

## The Mightiest Little Peasant Chapter 2985

Tang Hao had sold all the divine lightning he had in one day.

He had used nine for the demonstration and sold the rest.

He did some calculations. He had collected more than 6000 Yuan. After deducting the cost of 2300 Yuan, he had a net profit of 4500 Yuan.

And this only took two days.

Buying materials, refining for less than a day, and promoting for a day.

“This speed is not bad!”

Tang Hao was overjoyed.

When the nine agents sold the things and earned money, they would definitely come back to get the goods from him. At that time, he would not need to promote himself and could focus on refining. This way, he could make money faster.

“It’s more cost-effective. If we strengthen the direct selling method, it’ll definitely be popular!”

He was very confident.

Both of these had been put into practice and were very powerful business models. It was simply amazing to use them to open up a market.

He went back to the city and bought 300 sets of materials.

The moment he returned to the Dragon Mountain, he began to refine it.

He had given all the fish and medicine seedlings to his clone and had him take a group of souls to plant and take care of them.

In a day and a half, he had refined all three hundred sets of materials.

At this moment, a communication jade talisman had already arrived.

“Fellow Daoist, do you have any more stock? You don’t know how popular this thing is. It’s cheap and easy to use. There are many people who want to buy it!” As soon as he opened the Jade talisman, an excited voice was heard.

“It’s that ... Changchun Taoist!”

Tang Hao recognized the voice. It was his first agent.

“Also, how many do you want? I’ll see you in Nantian city!”

Tang Hao replied and sent out the Jade talisman.

Then, he left the hall.

“Young master, are you going out again?”

Ji chunxuan asked in surprise when she saw him.

They had just arrived, why was young master so busy?

“Mm! To earn money! We’re going to be rich soon!” Tang Hao said with a smile. Then, he turned into a ray of divine light and left.

“Make a fortune? Can it be so fast?”

Ji chunxuan was stunned.

He had only been here for a few days, how could he be rich? This was too fast!

Tang Hao met the Changchun Taoist when he arrived at Nantian city.

This person was also an individual immortal. In this realm, most of the people were individual Immortals. According to this person’s introduction, he was from a Seven Star Grotto-heaven and there were four to five hundred people in the grotto-heaven, which was much larger than Shang Qing Grotto-heaven.

After he brought the divine Thunder back, he started to sell it. At first, no one was interested in it, and some people even laughed at him. But when he took out one and threw it out, their attitudes changed immediately.

“Hahaha! They were all dumbfounded! They didn’t believe that there was such a cheap and powerful treasure in this world!”

“Now, they’re all begging me to sell them! But I don’t have that many. I smashed one, and that’s nine. It’s not enough to sell at all.”

The Changchun Taoist laughed, pleased with himself.

He was very glad that he had encountered such a good opportunity.

This was definitely an opportunity to make a lot of money!

He had to seize this opportunity.

“Give me a hundred! Here’s the money, 7500 immortal crystals. I borrowed a lot of money and put all my fortune here!” He said heroically.

After he took the divine lightning, he left in a hurry.

Tang Hao received another jade talisman before he left Nantian city.

Another agent eagerly came to the door.

“Fellow Daoist, this thing of yours is really amazing. It’s so cheap, but it’s so powerful. Give me 50 Pills first, and I’ll sell them all in an afternoon!”

This representative was also very excited, as if he had been injected with chicken blood.

He took fifty pills and left in a hurry.

That afternoon, Tang Hao received a few more Jade talismans. He used up the remaining one hundred and fifty divine thunders.

“Twenty-three thousand!”

He counted again, and at this moment, his net worth was already more than 20000.

He immediately went to buy the materials and bought 1000 sets.

When these were sold, he could earn back 75000 Yuan.

He did some calculations. With his current speed, he could make about two hundred pills a day. The profit of one pill was fifty-two Yuan. In that case, he could make a net profit of ten thousand Yuan a day.

That would be 300000 Yuan in a month.

This number was an extremely shocking number for an ordinary earth immortal. But for Tang Hao, it was still a little small. Three hundred thousand was only about thirty Dao attainment, which was about four hundred in a year.

This speed was still too slow!

He wanted to earn more money, and faster.

“The refining speed can be increased a lot. I can also refine a clone, and I can launch other products in the future.”

He returned to the Dragon Mountain. In less than five days, he had finished refining all the materials and turned them into a thousand divine thunders.

In less than half a day, the 1000 divine thunders were all snatched up by the group of agents.

“Business is really good!”

“This thing is cheap. If you buy five of them, it’s equivalent to one lightning bolt from the nine cloud Palace. Many people buy two or three at once. Moreover, it’s famous. Many people know about it and come to buy it!”

This group of agents were all flushed with success.

In just a few days, they had all earned quite a bit. Their wallets were full, so they were naturally happy.

They were extremely grateful for Tang Hao.

As for that so-called master, they had even more respect for him.

If it weren’t for this master who created such a powerful divine lightning, they wouldn’t have had such a good opportunity to make money.

“This master is also a genius in the business world!”

The Changchun Taoist sighed.

In the past, when it came to divine Thunder, there was only the nine cloud Palace. In this category, the nine cloud Palace was the absolute Overlord and had no other competitors. However, this master had opened up the market by using the generous price and extremely high quality.

As for the concept of agency and direct selling, in his opinion, it was a genius-like creation that could subvert the current business model.

After selling all the divine lightning and getting the money, Tang Hao continued to invest and bought the materials.

After returning to the mountain, he continued to refine day and night.

For the next month, Tang Hao did the same thing. He kept selling and refining.

In a month’s time, he and his clone had refined a total of 15000 sacred thunders. After selling all of them, he had accumulated 850000 in funds.

“It’s time to start the next project!”

He would not be able to digest so much divine lightning in such a short time, so Tang Hao began to prepare for the next product.

Instant teleportation talisman!

As the name suggested, it was a jade talisman that could instantly tear open the void and carry out teleportation. It was faster than tearing open the void by itself and was an excellent treasure for escaping.

This was a type of talisman. It was easier to make than divine Thunder and could be produced in large quantities.

Although the unit price wasn't high, it could be mass produced and had a wider range of audience, so the speed of making money would be faster than that of divine Thunder.

Tang Hao inspected all the instant teleportation talismans on the market. After studying them for a few days, a cheaper and more effective instant teleportation talisman was born.

He also pushed it to a few agents and let them promote it, while he just sat in the mountain and produced it.
