

The Mightiest Little Peasant Chapter 2955

Tang Hao laughed when he saw that.

He hadn't expected that, because of this, the mist province would become a popular tourist spot. It was likely that not only the origin immortal realm, but the neighboring true martial celestial realm, and even people from even further places, would come here just for a tour.

Then, he would show off in the spiritual void realm.

The current spiritual void realm had already spread to more than a dozen immortal domains, and there were still many more immortal domains in the process of spreading.

In this starry sky, there were only a hundred or so immortal domains, and the spiritual void realm had already spread it to a third.

"We welcome the divine ancestor."

In the cloud Sea, the Ji family had already received the news.

By the time Tang Hao arrived, Ji juechen had already led the Ji family out to welcome him.

"Not bad!"

Tang Hao glanced around and saw ten ninth tribulation lightning tribulation Warriors.

"It's all because of your grace, divine ancestor!"

Ji juechen bowed.

He looked up and sized up the three women behind the divine ancestor, and his expression became even more joyful.

He could tell that the three women's cultivation had reached a level that he couldn't see through. They must be close to the peak. This was a great thing for the Ji family.

Although chunxuan and Qiuci were no longer part of the Ji family, they still had the bloodline of the Ji family. As for ru Yin, she was still part of the Ji family. If she could reach the peak, it would be considered as the Ji family producing a top figure.

Such strength was already comparable to the Wu clan, the Yue clan, and other 36-star powers.

"Divine ancestor, your attic has been cleaned up. Do you still want to stay there?"

"Alright!"

Tang Hao nodded. "I'll set up a formation around the building. No one is allowed to enter without my permission. Do you understand?"

"Yes! Holy ancestor!"

"Yes, master!" Ji juechen didn't ask any further and responded respectfully.

After returning to the attic and dismissing the crowd, Tang Hao began to set up the formation. Then, he took out the Kunlun mirror and opened up a passage that directly connected to the Golden immortal Palace in the ten-thousand beasts immortal Palace.

In the future, he would be able to use this passageway to freely travel between the two places.

As for the passage to Jade Dust Star, it would be managed by the divine temple.

"Next, I should consider ascending!"

He stayed at Pangu's place for a while and told sis Xiangyi about the passageway. Then, he returned to the Ji residence.

He had already made all the necessary preparations.

He didn't need to worry about Pangu's safety. He also opened a spare passage that was directly connected to the Ji family, so he didn't need to worry about the Ji family's safety.

The choice placed in front of him was to ascend.

If he didn't ascend, he could only continue to accumulate Dao attainment. Although the more Dao attainment he had, the stronger he would be, the improvement would be limited. It was far less than the improvement brought by knocking open the gate of immortality and becoming a true immortal.

However, he was still worried that once he went up, he would never be able to return.

Who knew what the immortal world would be like and how long it would take for him to return? if it was a hundred years or two hundred years, that would be a little too long.

"I'd better stay for a while longer and spend some time with sis Xiangyi and the others ..."

Tang Hao said to himself.

He had always felt guilty towards sis Xiangyi and the others.

"Also, I need to find out more about the XI Fang clan."

He thought of sia.

After thinking for a long time, he decided to ascend in a few years and spend more time with sister Xiangyi and the others. Then, he would collect more cultivation to strengthen the Haotian Daoist sect and the Pangu world.

After making the decision, he heaved a sigh of relief.

In the following period of time, he stayed in the immortal Palace and accompanied sis Xiangyi and the others. Occasionally, he would refine elixirs and refine weapons.

As for his two avatars, he had sent them out to the major Immortal Realms to kill the evil sects and plunder their cultivation.

After his first clone absorbed a large amount of spiritual essence, his strength soared, and he was only half a step away from the immortal realm.

As the embryo of heaven and earth, the refined ten-inch exquisite Demon Heart, and a set of immortal artifacts, the combat strength of this clone was not inferior to his original body.

As for the second clone, it held the God spirit list, and there were already two to three thousand Joss flame gods in it. Its strength could be said to be extremely terrifying.

As long as he waved his hand, two to three thousand peak stage cultivators would rush out. It was enough to scare people to death.

With the two avatars working together, they could easily suppress people and seize their cultivation.

Tang Hao had given away most of the cultivation that he had obtained.

Sis Xiangyi and the others, as well as Yushi, naturally wanted it.

Yun Rong, Jin Lin, and Yin Feng, these nine tribulations, had all been raised to the peak by him. Yun Rong, for example, had already refined immortal materials and refined nine Dao attainment beads, so she could break through to the immortal realm at any time.

As for the demon God clan, with the support of the spiritual essence from the spiritual void realm, more 8th tribulation, 9th tribulation, and even Peak 9th tribulation experts emerged.

The development of the spiritual void realm was also extremely fast.

When the two avatars seized Dao attainment, they would also send the key that he had refined, the division boundary of the spiritual void realm, to the major Immortal Realms.

The current spiritual void realm was becoming more and more lively. People from different celestial realms had gathered in this realm, and news from all realms spread to each other, making the entire starry sky become a lot smaller.

Every now and then, Tang Hao would go up to check out the situation.

In the Tianhuang celestial realm, news had also begun to spread in the spiritual void realm. He was able to find out a lot of news, and occasionally, someone would mention the great defeat of the Xuanyuan clan.

As far as he knew, after that battle, the Xuanyuan clan had kept a low profile and had been closing their Stargate to repair their formation.

After the Tianhuang Palace took him in as a guest elder, they spread the news to everyone, which caused a sensation in the entire Tianhuang celestial realm and made the Tianhuang Palace proud.

He was also paying close attention to the news in the Taiwei immortal domain.

However, there did not seem to be anything worth paying attention to. Previously, the Tang Clan was too small and had a high profile. They even had connections with a giant like Jiuxiao sect. After the divine temple took over, they kept a low profile and developed quietly.

In zenith heaven, there were still people who praised the white-robed Emperor's reputation and spread it to the square immortal domain.

Many people in the celestial realm knew that an extraordinary white-robed great emperor had appeared in the starry sky!

Such days were peaceful and comfortable.

Tang Hao enjoyed it.

However, such days only lasted for slightly more than a year.

One day, Tang Hao ascended to the spiritual void realm and heard a piece of news.

"True immortal! A true immortal has appeared!"

"It's true, he's definitely a true immortal. That aura can't be fake! A true immortal really has descended!"

Someone told the shocking story of him meeting a true immortal in the spiritual void realm.

Of course, no one believed him.

It had been thousands of years since a true immortal had descended from the upper realm in this starry sky. There had only been those who had ascended, not those who had descended.

However, after a few days, someone made a ruckus in the spiritual virtual realm again, saying that they had also encountered a true immortal. They had seen it from afar, and the brilliance was indescribable, with an extremely astonishing momentum.

He had to be a true immortal!

One, two, three ...

People kept saying that they had met true immortals, and they were all from different immortal domains.

As a result, everyone began to believe that there really were true immortals in this starry sky.
