

The Mightiest Little Peasant Chapter 2932

“Who the hell is that guy?!”

“This is crazy!”

When they flew away from the blue water Palace, the cultivators could no longer suppress the shock in their hearts and exclaimed.

In the Tianhuang region, no one had ever dared to provoke the Xuanyuan clan, let alone kill them. In their eyes, this was an extremely crazy act!

They brought this shocking news back to the various places on cloud billow star.

The cloud billow star soon boiled.

The news spread at an astonishing speed.

“What? Someone said he wanted to kill his way up to the Xuanyuan clan? Hahaha! Where did this idiot come from?”

When the xiuzhe heard this, their first reaction was to sneer.

However, when they heard that the man had destroyed the blue water Palace, which had three peak stage cultivators, and even possessed the power of a genuine immortal, they were shocked.

This person’s background was definitely not small!

Since he dared to say that he would kill his way to the Xuanyuan clan, he must have some confidence. This would be a fierce battle between two top forces.

“I really don’t know where this force came from. How dare they be so arrogant and provoke the Xuanyuan clan!”

“I heard that it’s related to the missing genius from the blue water Palace more than ten years ago. That was done by the blue water Palace, and that person is here for revenge!”

“Missing genius? Did he mean the genius who had the mystic fairy Pearl? I still have some impression of her. I really didn’t expect her to have such a powerful background. The blue water Palace deserves it! You dare to touch anyone!”

The storm gradually spread out and swept across the starry sky.

On every star, the xiuzhe were all discussing this matter.

No one cared about the blue water Palace. They were all discussing the identity of the mysterious expert and the possible reaction of the Xuanyuan clan.

“The Xuanyuan clan has really kicked an iron plate this time!”

“Exactly! I heard that goddess Xiao of the blue water Palace opened the Holy ancestor token of the first descendant of the Xuanyuan clan that day. Not only did she not scare that guy, but he even went through the passage and reached into the Xuanyuan clan to steal several fairy artifacts!”

“Hahaha! He deserved it! Vent my anger!”

Many people were overjoyed.

The Xuanyuan clan was too overbearing. Their usual behavior was no different from that of bandits. They had long had enough of it. However, due to the strength of the Xuanyuan clan, they did not dare to do anything and could only swallow their anger.

Now that this person had taught the Xuanyuan clan a lesson, they felt extremely relieved.

“Iron plate? It was too early to say this! You should know that the strength of the Xuanyuan clan is enough to look down on the entire starry sky, and there is no force that can compete with them. In my opinion, this man is just talking nonsense and doesn’t dare to really kill his way to the door!”

“I think so too. The name of the number one clan in the starry sky is not for nothing!”

But there were many xiuzhe that shook their heads, not too optimistic.

Perhaps the storm this time was only louder than the rain.

Because in this starry sky, there was no power that could compete with the Xuanyuan clan. Then, what did that guy use to kill the Xuanyuan clan?

It should be known that the Xuanyuan clan had produced hundreds of genuine Immortals, which was a terrifying Foundation!

The news quickly spread throughout the entire Tianhuang region.

Naturally, it was also transmitted to the Xuanyuan clan.

“Preposterous! This man stole two celestial artifacts from our Xuanyuan clan and even dared to say that he wanted us to wash our necks and wait for him to kill us! He’s really too arrogant!”

“This kind of person should be killed on the spot! In my opinion, we should make a move now, find this guy, and kill him!”

On the main star of the Xuan Yuan Galaxy, an angry roar reverberated in a Hall.

In the hall, there were circles of Lotus seats floating.

On each Lotus seat sat a figure in the Golden robe of the Xuanyuan clan, and the aura exuded from them had reached the peak level.

There were more than 200 Lotus seats like this.

In the middle, there were 18 Lotus seats floating. They were different from the other Lotus seats and were more gorgeous. 18 figures were sitting on them.

This was the eighteenth ancestor of the Xuanyuan clan, the most senior and the most powerful existence in the Xuanyuan clan!

“That’s right! Let’s go to cloud billow star now, find that guy’s trail, and kill him! Get my baby back!”

A handsome young man was sitting on the Lotus seat near the eighteenth ancestor. It was Xuanyuan Hongyi.

At this moment, his face was red as he roared angrily.

“Woof! You are the number one successor of our Xuanyuan clan, but your treasure was stolen by someone in your clan. How shameful! Many people are laughing at our Xuanyuan clan now!”

Someone scoffed from the side.

“That was just an accident!” Xuanyuan Hongyi’s face turned even redder, and he argued with all his might, “that day, that guy used the strength of a true immortal. How could I have resisted it? now that he has no strength of a true immortal, I can kill him as easily as killing a chicken!”

“Oh, really? He’s already said that he’s going to kill his way here. Do you think he doesn’t have the power of a true immortal?”

Another person sneered.

“Yup! It’s obvious that they’re here to collect a debt, and this debt was caused by you. If it wasn’t for your lover, would this have happened?”

Some people laughed.

“You guys ... What do you mean by this!”

Xuanyuan Hongyi looked around and scolded angrily.

“Enough!”

At this moment, an old man sitting on a Lotus seat in the middle shouted.

A sharp divine light shot out from his eyes as he scanned the surroundings.

In an instant, everyone in the hall fell silent.

"I called you here to discuss, not to quarrel. What a disgrace!" He snorted coldly and chided, "Hongyi is indeed at fault in this matter, but he doesn't need to be punished. After all, that person's background is not simple, and he even used the power of a true immortal."

"Can someone tell me what's going on?"

Then, he looked around and asked.

"Reporting to the first ancestor, a genius appeared in the blue water Palace of the billowing Cloud Star. He had the mystic fairy Pearl. In order to please us, the people of the blue water Palace seized the Pearl and offered it to the seventeenth ancestor. I presented it to you!"

"That genius was also sent in by the people of the crystal-clear water Palace, along with many disciples of the palace. They were all exquisitely selected beauties who were accepted by the 13th ancestor and refined into a painting for aesthetic purposes."

Xuanyuan Hongyi said.

"13,17, there's such a thing?"

Asked the first ancestor, looking to the left and right.

"Indeed!"

The figures on his left and right nodded.

The one on the left was a beautiful woman in a gorgeous golden dress. She had a cold expression on her face. It was the seventeenth ancestor.

She said, "this Mystic fairy Pearl is a high-grade divine item. I refined it a long time ago. My current physique has already transformed into the body of the nine heavenly maidens. My strength has increased a lot. When I ascend, my physique will be further improved."

"I see!" The first patriarch frowned slightly and said, "there's nothing wrong with this matter. It's just that I didn't expect that after more than a decade, someone would come to our Xuanyuan clan because of this. It seems that they have a powerful background and will be in trouble."

"What's the trouble!"

The thirteenth ancestor on the right curled his lips in disdain.

He had a head of red hair, and his face was somewhat unrefined and ugly.

“With the strength of our Xuanyuan clan, what is there to be afraid of? what background can he have? is there anyone stronger than our Xuanyuan clan in this starry sky?” The 13th ancestor sneered. “Since he says he wants to come, then let him come!” Let’s wait here and see if he really has the guts!”
