

The Mightiest Little Peasant Chapter 2878

Cangye.

A stream of light swept over from outside the star and circled the entire star.

At the same time, a powerful divine sense swept through the entire planet as if it was searching the heavens and earth.

“No, I didn’t!”

On the star Shuttle, Tang Hao retracted his divine sense, a little disappointed.

“However, there are some good things!”

Then, he disappeared from the flying boat. When he reappeared, he was already on cangye.

He stretched out his hand, and the entire mountain range below him was grabbed by him. The entire gold and iron ore vein underground was also lifted up and put into his bag.

He then moved to the side and kept all the ferocious beasts he saw into the furnace.

These were all good treasures, and he couldn’t waste them.

He was as fast as the wind and lightning. He circled the entire star once before returning to the flying boat.

The flying boat trembled and turned into a stream of light, flying toward the next Star.

He had to act quickly because there were simply too many of these stars. If he was any slower, it would take a long time before he could find his ring.

Although he had sent many avatars out to spread the key and help find the ring, they were still too few compared to the stars in the sky.

When he reached the next Star, he did the same thing.

“The divine ancestor is so busy!”

The three women on the boat were all soaking in the spiritual void realm. They came down from time to time to take a look. They couldn’t help but sigh when they saw Tang Hao coming and going.

Just like that, Tang Hao searched thousands of stars. He was too lazy to go down. Ordinary mines and a few eight tribulation beasts could no longer interest him.

It was a waste of time to go down and walk around just for this little thing.

The star Shuttle made a full circle around the area, and if he didn't find anything, he would immediately leave without stopping.

He would only go down to take a look when he encountered a ninth-grade star and collect some good treasures along the way.

Very quickly, half a month had passed.

He couldn't even find the shadow of the ring. Instead, he collected all kinds of treasures in piles, especially the eight tribulation fierce beast. He didn't know how many he had collected. He had even caught a nine tribulation fierce beast and refined it.

Ji Ruyin, Chun Xuan, and Qiu Ci spent half of their time cultivating, while the other half was spent in the spiritual illusion realm.

The cultivation of the three women was about the same, at the true spirit stage.

Divine ancestor, there's a piece of news that's been spreading in the spiritual void realm recently. I wonder if you're interested?"

That day, Tang Hao returned to his Star Shuttle after searching another ninth-level star.

"Oh? What's the news?"

Tang Hao was surprised.

He had not gone up to this spiritual void realm for some time.

"Someone found an ancient star-devouring beast somewhere in the celestial realm," Ji Ruyin said."And this beast just happened to fall into a dormant state, so it caused quite a stir. Now, many people in the spiritual void realm are discussing this matter."

"A star devouring beast?"

Tang Hao was surprised.

This should be the star Devourer beast!

He had seen this thing twice. The first time was in the endless starry sky, and the second time was on the ninth floor of the xuanhuang tower. Among the ancient great beasts, there was a star devouring beast.

However, the one at the other end of the black and yellow tower was different from the ordinary star devouring beasts. It was a variant of the star devouring beasts. It did not devour stars but only ate people. It was extremely brutal and violent, which was why it was regarded as a great evil and suppressed in the tower.

As it did not devour planets and only ate humans, the star devouring beast was not big.

The star devouring beast clan was a very strange existence. The more stars they devoured, the bigger their body size.

In the beginning, they only devoured small stars. When their bodies grew to a certain size, they began to devour larger stars and leveled up step by step. Those star-devouring beasts that had lived for tens of thousands of years and devoured countless stars were extremely terrifying existences.

“Ancient? How big is it?”

He asked.

Ji Ruyin was stunned for a moment and her brows furrowed. She clearly didn’t know how to describe it.

“Big! It was extremely big! It’s so big that it’s hard to imagine!”

She tilted her head and thought for a moment. Then, she raised her hand and gestured.

Tang Hao smiled when he saw her cute face.

“Anyway, it’s very big ...” When her eyes met his, her cold and beautiful face immediately blushed, and she looked a little shy. “It’s said that it has lived for many years. It has existed since the birth of this celestial realm.”

“It’s been going around for the past ten thousand years and has devoured many stars. Even the great emperors don’t dare to provoke it.”

“It’s that powerful?”

Tang Hao was speechless.

This star-devouring beast must have reached the immortal level!

“Yup! Everyone says it’s very powerful and that it’s the most terrifying existence in this immortal domain.” “However, this giant beast has a habit,” Ji Ruyin said. “It will go to sleep every once in a while.”

“There was once a bold person who took advantage of its dormancy to enter its body and found many treasures. Therefore, its dormancy this time has attracted a lot of attention.”

“Many people are rushing over now. They are waiting for it to go into hibernation before entering its body to search for treasures.”

Tang Hao raised an eyebrow when he heard that. “This group of people is really bold!”

“Isn’t that so!”

Ji Ruyin said with a nod.

“However, a star Devourer beast of this age must have many treasures in its body. It’s worth the risk.” Tang Hao said.

The star Devourer beast could not only devour stars, it could devour anything. Ordinary things would be completely digested, and what was left behind were all treasures, such as Star Crystal cores, top divine materials, and even immortal materials.

This was also uncertain.

It was possible that this monster had swallowed some immortal item in the ancient times. Such a treasure could not be digested and would only remain in its body.

“Divine ancestor, you mean ...?”

Ji Ruyin said.

“Of course I’m going!”

“Didn’t you say that many people are going?” Tang Hao laughed. “How can we not join in on the fun?”

“By the way, don’t call me divine ancestor anymore. Just call me young master Tang like before!” He added after a pause.

“Yes! Young master Tang!”

Ji Ruyin replied respectfully.

“Mark the position on the star chart.”

Tang Hao took out a crystal ball and touched it. A hazy light bloomed and transformed into a vast starry sky in front of him. Stars of different colors were arranged in all directions, and each star had a name on it.

This was a high-level star map, which ordinary forces did not have. He had also obtained this one from the happy Buddha.

With a single glance, the entire starry sky could be seen and the location could be seen clearly.

“It’s probably here. It’s a huge empty area. There are no stars in the surroundings. It’s devoured everything in the past thousand years.”

Ji Ruyin looked around and pointed at a spot.

It was an empty area without any stars.

“Alright!”

After Tang Hao saw it clearly, he nodded and immediately urged the star Shuttle to fly toward that area.
