

The Mightiest Little Peasant Chapter 2982

“There’s a formation?”

Tang Hao was surprised.

“Of course. These are all formations set up by celestial Immortals, so they’re extremely sturdy. Also, the only thing that can control the formation is this formation disk. Now that you’ve taken it, you’re the only one who can control the formation from now on.”

The old man laughed.

“If you’re still worried, you can set up some arrays yourself!” He said.

“Alright!”

Tang Hao nodded. He took the formation plate and refined it easily.

He carefully examined it and confirmed that there was nothing wrong with it.

With his array Dao attainments, even the sky immortal experts here would not be able to compete with him. He would know if there was any tampering with it with a single look.

Fellow Daoist, if you have any needs or trouble in the future, you can find me over there. That is the Shang Qing mountain range, the center of our Grotto-heaven is there.”

As the old man spoke, he pointed to a mountain range in the distance.

There was an extremely tall divine mountain in the mountain range, which was very eye-catching.

“Okay!” Tang Hao nodded.

“Fellow Daoist, do you want to go and meet the other fellow Daoists? If you don’t want to see her, that’s fine too. We have a lot of freedom here, and there are no rules.”

“There’s no need for that! I like the quiet!”

Tang Hao said with a smile.

“That’s true!”

The old man nodded.

This person was an earth level deity. If he didn’t like peace and quiet, he probably wouldn’t have come to his Shang Qing Grotto-heaven. Those golden light, Water Moon, and other forces were much stronger than their Shang Qing Grotto-heaven.

“Then, fellow Daoist, I’ll take my leave first. If you need anything, just contact me!”

As the old man spoke, he took out a communication jade talisman and handed it over. Then, he flew to the divine mountain in the distance.

“Dragon Mountain ... That’s a good name!”

Tang Hao put away the Jade talisman and chuckled as he looked down at the mountain.

The immortal Qi in the mountain was very dense, and the scenery was not bad. There were many open spaces in the mountain, which could be used to open up spiritual fields and plant all kinds of plants. There was even a Lake in the mountain, where fish could be raised.

Raising celestial fish was also a big industry here.

“This should be the main peak ... This Palace is built quite well and is quite elegant!”

He landed and walked around the mountain. In the end, he came to a mountain in the middle.

On this mountain, there were many palaces built. Under the cover of the clouds, they appeared quite ethereal and celestial.

“We’ll settle down here for the time being!”

Tang Hao took out a formation disk and activated the formation, then summoned the two sisters.

The three of them tidied up together.

The originally lifeless Palace instantly became full of life.

“The Jade bottle is right here!”

Tang Hao had set up a formation at the peak of the mountain that could absorb the essence of the sun, moon, heaven, and earth and then pour it into the Jade bottle to speed up the production of the celestial water.

Now, he had planted many immortal level plants in his portable medicine garden, such as the immortal level green Lotus and the netherworld Lotus. They all needed to be watered with immortal water regularly to maintain their vitality.

There were also many other plants that required celestial water, so celestial water was still in short supply.

Fortunately, the production of celestial water would increase with the changes in the environment.

In the immortal world, the production rate was much faster than in Pangu’s world.

After setting up the Jade bottles, he went to the mountains and opened up a medicinal garden in each Valley. The pond was also expanded by him, and it was more than ten times larger.

“It’s a little unrealistic to cultivate immortal-level medicinal herbs. It would consume a lot of immortal water and time. It’s not worth it!”

“I think it’s better to find some common plants that are in high demand. Plant more of them so that they will sell better. It’s the same for this fish. I’ll bring in some young fish later and raise them first.”

Tang Hao pondered.

He was too short of money!

A pill could cost thousands or even tens of thousands of Dao attainment, and he was still 90000 Dao attainment away from the peak heaven immortal realm. If he were to buy all of them, he would need 900 million immortal crystals, which was an astronomical figure in the immortal world.

The few Immortals he had killed in the lower realm only had a few hundred immortal crystals.

Therefore, he decided to do everything. Regardless of whether it was planting medicine, raising fish, refining pills, or refining weapons, as long as it was to earn money, he would do anything.

“If it’s alchemy, what should I refine? if it’s forging, which type is better?”

After returning to the hall, he began to ponder again.

Even with his alchemy skills, it would take a long time to make these immortal pills. It would take a few days at the very least to make a furnace of them. Therefore, he had to think carefully and choose the right type.

Forging was the same.

“Let’s go to the city and take a look!”

After pondering for a long time, he still didn’t have any good ideas, so he went out and went to the immortal City from before.

This city was called Nantian city, and it was the largest Immortal City in the vicinity.

He first went to buy a lot of medicinal seedlings and baby fish. Then, he went to a shop that specialized in selling immortal artifacts.

“Shopkeeper, how much is this?”

Tang Hao looked at all the treasures in the store. One of them caught his attention. It was a Golden Ball.

This was a one-time use treasure. The name on the label was Jiu Xiao divine Thunder, which was similar to the quaking sky divine Thunder. It was the kind of treasure that could explode with great power when thrown.

“Five hundred!”

The shopkeeper looked over and said.

“So expensive?”

Tang Hao was surprised.

The price was almost as high as some decent celestial artifacts, and this one was a one-time use item!

“Of course! This is a product of the nine cloud Palace. How can it not be expensive?” The shopkeeper said, “although it is expensive, it is worth it! Just one grenade is enough to save your life. Think about it, if you can’t win, just throw a grenade and you’ll have a chance to escape, right?”

“That’s true!”

Tang Hao nodded, deep in thought.

“Shopkeeper, is this thing selling well?” Tang Hao asked again after a while.

“It’s pretty good. Although it’s a bit expensive, many people will still save up and buy one as a means of saving their lives. Do you think a life is worth 500 immortal crystals?” The shopkeeper said.

“Then I’ll buy one too!”

Tang Hao smiled and bought the nine clouds divine lightning.

“This thing is not bad!”

Tang Hao walked out of the shop, holding the divine lightning in one hand. He studied it in front of his eyes and grinned.

He found a huge business opportunity in this thing.

It was a life-saving treasure!

As an immortal, he cherished his life very much. Therefore, to an immortal, a life-saving treasure was just what he needed.

The current prices of such treasures on the market were extremely high. Ordinary people really couldn’t afford them and needed to save money to buy them. This was also because these things were not easy to refine and ordinary people couldn’t refine them, so the prices were so high.

He could copy this kind of treasure and use his own craftsmanship to improve the refining method. From there, he could use cheaper materials to make a powerful product. This way, he could lower the price.

In this way, he could achieve good quality and cheap price, and use the extreme price-performance ratio to open up the market!

The more he thought about it, the more feasible it seemed.

He then returned to Dragon Mountain and began to study.
