

## The Mightiest Little Peasant Chapter 2851

“What do you want to exchange for?”

Tang Hao took out a book and threw it down.

“This is an ordinary true immortal’s inheritance!”

Great sun Palace head took the book and scanned it, pointing at one of the lines.

His expression was unusually excited, and the hand holding the book was slightly trembling.

This was the inheritance of a true immortal!

In the entire origin immortal realm, there were only a few powers that had such a powerful inheritance. With such a powerful inheritance, his great sun Palace would become even stronger.

“An ordinary true immortal’s inheritance costs 15 dark gold fragments. The number of fragments you have is just right. Once the exchange is done, it will be broadcasted throughout the world, and everyone in the spiritual void realm will know. ”

Tang Hao said.

He glanced at the fifteen fragments and understood.

The great sun Palace had drawn a lot of fragments by relying on the offering system, but there were only five in total. The remaining ten fragments must have been gathered from other forces and exchanged for a true immortal inheritance.

“I’m sure! I’ll exchange for this!”

The great sun Palace Master nodded.

As for whether it would be broadcasted or not, he didn’t care. After all, many people had already noticed his exchange this time, so it would definitely spread.

“Alright!”

Tang Hao nodded. “I’ll exchange for an ordinary true immortal’s legacy, then. There are too many ordinary true immortal’s legacies. I’ll draw one for you at random.”

As he spoke, he waved his sleeve and a bright golden light flew out.

“Congratulations to the great sun Palace for finally obtaining a true immortal’s inheritance after your relentless efforts. I hereby announce it as a form of encouragement!”

In the next moment, his voice reverberated across the entire spirit void continent.

In an instant, the entire continent was in an uproar.

“A true immortal’s inheritance? How was that possible? The great sun Palace only has a few fragments, how can it be enough to exchange!”

“This is too fast!”

Everyone raised their heads and burst into an uproar.

It had only been 50 days since the opening of the spiritual void realm. Basically, all the dark gold fragments had been drawn from the offering system. The lucky forces would only get three or four, and the poor might only get one. It was still far from exchanging for a true immortal inheritance.

But why did the great sun Palace suddenly exchange for one?

Where did they get so many dark gold fragments?

“Right, it must not be just the great sun Palace. Several super forces joined hands to exchange for this true immortal inheritance!”

Very quickly, the world understood.

Only superpowers could collect all 15 fragments so quickly if they worked together.

“That’s a good idea. Why didn’t I think of it?”

Many of the nine tribulations old monsters were vexed.

“It really is a true immortal’s legacy! Wonderful! Hahaha!” After getting the legacy, the great sun Palace Master opened it and was delighted.

At first, he was a little nervous, because no one knew whether the inheritance of the genuine immortal here was real or fake, or if it had been exaggerated or castrated. But now, it was a complete and genuine inheritance of the genuine immortal!

The cultivation method from the Dao severing stage to the immortal realm to the ninth tribulation was recorded in detail.

The immortal body cultivation method and the true spirit cultivation method were all inside, which made him extremely excited.

These two secret techniques were of extremely high levels. Compared to them, his great sun Palace’s cultivation method was no different from trash. He even wanted to return to the 7th tribulation and re-cultivate according to these secret techniques.

After a while, he calmed down and kept the scroll.

Then, he knelt down and kowtowed three times to Tang Hao.

“Many thanks for senior’s bestowment! This junior is extremely grateful! When junior returns to the sect, I will erect a statue of senior in my great sun Palace to remember senior’s kindness.” He said excitedly.

This gratitude, however, came from the bottom of his heart.

A genuine immortal’s inheritance like this was comparable to the inheritance of the Daluo heavenly Palace. In the entire Daluo immortal territory, there were countless forces on 100000 Saint cultivation planets, but only a few had such an inheritance.

Now, the great sun Palace was fortunate enough to have such a top inheritance.

All of this was thanks to this senior!

To create such a magical world and take out all the cultivation methods and inheritances so that everyone could have a chance to exchange for them, such breadth of mind and spirit was really like an ancient Saint.

“There’s no need for that!”

Tang Hao waved his hand.

“Senior, this is necessary! Not only do I want to do it, I want to do it gloriously and create a statue of a Saint for you!” The great sun Palace head said emotionally.

“Senior, my mist spirit sect is also willing to erect a statue for you and forever remember your kindness!”

“My vast Sea Mountain is also willing to erect a statue for senior!”

“.....”

Then, three other figures arrived and knelt down as well. They were all Masters of superpowers and came from different continents.

It seemed that the three forces had a share of the fifteen fragments.

“Good!”

Tang Hao glanced at them, then nodded and agreed to the request.

The four of them thanked him and then left, hurriedly logging off.

At this moment, the spirit void continent was still in an uproar.

Everyone was talking about the great sun Palace and the inheritance of the true immortal. Some worked even harder to collect fragments, and some began to contact each other, ready to follow the example of the great sun Palace and join forces to exchange for an inheritance.

Soon, the news also spread offline, causing a sensation.

The weight of a true immortal's inheritance was too great. It was enough to shake the entire Cangliu, or even the entire starry sky.

This was because only a few forces in the entire celestial realm had such an inheritance. It was too rare and too precious!

"This Azure meteor star is going to become lively!"

Some xiuzhe sighed.

"The legacy of a true immortal ... I wonder if it's a blessing or a curse!"

There were even xiuzhe that looked at the sky with worried expressions.

They all understood that as the news of the spiritual void realm and the inheritance of a true immortal spread, he, Cang Liu Xing, would soon become the focus of the entire starry sky, attracting the attention of countless forces in the four star fields, and even those giant forces.

To him, Cang Liu Xing, this was truly a blessing or a curse.

"That senior Ling Xu is truly a living saint! Now, the great sun Palace and the mist spirit sect have started to erect a statue of you. They want to erect a saint statue and worship you for all eternity."

"Really? This is something that has never happened on our Azure meteor star in the ancient times. When Emperor aotian ascended, no one erected a statue for him."

"Hey! How could this be the same! "Emperor aotian is powerful and the pride of Cangliu, but his contribution to us is far less than that of senior Ling Xu. This senior is worthy of the title of Saint! He deserves to have a saint statue erected for him!"

"Yup! I've heard that in the spiritual void realm, not only are the true immortal's inheritances powerful, but the alchemy Dao and artifact Dao ancient books are also earth-shattering existences. Even just a part of the incomplete books has made many alchemists and artifact Masters go crazy!"

Many people were even discussing senior Ling Xu, and they were extremely enthusiastic.

Their faces were all filled with admiration and respect.

As they discussed, the name of the Saint gradually spread in Cangliu and gained the recognition of the world.
