

## The Mightiest Little Peasant Chapter 2828

“A beast?”

The nine tribulations mind of the Sky Dragon celestial dynasty was shocked and a little flustered.

On his way up, he had crashed into many terrifying giant beasts and died several times. This time, he had finally made it up and was about to reach the border. Why were there still ferocious beasts?

“Wait! It’s not a beast, it’s lightning!”

“What kind of lightning is this? Oh my God! Such a terrifying aura, it’s like a world-destroying divine lightning!”

When he saw the golden light clearly, he was shocked and his face was distorted.

In the sea of clouds above, golden lightning bolts filled the sky and struck down at him. The aura of destruction was extremely terrifying!

He didn’t even have the time to let out a scream before he was blasted apart by the lightning.

“I must have sensed the border, and that’s why the divine lightning was triggered ...”

“No, I have to try again!”

He was unwilling to give up. Gritting his teeth, he climbed up again, wanting to try again.

However, as soon as he appeared at the point of his birth, a bolt of lightning struck down from the sky and blasted him apart.

Everyone was dumbfounded.

This was the first time he had been struck by lightning at the spawn point.

“That guy just now seemed to be ... A nine tribulations Almighty!”

“That’s right! It’s the nine tribulations!”

They discussed in low voices, all extremely shocked.

“Ah!”

“Uh!”

Following that, they saw the Golden figure climb up again and again at the point of birth. However, every time he came up, a bolt of lightning would strike down and explode him.

“So miserable!”

“Hiss! It seems that the heavens “might can not be offended!”

In all directions, some of the nine tribulations experts were watching.

In fact, they all wanted to find out what was going on, but they gave up on the idea after being killed by some terrifying beasts. Only the Imperial uncle of the Tian long celestial dynasty kept on persevering.

The current situation made their scalps tingle.

It was obvious that this person had angered the soul of the true immortal who was in charge of this world.

In this place, the senior Ling Xu who created this world was the master of this place. If the heavenly Dao violated his will, it was equivalent to violating the heavenly might, which was why he was treated like this.

“Exalted immortal! Senior! I was wrong! This junior won’t dare to do it again!”

After being struck more than ten times, the ninth tribulation expert of the Tian long celestial dynasty was finally afraid. He knelt down and begged for mercy.

The lightning bolts that fell from the sky paused for a moment before dispersing.

“Hu!”

He looked up and heaved a sigh of relief. When he looked up at the sky again, his eyes were filled with fear and respect.

He didn’t dare to think about controlling this Jie anymore.

If he offended the heaven’s might again, he and everyone in the Tian long divine dynasty might be kicked out of this world. By then, it would be too late for him to cry.

The nine tribulations around him looked up with a look of awe.

“Hmph!” Tang Hao grunted in the chaotic space above.

A mere Dao glimpse realm also dared to be impudent here!

Even if the soul of a true immortal descended to this world, he would have a way to trap it, not to mention a mere Dao glimpse stage, which would be as easy as blowing off dust.

He patrolled around for a while more before heading towards the border of the continent.

This space was still expanding, and so was the continent. It was expanding without a moment's pause. He also needed to create new landforms, new living creatures, and all kinds of trials and dangerous places.

He stayed in the spiritual illusion realm for several days.

"It's almost time!"

As more and more people came up, he felt that the time had come.

His figure flashed and disappeared.

When he reappeared, he was already in the sky above the spirit void continent. He had transformed into a celestial-like figure with white hair and a white beard. Divine light was shining around him, and he was extremely dazzling.

Everyone on the continent raised their heads and looked up with respect.

"The spiritual void realm has been open for more than twenty days, and the number of people who have entered this realm has already reached tens of millions. This should have been a good thing. I created this realm to imitate the great gods of the ancient times and benefit the common people."

"If you can gain something in this world, I'll be very pleased ..."

"Senior's actions are truly of boundless virtue!"

All the cultivators knelt on the ground and said respectfully.

This senior had created this magical world. No matter what cultivation level he was at, he could come up here and Exchange for countless ancient cultivation methods and even the inheritance of true immortals. If this wasn't boundless merit, what was it?

One had to know that those powerful forces all kept their cultivation techniques tightly guarded. Once someone dared to secretly learn them, it would bring about the extermination of the entire family.

"However, to maintain this realm, a large amount of spiritual essence and immortal Qi is needed. After running for more than 20 days, more than half of the remaining energy has been consumed."

Tang Hao said.

All the cultivators' expressions changed.

"Senior, what should we do?"

Some of the nine tribulations said with an anxious expression.

If the energy was gone, this world would be closed. At that time, they would no longer be able to ascend and could no longer exchange for the inheritance of those true immortals.

“Yup! Senior, is there any way to replenish the energy and maintain the operation of this realm?”

The cultivators from all four sides said, all anxious.

“No need to rush!”

Tang Hao smiled, but he was happy in his heart. These people had taken the bait!

“When I created this world, I already thought about how to maintain its operation. You can use the key to bring some spiritual essence into this world and worship it to maintain the operation of this world.”

“Of course, you won’t pay for nothing. The more spiritual essence you offer, the more contribution you’ll make to this world, and you’ll be rewarded handsomely.”

As Tang Hao spoke, he flicked his sleeve, and a huge wheel appeared beside him.

The entire wheel glowed with a golden light. There were many boxes on it with the names of various cultivation techniques written on them.

The cultivators below were all stunned.

They stared at the names, their saliva almost drooling.

There were all kinds of true immortal inheritances on it, and there was even a box with the words immortal King inheritance.

Could it be that by offering the spiritual essence, they would be able to obtain the opportunity to draw out these cultivation techniques?

“That’s great!”

Many people cheered and trembled with excitement.

Isn’t it just spirit, who doesn’t have it!

Compared to the inheritance of a true immortal, what were some spiritual essences?

As long as he could get a true immortal’s inheritance, it was worth it no matter how many spiritual essences he had to pay.

This was because spiritual essence could be nurtured again. It was something that could be regenerated, and all of them had it in their sects. However, none of them had the inheritance of a true immortal. If they wanted to exchange for it with fragments, it would take a long time to get it.

“Hurry! Hurry down and prepare the spiritual essence!”

The nine tribulations Saint ancestors of the major forces were all a little crazy, and they rushed to the point of birth.

They were going to take out all the spiritual essence in the sect and extract the inheritance of the true immortal.

They were even more afraid that these rewards were limited. Once someone else got it first, they would lose it. Thus, all of them were extremely anxious.

Tang Hao laughed again when he saw that.

He had long thought of this offering system.

This was a pay-to-win system. Through the inheritance of a genuine immortal, he lured them to keep offering spiritual essences. In this way, he could easily collect countless spiritual essences and quickly recover from his injuries. Later, he could save them for the disciples of the Haotian Daoist sect.

The resources in this world were simply too abundant, far surpassing that of the sanctuary.

Through the spiritual void realm, he could collect and plunder the endless resources of this realm for his own use.
