

## The Mightiest Little Peasant Chapter 2853

There were many new people in the spiritual void realm.

They climbed up and looked left and right, finding it extremely novel.

“It’s amazing!”

“Who exactly is this spirit illusion Saint? Since he left behind such a magical world, there should be some legends about it!”

They strolled around and were all extremely amazed.

“This world is truly mysterious and unbelievable!”

Their leader was a handsome man in a white robe. His face was sharp and he had a pair of golden eyes. In between his eyebrows, there was a vertical eye that was slightly open and gave out a dazzling divine light.

With his hands behind his back, he looked around with a look of surprise in his eyes.

But then, his face turned cold.

“Such a magical world should belong to our great emperor mountain. These lowly bloodlines and weak ants are not qualified to enjoy such a good thing!”

He looked at the xiuzhe in the four directions and revealed a heavy expression of disgust.

“Senior brother is right!”

“This world should belong to our great emperor mountain! These lowly ants are not qualified to cultivate the inheritance of a true immortal. They are not worthy!”

The young men behind him all agreed.

They looked around with an arrogant look on their faces.

The great emperor mountain was a magnate of the celestial realm who ruled an area of the starry sky. In their eyes, even cultivators from level-nine planets like this were just ants.

“Hahaha! This world is really as magical as the rumors say. This world should be monopolized by our great joy heaven!”

“We have to get all the keys and kill all the forces that have exchanged for the inheritance of the true immortals. Our joyous sky will have everything!”

On the other side, another group of people also boarded.

The group of people were all dressed as Buddhist cultivators. They were all burly and strong like iron towers, but their auras were somewhat demonic and evil.

The leader was a ten-year-old boy.

He was fair and clean, with a delicate face, but when he opened his mouth, his voice was somewhat mature.

He looked around greedily and laughed out loud, overjoyed.

It was a magical world with countless cultivation techniques, ancient books, and even the inheritance of the immortal King. Once the great joy heaven occupied it, it might be able to suppress the Daluo heavenly Palace and become the only master of this immortal realm.

“Senior is right!”

The Crown Prince of the Tian long divine dynasty, Ao Hong, followed closely behind them with a respectful expression.

Although this person looked young and was a child, he was actually a super old monster. He had cultivated for six to seven thousand years and was now close to the immortal soul third level. His strength was unfathomable, and he was a high-level elder of the heaven of great joy.

He followed closely behind her, occasionally flattering her.

“Kid, you sure know how to flatter people. Why can’t you do anything? I heard that your Tian long celestial dynasty lost at the immortals gathering not long ago. You lost to that celestial dynasty and caused my great joy heaven to be laughed at by the people of the great emperor mountain.”

The boy turned around and unhappily rebuked.

“Senior, this ... I didn’t expect things to turn out like this either. Didn’t I tell you that a monster came to Cangliu recently? He’s less than a hundred years old and has already reached the ninth tribulation realm. His combat power is even more terrifying. At the immortals’ gathering, he killed a Dao condensation expert in one fell swoop.”

Ao Hong said with a bitter smile.

“What freak? I don’t believe it. How can a freak who is less than a hundred years old be able to kill a Dao condensation expert? There’s no one like him in the entire immortal realm. How can one suddenly appear on your Azure meteor star?”

The boy scoffed and said disdainfully.

“From what I see, he’s just an old monster. He likes to pretend to be young even more than I do. I made my appearance young, and he made his bones young. They’re all the same. They’re all pretending.”

“You said before that he seemed to have a celestial artifact on him?”

“Senior, that’s right. There’s indeed an immortal artifact, but I don’t know what it looks like.” Ao Hong said.

“That’s right, senior. There’s a peerless beauty beside this guy. She’s the most famous fairy on my Azure meteor star. It’s said that he doesn’t only have this peerless beauty, but also a pair of peerless beauties.”

Suddenly, his expression changed as he said.

A hint of ruthlessness flashed in his eyes.

It was all because of that damned guy that caused his dynasty to suffer a crushing defeat at the immortals assembly, causing him to lose all his face in the court and be criticized so much. He could not just let this matter go.

Even if the Tian long divine dynasty could not deal with him, it did not matter. He still had the immortal realm Overlord behind him, the heaven of great joy.

With the strength of the sky of great joy, he could definitely deal with that guy.

“Oh? Is that so?”

The boy’s eyes brightened when he heard the word “beauty”. A lustful look appeared in his eyes. “How beautiful?”

“She’s the most beautiful woman in the world and the most beautiful one in my Azure meteor star. How beautiful do you think she is?”

Aohong laughed.

“Gulp!”

The boy swallowed hard, and he was a little excited.

“Hahaha! Good! That’s great! I want to have a good taste of this peerless beauty!”

He laughed out loud, his eyes filled with greed and lust.

Ao Hong laughed as he was overjoyed.

This senior was a womanizer. Once he saw a beautiful woman, he would be intoxicated. With the seduction of a beautiful woman, he would definitely deal with that guy!

“Cough! I’ll first settle this matter in the spiritual void realm, and then I’ll go meet that guy. While I’m at it, I’ll also capture those few exceptional beauties and bring them back to the sect to properly train them!” The boy quickly restrained himself and spoke with a serious expression.

He took the lead and continued to sweep forward, exploring this world.

“That’s great!”

Aohong followed behind, but he was a little excited.

He would soon be able to take revenge for this.

Little did he know that Tang Hao had seen everything.

At this moment, Tang Hao was standing in the primal Chaos void. His eyes were scanning the surroundings. Nothing in the spiritual void realm could escape his eyes. He even checked out the people who had just come up one by one.

People from the nine magnates came up one after another.

With their strength, it would be too easy to get a key.

For example, the great emperor mountain and the great joy heaven had a Foundation here, so it was even simpler.

“Hmph! This aohong!”

Tang Hao looked at the people from the heaven of great joy and smirked. His eyes were filled with murderous intent.

He didn’t go to kill ao Hong, but he didn’t expect that this fellow would scheme against him behind his back.

Also, those people from the sky of great joy should die too. They actually dared to have ideas about the people around him.

Then, he focused his mind and continued to watch these people closely, trying to find out their every move.

The people of the nine magnates had investigated each other. When they met each other, there would be some conflicts. All of them wanted to monopolize this world.

However, after a period of time, they seemed to realize that none of them could monopolize this world, so they gathered together and began to discuss.
