

## The Mightiest Little Peasant Chapter 2920

The atmosphere in the hall was extremely lively.

Tang Hao and the Ziwei holy man chatted for a long time.

From cultivation to the history of the stellar mountain.

“I’m afraid that the great emperor of my stellar mountain is not as powerful as you, fellow Daoist! It’s been a few years since he’s ascended, but there hasn’t been a second true immortal in my stellar mountain. With my current cultivation base, I’m still a bit away from ascending.”

The Ziwei holy man stroked his beard and chuckled.

“But you, my friend, caught up from behind and have the strength to ascend at such a young age. I’m really ashamed ... When are you planning to ascend?”

He sighed and said.

“No rush!”

“It’s not a good thing to ascend too early,” Tang Hao said. “I still want to travel the starry sky!”

“Oh! That was true! Back then, the great emperor of my star Mountain had also traveled around and went to many immortal domains. He only ascended after he came back. However, after he came back, he sighed with some strange emotions.”

The Ziwei holy man laughed.

“Oh? What’s so strange about that?” Tang Hao was surprised.

The Ziwei holy man furrowed his brows, “after that person returned from his travels, he said something very strange. He said that this world was nothing but a cage!” In fact, even his nature changed a little. After that, he ascended.”

“A cage?”

Tang Hao was surprised.

“I can’t figure out what he’s saying either. Maybe that person’s realm is too high, so ordinary people can’t understand it!” The Ziwei holy man laughed, “I’m just saying, please don’t take it to heart.”

Tang Hao smiled, but he was moved.

Cage, this word was very intriguing.

His Pangu world was sealed and protected by a Supreme formation of true immortals, making it look like a cage. And this starry sky seemed boundless, but in fact, it was another cage.

During the battle of Qiyuan, so many humans rebelled and created a huge world here. He did not believe that there was no price to pay.

How could the Dragon count divine clan allow the human race to truly be free?

Perhaps the star great emperor had discovered something after traveling through the starry sky!

“That’s right, did the star Emperor leave anything behind after he returned from his travels? For example, a star map or some knowledge from your travels?” Tang Hao asked.

“I think so. Why? are you interested in it?”

The Ziwei holy man thought for a moment and said.

“Naturally! I’ve come here to bid farewell to lady su and the others and prepare to travel to other celestial realms. If you have a star map or something like that, it will be much more convenient!” Tang Hao said.

“Good! These things are kept in the hidden Pavilion, I’ll get someone to get them. ”

The Ziwei holy man said.

“Senior brother, I’ll go!”

Huang Liang holy man stood up and went out for a while. When he returned, he had a crystal ball in his hand, “Dao friend, this is the star map left behind by the great ancestor of the stellar mountain. There are many maps of the immortal realm on it. It should be of help to you.”

“Many thanks!”

Tang Hao took it and thanked him.

Then, he gently rubbed the crystal ball, and clear light immediately burst out from it, transforming into a vast starry sky.

“What a big star map!”

“Amazing!” Tang Hao exclaimed when he looked up.

“Of course. There are more than a hundred immortal domains up there. Look, this is the origin immortal domain we’re in right now, and it’s not even the center. The closer you get to the center, the larger the immortal domain will be.”

The Ziwei holy man laughed.

As he spoke, he raised his hand and pointed at a region below the star map.

“Zenith heaven, heavenly Grandmaster, nine Serenities, primordial beginning ...”

Tang Hao scanned the list and saw many familiar names.

“Divine realm? Don’t tell me it’s ...”

When he saw the far left side, a patch of chaos appeared there, and only the two words “divine realm” were displayed.

“We don’t know what the divine world is either. It’s too far away and no one would go there. There are no records of this place left behind by the great ancestor Emperor.” The Ziwei holy man said.

It should be the nine-colored God race!

Tang Hao said to himself.

And beyond this divine realm was where Pangu was.

“It’s really a little far!”

He estimated the distance and could not help but smile bitterly.

Even with the star Shuttle’s speed, it would still take several years to get back to Pangu from the origin immortal domain.

“It seems that I should go find star pupil first and leave some clones here to find the void passage. This way, I can return to Pangu as soon as possible.”

He pondered.

Since he had fallen from the battlefield of gods and demons to the Daluo immortal domain, there must be a void passage to the other side of the battlefield.

Of course, the premise was that Pangu didn’t destroy the passage.

“Since you’ve come to find the two girls, this old man won’t waste your time any longer. We’ll talk again if there’s an opportunity in the future!”

After chatting for a while more, the Ziwei holy man stood up and left.

The bustling crowd outside also gradually dispersed.

Under the guidance of Huang Liang holy man, he came to a mountain peak beside the main hall and met su Xuezi.

“Young master Tang!”

They hadn't seen each other for a long time, but her voice and appearance hadn't changed. She was still so beautiful, gentle, and moving.

She was dressed in a white robe, which wrapped around her slender and graceful figure.

The moment she saw Tang Hao, her eyes narrowed, and she could not help but feel excited.

Back at the great fate sect, on the night he left, she was still in closed door cultivation. It was only after she came out of closed door cultivation that she found out about everything, which made her extremely regretful.

It had been a year since they last met.

In the past year, she had heard a lot about him, and she had been worried about him for a long time.

"I really didn't expect that not only were you not crippled, you're also a ninth tribulation. When Siyao told me about it, I was so surprised ..."

The two of them sat down and chatted for a long time.

As she spoke of what had happened in the great fate sect, her face was filled with emotion.

When she had picked him up from the river, she had never thought that he would turn out to be a nine tribulations Saint ancestor. Now, he had become an invincible great emperor, whose might had shaken the entire celestial realm!

Towards the end of the conversation, when he mentioned that he was leaving to go to other celestial realms, she opened her mouth several times, but stopped.

"Forget it! We'll talk about it later!"

She muttered to herself, feeling a little down.

Back then, when this person had helped her cure the demon seed fetal poison, she had once made a heart oath that she would always be by his side in the future. But now that she thought about it, it was a bit too wishful thinking.

Siyao had once told her that this person had more than ten Dao partners!

She didn't care much about this. For a ninth tribulation expert like him, having a dozen Dao companions was considered rare. However, she didn't have the confidence to mention this again.

"Right, this is for you and Siyao."

Tang Hao took out two small boxes and pushed them in front of her. The clear sky elixir pills were in them.

“What is this?”

Su Xuezi was startled and asked in surprise.

“I concocted the pill! One for each of you!”

As Tang Hao spoke, he opened the lid of the box slightly. A clear light immediately burst out from inside, and at the same time, a strange fragrance wafted out, refreshing one’s heart.
