

The Mightiest Little Peasant Chapter 2852

For several days, the entire Azure meteor star continued to boil.

Previously, no one talked about the matter of the Royal immortal gathering. Everyone was talking about the spiritual void realm, the spiritual void Saint, the true immortal inheritance exchanged by the great sun Palace and the misty spirit sect.

A few days later, several major forces joined forces and exchanged for a genuine immortal's inheritance, which once again shocked the four corners of the world and pushed the enthusiastic atmosphere to a climax.

After the great sun Palace, mist spirit sect, and the other four forces, these other forces also expressed their desire to erect a saint statue to be worshipped for generations.

In an instant, spirit illusion saint's reputation reached a peak on the vast meteor star.

"Soon!"

In the pavilion of the Ji family, Tang Hao came out of the spiritual illusionary realm and looked up at the sky.

Two true immortal inheritances had appeared!

The starry sky was about to boil.

This starry sky was very large, and the distance between the stars was very far. Even the fastest means of communication would take some time to spread the news. Thus, the Azure meteor star was still very calm.

Now, the news of the spiritual void realm's birth had probably just spread and entered the ears of those major forces.

They would definitely be suspicious and wait and see. At most, they would only send some people to understand the situation.

However, when the news of the true immortal's inheritance reached their ears, they would definitely not be able to sit still and send a large number of people to Azure meteor star.

At that time, Cang Liu Xing would become the focus of the entire immortal realm.

The big forces from all four sides, the Giants, and even the most powerful Daluo heavenly Palace might come.

"The Daluo heavenly Palace?"

Tang Hao mumbled. His eyes were cold.

He didn't have a good impression of these traitors of the ancient human race. In fact, he even felt a little disgusted.

"When the time comes, how will they react? Will they seize a key and join the spiritual void realm, or will they seize all the keys and attempt to monopolize the entire spiritual void realm?"

Tang Hao muttered to himself.

The latter situation was not impossible!

The situation in this world was completely different from that of the Holy region. There were not many powerful inheritances. A few powerful inheritances were held in the hands of the major forces. These inheritances were also one of the foundations of their establishment.

They would definitely not be able to tolerate other forces obtaining inheritances that were as powerful as them.

"It seems that I have to make some preparations! Prepare for a rainy day!"

Tang Hao mumbled to himself. His expression was grave.

After pondering for a long time, he flicked his sleeve, took out the divine furnace, and began to refine his avatar.

Soon, the clones filled the entire room.

"Go!"

Tang Hao lifted a hand and tore open a space, allowing the clones to enter.

These clones all had keys with them. They would bring the keys with them to the starry sky. This way, even if the major forces wanted to snatch all the keys, they would not succeed.

He only heaved a sigh of relief when he was done.

He had already made his preparations. All he had to do now was wait for the various forces to arrive.

He took out all kinds of divine materials and the perfect Star Crystal core, and began to make immortal rings.

He had to make a lot of them. If sis Xiangyi had them, then so would clear snow and master Yu. Moreover, each of them had to be made in a different shape.

He refined it for an entire month, and only managed to refine three.

In this month, another true immortal's inheritance was born. It was exchanged by the Tian long divine dynasty, together with the spirit Vulture Palace and other major forces of various continents.

In the spiritual void realm, a lot of news had also begun to spread like crazy. It was said that many forces outside the stars had already heard the news and had already sent people to Azure meteor star.

“I heard that many big shots have come, and they’ve all sent extraordinary figures. They’re either high-level elders or sequence successors ...”

“They’re coming in full force! I wonder what the spiritual illusionary realm will look like when they arrive!”

Many people were worried.

Although there were many people in the current spiritual void realm, the atmosphere was still quite harmonious. However, once these giant forces came, the situation would be unpredictable.

They had long heard of the tyranny of these powerful forces.

“The great sun Palace and the others ... They seem to have sealed off the mountain!”

The news spread for a few days, and many forces sealed off their mountains.

The great sun Palace, mist spirit sect, heaven slaying sect ...

All the forces that had exchanged for the inheritance of true immortality had activated the big formation and sealed their mountain gates. Some had even flown off their entire mountain gates and fled into the void, hiding completely.

However, their people were still in the spiritual void realm, diligently collecting fragments.

“They’re here! They’re here!”

On this day, a piece of news shook the entire spiritual void realm.

The first power from beyond the stars had finally arrived. A large ship carrying countless cultivators descended from the starry sky. At this moment, it was hanging high in the sky above Cangliu.

“It’s the Yue clan of the great moon planet. Although they’re not a powerful force, they’re still a powerful force that dominates an entire planet.”

The information about this force also spread.

Soon after, another force arrived, shaking the entire place.

After a few more days, everyone became a bit numb. Such news came one after another, and the major forces from outside the stars came one after another. They couldn’t even count how many forces had come.

Many people in their own factions raised their heads and could see all kinds of large ships hanging high in the starry sky.

“The great emperor mountain is here!”

The arrival of the first giant force caused another commotion.

The great emperor mountain’s ship was especially huge. It was five to six hundred thousand Zhang Long. It was a huge object. When it descended from the starry sky and landed in the sky above Great Yan Dynasty, it shook the entire Huangzhou.

The great emperor mountain, as its name suggested, was a force that had produced great emperors.

As one of the nine magnates of this immortal domain, the great emperor mountain was extremely famous.

“The Xuanyuan clan is also here!”

The second Big Shot to arrive was the Xuanyuan clan, the number one clan in the origin immortal realm.

After that, it was the day of great joy.

When the great joy heaven’s warship descended and landed in the sky above the Tian long celestial dynasty, the cultivators all around looked fearful, and many were even terrified.

Although da Huan Tian was a Zen sect, it was not the Orthodox path of Buddhism. It cultivated the evil method of gathering Yin to supplement yang. It liked to abduct female cultivators and refine them into cauldrons.

When they came, the xiuzhe of Huangzhou would have to worry.

After the day of great joy, the people of the other big shots arrived one after another. When the Daluo heavenly Palace’s warship landed, it caused another commotion.

The Daluo heavenly Palace was undoubtedly the most powerful Overlord in this celestial realm. The name of this celestial realm was named after their force.

In this immortal realm, they were the most ancient and the most powerful force.

Even after the rise of the great emperor mountain, the sun Moon sect, the Xuanyuan clan, and other forces, they could not shake their Supreme position.

When the warship landed, Tang Hao was also in the Ji residence. He activated his heavenly eye and looked over coldly.
