

## The Mightiest Little Peasant Chapter 2866

“What do we do now?”

On the ships, the people of the nine forces looked at each other with dejected and depressed expressions.

Now, the key had completely spread, and their efforts had been in vain.

In fact, they might have even offended that spirit illusion Saint.

“Let’s go back first!”

Ning Yuzhen said.

Her brows were tightly furrowed, and her expression was extremely dejected.

This time, the nine superpowers had suffered a crushing defeat. Not only had they wasted their efforts, but they had also provoked a terrifying devil. They had suffered heavy casualties and were in an extremely sorry state. If this news were to spread, the nine superpowers would lose all their face.

“Whether it’s the matter of the spiritual void realm or that devil, let the elders in the sect decide!”

She sighed.

“I guess this is the only way!”

The rest of the people nodded and sighed.

They had thought that the spiritual void realm was already in their bag. After they returned, they would be rewarded and invited the experts in the sect to kill that demon. Everything would be perfect.

However, they didn’t expect the result to be like this. The development of the situation had completely gone out of their control.

When they returned, they might even be punished.

“Actually, it’s not that bad. After all, the opponent might be that ...”

The green-robed elder of the myriad beasts sect stood at the bow of the ship, looking at the starry sky and sighing.

At this moment, the preachers were all over the starry sky, constantly spreading the key. It was still a spark at the moment, but soon, these sparks would turn into a Prairie Fire and sweep across the entire starry sky.

He found it hard to imagine what kind of influence such a magical world would have on the starry sky!

Perhaps, it would bring about a profound revolution and completely change the situation in this starry sky.

“This is an unprecedented change!”

He sighed with emotion.

A long time ago, the Daluo heavenly Palace was the dominant force in this celestial realm. However, the emergence of the great emperor mountain changed the situation in the celestial realm. Then, the myriad beasts sect, the Xuanyuan clan, and the others rose one after another.

However, the changes brought about by all these could not be compared to what was happening now.

When the others heard this, their expressions turned cold.

Then, a look of worry appeared on his face.

Such a change was not a good thing for the nine magnates. Once the countless inheritances of genuine Immortals in that world were completely spread, everyone in this starry sky would be able to cultivate the inheritances of genuine Immortals. Then, where would the authority of the nine magnates be?

“Let’s go!”

The green-robed elder sighed again.

Soon, the warship began to jump again and sped away.

“Hmph!”

At that moment, on the Azure meteor, in the sky above the cloud Sea, Tang Hao retracted his gaze.

He had already used his heavenly eyes to lock onto the only surviving member of the great joy heaven, so he could naturally see and hear everything.

He had let that fellow escape on purpose. Otherwise, how could that fellow have escaped from him with his strength?

“You’re quite efficient!”

Then, he grinned.

Some of the avatars he had sent out had already reached extremely distant stars. He had also created many downlines through trickery, and many of them were wandering cultivators.

These rogue cultivators had no family or sect and were the slickest. Even if the nine magnates wanted to ban them, they could not.

“It’ll take some time for them to return to their respective sects. Then, they’ll need to discuss countermeasures and send people to Cangliu to deal with me. It’ll probably take two months, or even longer.”

Tang Hao made a rough estimation.

This part of the starry sky was too big, and the position of Cang Liu Xing was also a bit off, far away from the territory of the nine tycoons. A round trip would take a long time.

In these two months, he could have some peace and quiet to refine the immortal ring.

At the same time, he would consolidate his realm.

His cultivation level had risen too quickly. A month ago, he had just advanced to the Dao condensation realm, and now, he was already at the Dao integration realm. It was equivalent to 30 days of effort. He had soared from the Dao glimpse realm to the Dao integration realm in an instant. It was simply too fast.

“I hope that in two months, more of them will come. Who knows, I might be able to rush to the peak in one fell swoop!”

Tang Hao grinned.

When he reached the peak, he would catch up with Liu heihu.

Then, his body sank and he went into the sea.

After a while, he returned to the Ji family.

“Divine ancestor, are you alright?”

Ji juechen led a group of elders, as well as the sisters, Ji Ruyin, Chun Xuan, and Qiu Ci, to welcome them.

Their expressions were somewhat worried, but also somewhat shocked.

In the battle a few days ago, this divine ancestor had fought against the people on the great joy heaven’s Starship by himself. He was like a god who had descended to the mortal world and blew up the Starship that was hundreds of thousands of feet long with one punch.

The group of people from the sky of great joy fled in disorder. Even the high-level elder leading the group was killed by the divine ancestor.

“What is the strength of this divine ancestor?”

Ji juechen’s heart was filled with shock.

He could no longer fathom the strength of this person. He had clearly just advanced to the Dao condensation realm during the Royal immortal gathering, but he was already able to kill a Dao integration stage super mighty figure. This person was simply unbelievably powerful.

“I’m fine!”

Tang Hao said indifferently.

“Divine ancestor, you went to hunt down those people from the sky of great joy, right? How was it? Those people have done many evil things, and they deserve to die!” Ji juechen laughed.

“I let one go and killed the rest!”

Tang Hao descended and returned to his attic.

“The divine ancestor is mighty!”

“Sacred ancestor’s divine power is invincible. He’s like a god!”

The elders of the Ji family began to flatter him.

They were all extremely excited, and their faces were red.

This was a figure who could kill Dao integration stage super mighty figures. More importantly, he was less than 100 years old. He was absurdly talented and would definitely become a future emperor. As long as he could cling onto this person, the Ji family would really become rich.

“The divine ancestor is so powerful!”

Chun Xuan and Qiu Ci were also excited. Their eyes were shining and full of admiration.

Ji Ruyin’s beautiful eyes were also fixed on him, a little dazed.

Then, his eyes dimmed.

The old ancestor was right, he was really too dazzling, his background was unimaginable!

Such a peerless figure, perhaps she really could not force him.

“All of you ... Go back! That group of people has left, you can go back to the spiritual void realm.” Tang Hao glanced at them and waved his hand.

“Can I really?”

Ji juechen asked in surprise.

Hadn’t almost all the keys to the spiritual void realm been taken away? as far as he knew, only his Ji family and the two keys in the hands of the Holy ancestor were left!

If he went up now, he would attract the attention of the nine magnates, and the consequences would be unimaginable.

“The key has already been spread outside the planet. Now, the spiritual void realm is very lively. You can go up and have a look. In the future, the nine forces will not be able to stop it even if they want to.” Tang Hao said with a smile.

After he finished speaking, he waved his hand, indicating for them to leave.

He sat down in the room, took out many divine materials, and continued to make immortal rings.
