

## The Mightiest Little Peasant Chapter 2883

“Old Yue?”

The Wu clan’s and Zhou clan’s old ancestors’ expressions changed.

“There’s nothing here. Old Yue, what are you doing here?”

The Wu clan’s ancestor said in an unpleasant tone.

“Hahaha! Old man Wu, you’re not being honest. The more you say you don’t have it, the more you must have it. Kid, come, tell me, what treasure do you have on you?”

The Yue clan’s patriarch laughed and looked at Tang Hao.

“It’s nothing, just an immortal material!”

Tang Hao said, shrugging.

Gulu!

The Yue clan’s elder immediately swallowed a mouthful of saliva, and his eyes were almost red.

Immortal material?

Wasn’t that something he had been dreaming of?

“Young man, come, ignore these two old guys and give the immortal materials to me. Don’t you like beautiful women? When we get out, I’ll give you a few hundred, no, a few thousand!” The Yue clan’s elder said.

“Yue Lao er, do you still have any shame!”

The Wu clan’s ancestor cursed.

This stupid kid!

Then, he looked at Tang Hao and cursed in his heart.

Is this kid an idiot?

He even said that he had immortal materials!

“Immortal material? Where are the immortal materials?”

“Tang Hao!” A black-robed old man shouted anxiously. He scanned the surroundings with his burning eyes and his gaze fell on Tang Hao.

Soon, two more figures flew over.

The battle between the Wu clan and the Zhou clan had already caused abnormal fluctuations in the blood sea, which had attracted their attention. They had come all the way here and just happened to make it.

“Kid, let’s see what you can do now!”

The Wu family’s patriarch looked at Tang Hao and laughed.

Originally, there were only two peak stage old monsters blocking them. Now, there were six of them.

“If you want to keep the immortal materials, don’t even think about leaving!” The Zhou clan elder snorted coldly, his heart filled with anger.

This kid was really stupid!

Originally, it would have been good if three people split it, but now it became seven people.

“Who said I’m going out!”

Tang Hao stood with his hands behind his back. His eyes swept across the six old monsters at the pinnacle of cultivation before him, then he grinned.

“What do you mean by that?”

The old monsters were all stunned.

This was inside the star Devourer beast’s body. If he didn’t go out, was he going to stay here and wait for death?

Tang Hao’s body sank, and he landed at the bottom of the blood sea.

He looked behind him at the place where the immortal monument was originally upside down. His eyes lit up, as if he had confirmed something. Then, he turned around and said to the six old monsters, “Everyone, stay here!”

As he spoke, he lifted his right foot.

On his body, a majestic aura gradually rose.

Seeing this, the six old monsters were all stunned. Then, their faces twisted in extreme fear.

“Kid, what are you doing?”

“Don’t! Are you crazy?!”

They screamed in horror.

This kid was trying to awaken the star devouring beast!

Wasn't this crazy?!

Once the giant beast woke up, they would all be locked up here. Wouldn't they be dead for sure?

This star devouring beast was a terrifying existence that even great emperors did not dare to provoke!

Bang!

They watched in horror as Tang Hao's foot stomped on the ground.

In an instant, there was a loud explosion, and waves of surging energy spread out in all directions, shaking the entire blood sea.

"What's going on?"

The xiuzhe that were searching for treasures above the sea of blood were all stunned when they saw the sea of blood suddenly explode.

Then, his expression turned into one of fear.

Someone was fighting below, probably the group of old monsters at the pinnacle!

It's finished! It's finished!

With this commotion, the giant beast was definitely going to wake up!

"Hurry up and run!"

Some people woke up and started to shout crazily.

The next moment, everyone burst out with their fastest speed and rushed madly toward the passage they came from.

It would take some time for the beasts to wake up completely, and this time was their escape window. If they were one step late, they might be trapped to death here.

"Motherf \* cker, he's just an idiot, a madman!"

"I've never seen such a crazy guy. Does he want to die?"

Boom! Boom! Boom!

The sea of blood exploded, and majestic figures rushed out. They were the old monsters at the peak.

They were all scowling and cursing.

“Let’s go out first. If we’re late, we’ll be finished. Later, if you see this kid come out, stop him. I can’t take this lying down!”

The Wu clan’s ancestor cursed.

He was almost driven mad by that kid. First, he lied to them, and now he did this. He was a bastard!

The six of them cursed as they rushed out.

Tang Hao did not move from the bottom of the blood sea.

He stood with his hands behind his back, waiting for those people to escape.

Under his feet, the ground trembled slightly. It was clear that the giant beast had begun to wake up.

Tang Hao was not in a hurry. He turned around and looked at the ground in front of him.

He flicked his sleeve, and the immortal tablet appeared and fell to the ground.

“That’s right, there’s really a mystery!”

He walked around the immortal monument and chuckled.

As soon as he reached the bottom of the blood sea, he sensed a faint array aura. If it wasn’t for his profound array Dao, he wouldn’t have been able to sense this aura. He had also sensed it when he took the stele.

This immortal tablet might not have been swallowed, but placed here by someone.

And this person was definitely a true immortal!

This true immortal had placed an immortal stele tree here and even set up a formation, so there was obviously a lot of mystery behind it.

“Interesting!”

He walked around the immortal monument again and took a few steps out. He walked back and forth, going around the bottom of the sea.

“It’s a bewildering formation! It’s not that difficult!”

Tang Hao chuckled again.

He had already seen through the profoundness of this formation.

He stood in place for a long time, sweeping his gaze left and right. Then, he began to walk around the immortal stele. After walking a circle, the space around him suddenly changed, and he was in another space.

He looked left and right, and was a little shocked.

In this space, the immortal Qi was so dense that it turned into a thick fog.

He had never seen such an astonishing immortal Qi concentration!

“There’s a tower!”

He took a few steps forward and saw a tower in the fog.

A plaque hung in front of the pagoda’s door with the words ‘Pagoda refining’ written on it.

On a closer look, there were four words on the lower right corner of the plaque.

“True Monarch of many treasures? It seemed that this was the true immortal who had set up the mystery! I wonder what kind of treasure is being refined in this Pagoda?”

Tang Hao mumbled as he stood in front of the tower.

There were layers of restrictions on the tower door, and they were true immortal level restrictions, so it was impossible to break in.

However, there was always a way to break the restrictive spell. Tang Hao was familiar with it, so it took him some effort to break the restrictive spell and push open the door.

After entering the tower, he looked up and was stunned.

The immortal Qi inside the tower was even more intense. Surrounded by this shocking immortal Qi, there was something like a long Dragon hanging high in the tower. It shone with a dazzling golden light, and waves of immortal Qi surged out.

“F \* ck!”

Tang Hao could not help but exclaim.

This treasure refining Pagoda was refining an immortal material!

Moreover, it was such a huge piece of divine gold.

“I see!”

After a moment of daze, he came back to his senses and revealed a look of realization.

There were two sources of immortal materials.

The first kind was born naturally, but it only existed in the primordial age and had long been excavated. Therefore, the genuine Immortals invented the second kind, which was to refine immortal materials by refining treasures.

This method was very time-consuming, easily hundreds to thousands of years. Moreover, the longer the refinement, the better the quality of the immortal material.

This True Monarch of many treasures had used the unique conditions in the body of the star Devourer beast to refine immortal materials.

And this might be a treasure refining array set up ten thousand years ago.

“I’m rich!”

Tang Hao looked at the enormous divine metal in front of him, his eyes burning with passion.

The immortal stele outside was not even one-thousandth of the one in front of him. This was the real treasure inside the star Devourer beast!
