

The Mightiest Little Peasant Chapter 2846

“Al!”

The Holy ancestors who were chasing after him all sighed and stopped.

Once this sword hit, they would be fine!

It would be very difficult for that kid to take this sword head-on. Even if he was not injured, his celestial core power would be greatly consumed and he would no longer have the strength to fight.

“Hahaha! What a joke!”

On the heavenly Dragon warship, ao Hong could not help but sneer.

Previously, this brat had talked big and arrogantly challenged more than 20 divine ancestors. Now that he was defeated by a single sword strike, he was destined to lose all face!

“Wait! Something’s not right!”

At this moment, the ecstatic southern sky divine ancestor suddenly frowned with a bewildered expression.

He narrowed his eyes and looked ahead.

There, the divine light had yet to dissipate. It was a vast expanse of white, and nothing could be seen clearly.

This wasn’t right!

Logically speaking, this kind of divine light should have dissipated in a few breaths ‘time. It definitely wouldn’t have lasted for so long, unless this was something that kid had created, and he had taken out some kind of treasure.

He activated his divine eyes and looked into the divine light.

“This ... This is ...?”

After a quick glance, his body trembled, and his face revealed extreme shock.

In the divine light, there was a ball of extremely bright light. It was shining with a silver light, like a cold Moon hanging there, emitting endless divine light. His sword hit the Cold Moon.

After taking a blow from him, the Cold Moon’s light did not dim at all. It was actually intact.

‘How ... How is this possible?’

He was at the Dao condensation realm and was using the top-notch nine tribulations ancient sword. If he were to go all out, this kid would not be able to block it!

What method did this kid use?

What kind of treasure was it?

At this moment, he was extremely shocked and curious.

“What’s going on?”

“What kind of treasure is that? What a shocking aura!”

At this time, the other divine ancestors also noticed the strangeness and activated their divine eyes and Dharma eyes. When they saw the dazzling brilliance, they all revealed shocked expressions.

It should be a defensive treasure!

However, what level of defensive treasure could have such power to firmly block this sword?

Even with their skills, it would not be easy for them to take on the sword of this Dao condensation expert.

“Could this be ... A celestial artifact?”

One of the divine ancestors suddenly exclaimed in shock.

“What? A celestial artifact?”

“That’s impossible!”

The divine ancestors were all shocked.

A celestial artifact!

How precious was this item? there were only a few of them in the entire origin immortal domain, and most of them were in the hands of the major powers and peak eccentrics.

How could this kid have a celestial artifact? and it was even rarer, a defensive celestial artifact?

They looked at the ball of light in disbelief.

“Impossible!”

On the heavenly Dragon warship, ao Hong’s face was livid as he shouted.

He didn’t believe that this guy really had a celestial artifact.

“A celestial artifact? It can’t be!”

The surrounding crowd was getting excited.

They had thought that the battle was over, but they hadn’t expected such a twist. The white-robed Saint ancestor had a rare defensive celestial artifact!

This was too shocking!

It was because fairy weapons were too rare. Previously, in Wu Zhou, the appearance of that broken fairy sword had already caused an uproar. This might be a complete defensive fairy weapon, which was even rarer.

“It’s a celestial artifact?”

On the dynasty’s warship, mirror flower Palace mistress was also a little shocked.

Then, his eyes revealed a deep sense of awe.

The fact that fellow Daoist Tang has a defensive immortal weapon on him is enough to prove that he has an extremely shocking background.

“The divine ancestor even has a celestial artifact!”

Ji Ruyin, Chun Xuan, and Qiu Ci stood to the side, their expressions full of shock.

“Let’s attack together!”

On the battlefield, the group of divine ancestors looked at each other and attacked.

If this was really a celestial artifact, they wouldn’t be able to break it by themselves. They had to work together and bombard it to break it.

At this time, they also came to a sudden realization. No wonder this kid was so arrogant just now. It turned out that he had such a treasure to protect himself.

However, this was a defensive treasure after all. No matter how powerful it was, it was useless. Once it was broken, that kid would return to his original form. At that time, they would be able to defeat him easily.

Whoosh! Whoosh! Whoosh!

Then, they shot out beams of divine light and attacked.

Boom! Boom! Boom!

The divine light struck the Cold Moon and exploded with a divine light.

However, the Cold Moon did not move at all. It allowed them to attack it for a while, but it only dimmed a little.

“A celestial artifact! It’s definitely a celestial artifact!”

In addition to their shock, they were even more certain that this was a powerful celestial artifact.

“Although the celestial artifact is strong, it requires a lot of celestial core power to activate. He can’t block it for long. In just a moment, he will be exhausted and defeated!”

The southern sky divine ancestor yelled.

He did his best to activate the ancient sword and attacked again and again.

“That’s right! He won’t be able to do it after a few more times!”

The other divine ancestors nodded and continued to attack.

Sure enough, as they continued to attack, the light gradually dimmed and moved faster and faster. Finally, with a crisp sound, it completely exploded, revealing the white-robed figure inside.

“Hu!”

The divine ancestors heaved a sigh of relief.

It was finally broken!

This battle was over. This kid had activated the celestial artifact for so long, and his celestial core power must have been almost exhausted. He couldn’t fight anymore.

Many of the divine ancestors immediately put away their treasures and concealed their auras.

“Boy, I didn’t expect you to have a celestial artifact with you. However, your cultivation is too low. You’re only at the Dao glimpse realm, so you can’t activate it for long. You can’t stop so many of us!”

The southern sky divine ancestor snorted and called back the ancient sword, about to put it back into its sheath.

“It’s not over yet, why are you guys so anxious!”

Tang Hao said calmly as he surveyed his surroundings.

All the divine ancestors were stunned. “Didn’t we already fight? you’ve used all your celestial core power to activate your celestial artifacts. What do you have left? what are you going to use to fight now?”

“This is just the beginning!”

Tang Hao glanced at them one by one. The corners of his lips curled up into a mocking smile.

Just now, he was only testing the ring's power, and he was quite satisfied with the results.

Now, it was time for him to make a move.

"You still want to fight? Alright! Then I'll send you off with a sword strike and kick you out!"

"Hmph!" The southern sky divine ancestor snorted coldly and urged the flying sword to spin again before shooting out.

Whoosh!

The sword light was like a shooting star, breaking through the air and arriving in front of him in the blink of an eye.

Tang Hao smiled faintly. He raised his hand, clenched it into a fist, and punched the sword.

The southern sky divine ancestor was stunned.

Then, he laughed.

Was this guy crazy?!

This was a top-notch nine tribulations ancient sword and it was extremely sharp. Under the activation of a Dao gathering realm expert like him, even a nine tribulations body would not be able to withstand it.

If this sword hit, it would definitely cause this kid's blood and flesh to splatter!
