

## The Mightiest Little Peasant Chapter 2901

“I really didn’t expect this!”

After a long time, Yun feiwan finally heaved a sigh of relief and regained her composure.

However, there was still a hint of shock in her Phoenix eyes.

After all, this was not just one or two immortal materials, but five or six, the number was too shocking.

“Seven in total!”

Tang Hao had already walked around the herb garden. He identified the type and grade of each plant.

“What a warm-hearted senior!”

Tang Hao grinned.

First, it was a large piece of divine gold, and now, it was seven immortal level herbs, as well as a large number of rare herbs. This senior was really too kind.

“Senior, I’ll kindly accept it!”

Tang Hao carefully dug out the plants and planted them in his portable herb garden.

He was going to continue to cultivate these plants. When he needed them, he would just cut off a section.

After two hours, he finally collected all the plants here.

Finally, he clapped his hands in satisfaction.

This True Monarch duo Bao left behind a Pagoda in the blood sea and also left behind this medicine garden here to refine immortal materials. He was probably preparing to come back and collect them in the future, so he set up such a hidden maze.

Perhaps this senior thought that this bewildering formation was enough, but this senior would never have imagined that he would just so happen to run into him and easily break through these bewildering formations.

If this senior were to return in the future, he would probably vomit blood!

Thinking of this, he couldn’t help but smile.

“Congratulations, young master Tang!”

Yun feiwan stepped forward and smiled.

She was really impressed. Although young master Tang was, he had amazing skills. He could easily discover and break the maze set by a genuine immortal. She really wondered what kind of force could cultivate such a powerful figure.

“Whoever sees it will have a share, these are yours!”

Tang Hao flicked his sleeve, and a few wooden branches flew out. They were all immortal materials.

“How ... How can this be?”

Yun feiwan was shocked and quickly waved her hands.

This was an immortal material!

Although it wasn't a gold or iron immortal material that could be used to forge an immortal mansion, it was still a rare and priceless treasure. This person actually gave it out so casually. He was too generous!

“Take it!”

Tang Hao said with a smile.

Seeing that she couldn't refuse, she reached out and kept the immortal wood, then bowed and said, “Many thanks, young master Tang!”

“No need!”

Tang Hao said, waving his hand.

He started calculating in his heart. Previously, he had three immortal materials, but now, he had ten. He was rich in an instant!

“Let's go! Continue!”

His heart was burning.

He had to strike while the iron was hot and quickly explore all the ruins left behind by True Monarch many treasures, as well as all the places he had been to. He was sure to find some good treasures!

“Alright!”

Yun feiwan acknowledged him. She was so excited that her face was flushed red.

She felt that if she followed this person, she would definitely make a fortune this time.

After leaving the herb garden, Tang Hao continued to walk around a few more times. After making sure that there were no other mysteries, he left. The two of them rushed to the next place, where True Monarch many treasures had been.

It was a dangerous place, a Lake, filled with Yin Qi.

At the bottom of the lake, Tang Hao also found a bewildering formation. There were also plants growing in the formation. It was a netherworld Lotus, and it had also reached the immortal rank.

“I’m rich!”

Tang Hao was even more excited.

As for Yun feiwan, she felt like she was in a dream. She had found another immortal-grade herb so easily. It was simply unbelievable.

When she came out of the lake, she slowly regained her senses and became even more excited.

Just like that, the two of them explored one ruin after another and discovered a few treasure refining grounds. Although they didn’t find such places in some places, they still had other gains.

And this took them more than a month.

“Time to go back!”

Tang Hao said as they emerged from a dangerous place.

On this sacred beast planet, as long as it had something to do with Immortals, they had explored it all. Sometimes they would run into some small problems, but they were easily solved by him.

“Yup! Time to go back!”

Yun feiwan was stunned when she heard this. It was only then that she realized that they had already explored all the places.

When she thought about what had happened in the past month, she was a little dazed.

This period of time really felt like a dream.

Supreme-grade divine materials, rare spirit herbs, and the flesh and blood of nine tribulations fierce beasts were all extraordinary treasures in her eyes in the past, but now they were nothing to her. She even had the illusion that immortal materials were not special things.

“Yun feiwan, Oh, Yun feiwan, wake up!”

She pinched herself hard at the thought of this.

She couldn’t have such an illusion.

Immortal materials were rare items, but in front of young master Tang, they seemed ordinary.

She calmed herself down, took out the Dragon carriage, and went back to the Yun family.

In the car, Tang Hao once again organized his gains from the past few days.

He didn't care about divine materials or spirit herbs anymore. What he counted were all immortal materials. On the treasure Mountain, there were seven immortal level plants, and then there was an immortal level netherworld Lotus. After that, he found three treasure refining places.

Two of them were refining grass and trees, and one was refining gold iron immortal materials.

In total, there were twelve immortal level herbs and a large piece of gold metal immortal material.

He was already very satisfied with this harvest.

This trip to the sacred beast planet had not been in vain.

"You can have these!"

Tang Hao arranged them, then took out a few pieces of plant immortal material and a piece of gold iron immortal material. He put them into a ring and gave it to her.

"Many thanks!"

After more than a month of getting along, the two of them had become more familiar with each other, and she no longer politely declined as before.

"Are you still going to leave after we return?"

She kept the ring and looked at him with her beautiful eyes.

"I won't leave for the time being. I'll leave after you advance to the peak!" Tang Hao said.

He had agreed from the start, so he naturally couldn't go back on his word.

"Mm! That's good!"

She was a little happy.

After more than a month, she realized that she had become closer to this person. When she thought of this person leaving, she felt a little sad and sad.

She did not know what she was doing.

Did he like her?

It didn't seem so. After all, the age difference between the two was too big. It was just that she saw some familiar shadows in this person, which evoked some long-sealed memories in her heart, making her heart throb a little.

This was a feeling she had never felt before in the past thousands of years.

She stopped talking and just sat there. Her beautiful eyes stared at the young man in front of her, staring at his young and handsome face.

For a moment, she was a little dazed.

The carriage sped through the air. Inside the carriage, it was silent, only a faint fragrance floating in the air. The atmosphere was slightly charming.
