

The Mightiest Little Peasant Chapter 2939

“Thirteen is gone!”

“Seventeen has also been suppressed!”

Not far away, the ancestor-level figures had sad and indignant expressions.

There were only eighteen ancestor-level figures like them in the entire Xuanyuan clan, and now two of them were gone.

However, there was nothing they could do. After suffering the self-destructive attacks of so many peak level cultivators, they did not have much strength left. They could only stick together and barely resist the opponent’s crazy attacks.

“Who are you? What enmity do you have with my Xuanyuan clan?”

The first ancestor’s eyes were bloodshot.

“What grudge? Don’t you guys know that?” Tang Hao looked at him and sneered.

“Just for a Pearl and a woman?”

The first ancestor bellowed.

“What, can’t I? Your Xuanyuan clan is much more overbearing than me. In order to seize treasures, you have massacred sects and exterminated clans. ” Tang Hao sneered.”The Xuanyuan clan will have to pay the price for touching my people!”

He glanced at the stars and retracted his aura.

He had already achieved his goal, so there was no need to make another move.

After all, the Xuanyuan clan was the number one clan in the starry sky and had a deep foundation. They must have many powerful means.

He had already lost a large number of Joss flame gods, and it would not be worth it to continue fighting.

“Fellow Daoist!”

The group of Joss flame deities had returned from their trip to the central planet. The person in the lead was holding a scroll in his hand.

Tang Hao took it and sensed it. He nodded and put it away.

He raised his hand, and the scroll in the distance flew over. The figures around him also flew over and entered it one after another.

He then collected the painting and put it away.

Not too far away, the first ancestor narrowed his eyes. Suddenly, a look of extreme shock appeared on his face.

The aura of that painting scroll ... Seemed a little strange. It didn't seem like an ordinary spatial treasure used to store people.

Moreover, the aura of those people was a little strange. They didn't seem ... Like humans!

Some of the ancestral figures beside him also looked at each other with shock in their eyes.

They had also noticed it just now, but they didn't have the time to investigate.

"He indeed doesn't look like a human!"

"There's a kind of spiritual monster, the aura of the Holy Spirit of heaven and earth!"

They discussed in low voices and gradually became certain.

And this also led to an even more shocking conjecture.

These peak experts were all the spirits in the painting, which was a heaven-defying treasure!

Gulu!

The first patriarch couldn't help but gulp at the thought.

This guess was too shocking and too unbelievable!

He had never heard of such a heaven-defying treasure in the world!

If this was true, it meant that the Xuanyuan clan had not been defeated by a single force, but by this fellow alone!

The meaning of this was completely different. The latter was even more embarrassing and would bring shame to the Xuanyuan clan.

"Treasure! This is a treasure!"

"Those are all spirits from the painting! It was too unbelievable! There's actually such a heaven-defying treasure in this world!"

In the heaven desolate Palace, the old man also made a discovery and exclaimed.

His face was first filled with shock, then his eyes became extremely hot.

This treasure was simply too heaven-defying!

With this treasure, one person could rival the heaven desolate Hall and a top force like the Xuanyuan clan!

No wonder!

He was even more enlightened. When those peak existences self-destructed one after another just now, he was very surprised. Now, there was finally an explanation. Because these were not people, they were just the spirits in the painting controlled by that person.

“This is a ... Treasure?”

The boy beside him was dumbfounded.

“Master, let’s snatch such a heaven-defying treasure! Then, our heavenly desolate Hall will truly be the number one force on planet Tianhuang! The Xuanyuan clan is nothing!” The boy said excitedly.

“Snatch, snatch, snatch, snatch, your head!”

The old man grinned and flicked his finger.

That guy was so terrifying that even the Xuanyuan clan was destroyed by him and suffered heavy losses. How dare he Rob it?

Wasn’t he an old man who was tired of living?

“Our heaven desolate Palace must befriend such a talent. If we can get him to join our heaven desolate Palace and make him an honorary elder or something, the Xuanyuan clan’s face will be so interesting!”

The old man grinned. He was already thinking about how to win over this mysterious expert.

“Speaking of which, I’m quite fated with your Xuanyuan clan. Previously, I killed a ship full of people and claimed to be one of the successors of your Xuanyuan clan’s echelon. He was blind and offended me.”

Tang Hao looked at the Xuanyuan clan and said coldly.

“What? Did you do that too?”

Everyone from the Xuanyuan clan was shocked.

They had been investigating everywhere, but they didn’t expect that it was this guy who did it.

“Right, I’ll return this guy to you!”

Tang Hao seemed to have thought of something. He flicked his sleeve, and a black shadow flew out of thin air. It was Xuanyuan Hongyi.

He didn't plan to kill this guy from the start. This guy was still useful to him.

Tang Hao tossed her aside, then turned around and left.

The people of the Xuanyuan clan watched him leave and did not move.

After he had gone far away, they heaved a sigh of relief, each of them feeling like they had just survived a disaster.

They turned around and looked around, and they all looked depressed again.

The stellar formation was broken, and countless clansmen died. Among them, more than ten elders died, and two ancestor-level figures were lost. This loss was too heavy.

Moreover, when the news of today's battle spread, his Xuanyuan clan would become a joke and his prestige would plummet.

"Patriarchs, our formation ... How did it break?"

"Eh? What about the 13th ancestor? And the seventeenth ancestor, how come he's gone as well? why are you all like this?"

At this moment, Xuanyuan Hongyi looked around and shouted with a dumbfounded expression.

He had only been suppressed in the terrifying furnace for a short while. When he came out to take a look, he felt that the world had changed. The scene in front of him was truly unbelievable.

"A!"

No one made a sound. They heavily flicked their sleeves, sighed, and flew toward the stars.

"From today onwards, seal off the star field. No one is allowed to leave!"

The first ancestor let out a loud cry, then transformed into a beam of divine light and left.

"I really didn't expect the result to be like this!"

In the distance, the spectating xiuzhe all sighed, their expressions still slightly shocked.

The battle today was truly shocking.

The Xuanyuan clan, known as the number one clan in the starry sky, was actually defeated!

The mysterious expert broke the formation, killed countless people, and then left!

When this news spread, it would probably shock the entire celestial realm.

"Let's go!"

They left one after another, carrying this shocking news to all parts of the starry sky.

The various major powers also withdrew their techniques and divine abilities.

The news spread quickly and caused a huge commotion in the starry sky.
