

The Mightiest Little Peasant Chapter 2921

“This pill ...”

Su Xuezi looked at the small box in front of her, and her beautiful eyes couldn't help but widen.

The aura that leaked out from the crack was already so shocking. One could imagine how high the grade of this pill was!

“I call it the clear sky elixir. In terms of grade, it's at the half-immortal level!” “When I cured you, I infused some of my blood into your body,” Tang Hao said. “This pill was made with my blood essence, immortal-level green Lotus seeds, and many rare spiritual herbs.”

“It's not easy to refine this pill. You have to be careful. If you succeed, your physical body will break through the limits of the human race.”

Su Xuezi's beautiful eyes widened even more.

Break through the limits of the human race?

She still couldn't quite understand what level it was, but it was definitely heaven-defying!

Also, the immortal level green Lotus seed, it made her heart tremble.

The immortal level green Lotus was a rare treasure!

Even a force like the star Mountain did not have such a treasure.

“This ... Are you really giving it to us?”

She looked at the two boxes in front of her, still in disbelief.

These two pills were too precious!

“Just accept it! When you've successfully refined it, give the pill to Siyao and help her refine it. I'm afraid it'll be very difficult for her to refine it with her talent.” Tang Hao said.

“Alright!”

Su Xuezi nodded.

She hesitated for a moment before putting the two boxes away.

“Will you ... Come back?”

She focused her gaze on Tang Hao.

“Of course!” Tang Hao said.

“That’s good!”

She immediately heaved a sigh of relief.

Tang Hao stayed in the star Mountain for five days. He was only relieved when he saw that su Xuezi and ye Siyao had successfully refined the pills.

“Fellow Daoist’s methods are truly unbelievable!”

After checking the physical strength of the two ladies, the Huang Liang holy man was dumbfounded and could not believe it.

Now, the physical bodies of these two girls were stronger than his, a ninth tribulation Dao master. However, one of them was at the eighth tribulation while the other was only at the fourth tribulation.

A single pill was able to create a Supreme physical body. Such a method was truly unpredictable and incomparably shocking!

At the same time, he was extremely excited.

These two girls were now disciples of the star Mountain. The more powerful they were, the happier he, the Dao master in charge of the star Mountain, would be.

With a little more training, they would become two more geniuses at the level of sequence successors. No, they might even be stronger than those sequence successors in the celestial realm.

“Fellow Daoist, don’t worry and travel around. I’ll take good care of these two girls. I guarantee that by the time you return, they’ll both be at the ninth tribulation.” He patted his chest and promised.

“Many thanks, fellow Daoist!”

“Thank you,” Tang Hao said. He then bade farewell to miss su and little ye before leaving.

After leaving this star field, he turned around to look and smiled in relief.

With the protection of the stellar mountain and his own true spirit, he didn’t have to worry about their safety. He could finally leave in peace.

“He has already ascended!”

He flew toward the Forbidden Zone of the starry sky. On the way, he went to the spiritual void realm and asked around. He heard the sensational news from the sacred beast planet that Yun feiwan had successfully broken through and knocked open the gate of immortality. After her breakthrough, she had brought everyone in the Yun family to ascend.

“I hope she’ll be fine!”

He muttered.

“By the way, didn’t they say they wanted to exchange for these two celestial artifacts?”

He then thought of the two celestial artifacts that he had seized.

The immortal sword from Jing Yan house and the immortal Bell from the great emperor mountain weren’t of much use to him. With his current strength, blacksmithing skills, and the materials he had, he could totally forge Immortal Weapons of the same power.

What he valued more was Dao attainment.

This thing was too precious, and there was no need to have more.

Therefore, he personally went to the spiritual void realm and asked the people of the four treasure Pavilion to send a message to the two forces, asking them to exchange for the celestial artifact through the four treasure Pavilion.

After spreading the news, he changed his course and headed to the planet of the sacred beast.

After successfully obtaining the eight Dao attainment beads, he returned to the Forbidden Zone of the starry sky.

He began to make a large number of ordinary incarnations, one after another, with countless keys and ways to copy them. They scattered to the starry sky in all directions. They had to preach and find the void passage connecting to Pangu at the same time.

“Let’s go!”

After setting up everything, he brought Chun Xuan and the other two girls out of the blood sea.

He didn’t confiscate the palace inside. This place was very useful, and he would come back in the future.

“Young master, where are we going now?”

Sitting on the star Shuttle, the three women were a little confused.

The young master said that he was going to travel around, but the starry sky was so vast that he didn’t know where he was going.

“Let’s go to this place first, the true martial celestial realm!”

Tang Hao took out the star map, unfolded it, and pointed at the immortal domain next to the origin immortal domain.

He planned to go in this direction to the center of the starry sky. It was more prosperous there, and it would be more convenient for him to find out information. If the star pupil was indeed in this starry sky, he should be able to find some information.

After all, she had the mystic fairy Pearl on her. Her talent was outstanding, and she should have some reputation.

As for the XI Fang race, it was easy to find out. After all, they all had different features.

However, he didn't have much hope about the news of the XI Fang clan.

In fact, the Western tribe was most likely to be in Pangu. He found Tamamo in Pangu, but he couldn't find any trace of the Western tribe.

"I can only try my best to find it!"

He took a light breath and activated the star Shuttle, which started to jump in the direction of the true martial celestial realm.

Every immortal domain was vast, and it had taken him a full month to get from the Forbidden Zone to the edge of the origin immortal domain.

Along the way, he was busy refining pills and weapons.

He had finished making the three clear sky elixir pills. It had taken him 20 days. He only made two immortal rings in the remaining 10 days.

"Young master, there's a ninth-rank star up ahead. Let's go down and take a look!"

Ji Qiuci seemed to be unable to wait any longer.

"Good! Let's go down and take a look!"

Tang Hao took out the star map and examined it. There was indeed a ninth-grade star called wugeng in front of them, and it was one at the very edge of the origin immortal domain. Beyond that was a very long stretch of vacuum.

There were dead stars, black holes, and other dangerous planets.

This long stretch of land was also known as the immortal wall, and it separated many immortal domains.

Before leaving the origin immortal domain, he also wanted to go down and see if the spiritual void realm had become popular here. If it didn't, he would just casually promote it.

However, after he went down, he found that the spiritual void realm had long been popularized on this star, and almost everyone had a key. And in various parts of the star, there were also statues of the spiritual void of Saints. In every continent and every force, there were such statues of saints.
