follow the divine ancestor and serve him with all our hearts.” Ji Chunlin said, “it’s our good fortune to be able to follow him.”

“Yup!” Ji Qiuci nodded, her eyes still fixed on the pavilion, somewhat lost in thought.

“You, your eyeballs are going to fall out!”

Ji chunxuan stepped forward and gently pinched her ear as she teased.

“Sister, what are you doing!”

Ji Qiuci came back to her senses and rebuked, “I just wanted to take a look. What’s wrong? when I came back just now, I couldn’t help but look at you in a daze. Now you’re criticizing me?”

“I didn ‘t!”

Ji chunxuan’s beautiful face immediately turned red.

“You’re still denying it? look, your face is red. You’re in love!” Ji Qiuci said mischievously.

“You brat, I’m your sister, how dare you laugh at me!”

Seeing that she couldn’t win the argument, Ji chunxuan put on a stern face and rebuked.

“So what if you’re my sister? you used to put on airs and pressure me when your cultivation was higher than mine. Now you’re both nine acupores Masters. I’m not afraid of you!” Ji Qiuci raised her face and said proudly.

“Besides, in the eyes of the divine ancestor, there’s no such thing as sisters. When it’s time to warm my bed, watch how I’ll deal with you, my elder sister!”

As she spoke, she leaned over and whispered into Ji chunxuan’s ear.

After saying that, he even lightly blew on it.

Before Ji chunxuan could react, she chuckled and retreated into the attic.

“You ...”

Ji chunxuan was stunned for a moment before she came back to her senses. Her face was red from embarrassment.

“You stinky girl, come over here. How dare you tease your sister? I’ll teach you a lesson!”

She stomped her feet in anger, her face full of shame and indignation.

After he finished speaking, he chased after her and started to play.

Tang Hao could not help but laugh when he heard the commotion from the attic.

He stepped into the room and sat down cross-legged.

The things he had given them just now were enough for them to cultivate for a while.

Cultivating the true spirit was not an easy task. It was much more difficult than breaking through the apertures. It would probably take them some time to cultivate the true spirit.

After that, devouring the soul of an eighth tribulation beast would not be an easy task.

Tang Hao didn’t plan to let them reach 30000 meters quickly. He planned to let them stop for a while after they finished absorbing the souls and stabilize their cultivation.

If it was too fast, it would be easy to spoil things and cause the foundation to be unstable.

After all, they were too young and inexperienced. They probably wouldn’t be able to pass the Tribulation if they just pulled it up to 30000 meters.

The ninth tribulation was not easy. It targeted the divine soul and was extremely dangerous.

Previously, in the Holy region, many old monsters had already reached 30000 meters, but they did not dare to cross the Tribulation. On this Azure meteor, there were also many people like Ji juechen and the unlucky Luosha Island master who had reached 30000 meters a long time ago but still did not dare to cross the Tribulation.

Then, he took out the ring that contained the sea Dragon’s flesh.

“I’ve recovered quite a bit!”

He opened his mouth and smiled.

The sea Dragon’s flesh and blood were very powerful. Although it was only one-third of its flesh and blood, it was enough for him to heal many cracks.

He summoned the divine furnace, refined it easily, and then swallowed it.

After he finished absorbing, he entered the spiritual illusionary realm.

In less than a day, the number of people entering the spiritual void realm had increased by a lot. It seemed that in Wu Zhou, many keys had already been obtained by various forces and sent back to their sects.

Tang Hao stood above the spirit void continent. Nothing could escape his eyes as he looked down at the vast continent.

In this world, he was the ruler and could control everything.

“There’s a lot more of the aura of the ninth tribulation!”

He could also sense the aura and realm of everyone in this world.

“Hmph! You’re overestimating yourself!”

All of a sudden, he sensed something, and his gaze swept toward a certain area of the continent.

There, a figure was constantly flying up, as if he wanted to break through the clouds and explore the world.

This person’s cultivation level was at the ninth tribulation.

His entire body was shimmering with golden light, exuding an aura of immortality.

“This world must have a boundary and a core. As long as we can find the core, we might be able to control this magical world. At that time, a mere Azure meteor star will be nothing. My Tian long celestial dynasty will definitely rise and become an Overlord of the immortal realm.”

He mumbled. His figure was like a shooting star as he continued to rush upwards.

His expression was extremely fanatical.

The Tian long divine dynasty was the Overlord of the Huangzhou, the strongest of the nine provinces. Although their strength was superior to the Cangliu star, it was not enough to unify the star, let alone cross the star.

However, this magical world allowed him to see the hope of the rise of the divine dynasty.

As long as he could control this world and possess all the inheritances, the Tian long divine dynasty would prosper.

Moreover, his God dynasty could easily rule the entire Cang Liu star cultivation world through this world.

This world was too useful.

“What ... What’s that?”

Just as he was rushing upwards, his eyes suddenly focused. He caught a glimpse of a golden divine light flashing in the endless sea of clouds above. A terrifying aura gushed over and covered him.
