

The Mightiest Little Peasant Chapter 2838

"I know!"

Tang Hao smiled. He did not mind.

He had already considered the possibility of being retaliated against.

"It's good that you know!"

Mirror flower Palace head said with a smile.

Ji Ruyin glanced at Tang Hao and relaxed.

Since the divine ancestor had said so, nothing would happen. Perhaps the divine ancestor would be able to stay in the Ji family for a while because of this, which was a good thing for her.

Are you familiar with the situation in the Tian long celestial dynasty?"

"I'll go with you," Tang Hao said after he sat down and thought for a while.

"I know a little."

"Then tell me about the specific strength of the Tian long celestial dynasty." Tang Hao said.

"The Tian long divine dynasty has been established for more than five thousand years. Over the years, many ninth tribulations have appeared one after another, and there should be more than ten of them in total. The youngest one is this Crown Prince, ao Hong, with extremely demonic talent."

"It is said that this person did not learn the mantras of the Tian long celestial dynasty. Instead, he learned from an expert from beyond the stars and has some connections with a giant force in outer space."

Mirror flower Palace head said.

"What force?" Tang Hao's heart skipped a beat when he heard that.

"This ... I'm not very sure. I only know that there are some superpowers from beyond the stars behind the Tian long celestial dynasty. The same goes for Great Yan celestial dynasty. They also have connections and backers. That's why these two superpowers have been fighting for so many years."

"The two major powers of Huangzhou are not to be trifled with. Powers like my mirror flower Palace generally don't get involved in Huangzhou matters. The further, the better."

Mirror flower Palace head said.

“Then ... Are there any Dao integration realm old monsters in the Tian long divine dynasty?”

Tang Hao asked again. His eyes lit up.

“This! It’s hard to say. The strongest in the Tian long divine dynasty is their founding ancestor, the first generation Saint Emperor. He was already at the ninth calamity more than 5000 years ago, but I don’t know what realm he’s at now.”

“No one knows if he’s still in Cangliu. Many people say that he’s long gone into the depths of the celestial realm.”

Mirror flower Palace mistress frowned and asked hesitantly.

“Five thousand years?”

Tang Hao did some calculations. According to the speed at which most cultivators condensed their Dao accumulations, they might not be able to enter the Dao integration realm in five thousand years.

However, he was already a 9th tribulation cultivator at the start of the court session, so he might have accumulated a lot of Taoist connotation. Perhaps he had really reached the Dao integration realm by now.

But unfortunately, this person might not be on this planet.

“What a pity!”

Tang Hao slapped his thigh and said regretfully.

If he could kill this old monster and seize his Dao attainment, he would be able to advance to the Dao integration realm very quickly.

“What’s a pity, Daoist Tang?”

Mirror flower Palace head was surprised.

Wasn’t it a good thing that the old monster wasn’t in Cangliu?

This fellow Daoist Tang is only at the Dao glimpse realm. If that old monster was still in Cangliu, how could fellow Daoist Tang withstand him once he came?

“Oh! It’s nothing!”

Tang Hao waved his hands and smiled.

“Then what about Great Yan Dynasty?”

Then, he inquired about the situation of another celestial dynasty.

The two of them chatted, and soon, four hours had passed. The venue below was already full of people.

After a while, the light in the auction hall dimmed, and an old man walked out from the auction stage.

“It’s starting!”

Tang Hao sat down and looked at the stage.

The old man simply opened the auction and pushed out the first auction item. It was a nine tribulations ancient weapon, a flying sword, made by an ancient master.

Tang Hao glanced at it and lost interest.

With his current level of knowledge, ordinary treasures simply could not enter his eyes, let alone this kind of tribulation tool. Casually refining it would be better than this.

The response from the audience was average and not very enthusiastic.

This time, most of the People’s targets were still the keys and the few treasures in the finale.

After a round of bidding, the flying sword was quickly sold.

Following that, one by one, the collection items were pushed up and auctioned off.

After all, it was an annual auction of the four treasures Chamber of Commerce. The quality of these treasures was very high, and it would not be unsuccessful because no one was interested in them.

Tang Hao glanced at every item, but he was not interested in any of them.

Mirror flower Palace mistress, on the other hand, bought a few treasures. There were some pills and a few armors.

After about four hours, it was the Key’s turn.

There were more than 400 of them and they were split into more than 40 auctions. Each auction had ten of them, and the ten people who made the highest bids each got one.

Mirror flower Palace mistress and Ji Ruyin both bid for one each.

Tang Hao thought about it, then decided to bid for one.

“Finally, the finale of our auction. I think everyone has heard of it before. It’s a Star Crystal core!”

“There are many grades of Star Crystal cores. The common ones are the low-grade ones. Even the mid-grade ones are very rare. Today, we are going to auction an even rarer, even rarer high-grade crystal core!”

“You guys, look!”

The old man on the stage shouted and opened a Jade box placed in front of him.

In an instant, a blinding divine light gushed out from within.

“It’s so eye-piercing!”

Below, there were exclamations of shock.

Many xiuzhe raised their hands to cover their eyes.

Tang Hao, who was sitting in the private room, narrowed his eyes. He was dazzled by the light.

He took a closer look and saw the appearance of the crystal core. It was about the size of a head and was completely crystal clear. There were even spots of light flickering inside. It was extremely beautiful and somewhat dreamy.

Tang Hao was a little scared.

This was the first time he had seen such a high-grade and perfect Star Crystal core.

He had seen many Star Crystal cores in the sacred treasury, but none of them were like this. It might be due to their quality and the different conditions of the stars that they had such great differences.

“Top-grade!”

Tang Hao praised.

This piece of Star Crystal core would be the perfect material to make an immortal ring!

“It’s indeed a good thing!”

Even mirror flower Palace mistress’s eyes began to burn.

“This crystal core is an ancient item. I found it in an ancient cave abode. Not only is it of a high grade, but it’s also perfect without any flaws. I’ve auctioned many Star Crystal cores, and this is the best one.”

“A perfect item naturally has a high price. The starting price is ten thousand high-grade crystal stones! Every bid must be at least 1000!”

The old man held up the crystal core and shouted.

“High-grade crystal?”

Many people in the audience were speechless.

One piece of high-grade crystal was equivalent to one hundred million ordinary crystal. Ten thousand pieces would be one trillion!

Only a few superpowers would be able to compete for it.

“Now, the bidding begins!”

The old man put down the crystal core and shouted.

“Eleven thousand!”

The next moment, someone shouted.

“Twelve thousand!”

“Thirteen thousand!”

Following that, the sound of bidding came from the private rooms of the auction house, and the atmosphere became a little heated.

” 19000!”

“Twenty thousand!”

In just a short while, the price had soared to twenty thousand.

“Thirty thousand!”

Tang Hao made his move and added ten thousand.

He had to get this Star Crystal core.
