

The Mightiest Little Peasant Chapter 3065

“It’s good that guild leader Shi is satisfied!”

Elder li nodded his head and smiled warmly.

“Speak! What do you want to refine?”

Tang Hao kept the ring and looked at him.

The star Cloud immortal Palace was so generous, so they must be refining something extraordinary.

“A sword! These are the materials we prepared!”

Elder li took out another ring and handed it over.

“Nine-colored heavenly crystal! And the true dragon Soul, it must be at the gold immortal level! Where did you get such a powerful true dragon Soul?” Tang Hao was surprised when he took a look at it.

There were a total of seven materials in the ring, and all of them were top-grade.

That piece of nine colored sky Crystal was even bigger and of a higher quality than the one provided by the heaven seeking Pavilion when they were refining the clear sky silk.

And the Dragon Soul ...

Feng Qingyan had only given him a Dragon tendon, but this was a complete Dragon Soul.

Moreover, Feng Qingyan had a strong background, and she was backed by the number one Chamber of Commerce in the immortal realm. It wasn’t too difficult for her to get a Dragon tendon at the Golden immortal level. However, with the strength of the Nebula Palace, it wouldn’t be easy for them to get a real Dragon Soul at the Golden immortal level.

“Our Palace Master obtained this after he killed a golden immortal true dragon. That true dragon had just advanced to the Golden immortal realm and was still in a weak state. That’s why he was able to kill it so easily and take this Dragon Soul.”

Elder Li said with a smile.

“I see!”

Tang Hao felt relieved.

That’s right. True dragons were top-tier creatures at the Golden immortal level. Ordinary Immortals were no match for them at all. They could only be killed when they were in a weakened state.

However, one could still tell how powerful the master of the Nebula Palace was.

“Guild leader Shi, what do you think?”

Elder li asked in a low voice.

“No problem, you can refine it. Go back and wait for the news!” Tang Hao smiled and took the ring.

“Good! Good!”

Elder li was overjoyed and responded immediately.

After he left, someone else came.

At this moment, bright divine light swept over from all four corners of Nantian city. They had all been teleported to nearby immortal cities and had rushed over. The first to arrive were naturally the forces of spirit Toad continent, at least mid-sized forces like the reliance sect.

Only such a force would have some Foundation and be able to afford immortal materials.

They rushed over and landed in front of the restaurant, forming a long line.

“Look, I think he’s from Mount Yunshan. I know that man. He’s the first generation disciple of Yun Zhongxian, and he’s at the peak of heaven immortal!”

“That seems to be an elder of the sky Fire sect! They’re here too!”

Everyone in Nantian city was attracted by this scene.

They gathered in all directions and discussed enthusiastically.

The arrival of the mid-tier forces could no longer pique their interest. Only the arrival of the major forces at the gold immortal realm could pique their interest and cause them to discuss.

“It’s so lively!”

They all looked excited.

These golden immortal level forces were usually very arrogant, but now, they were all standing in a long line on the street and were very respectful. In the entire spirit Toad continent, only master Haotian had such prestige.

“Look, that seems to be the nine cloud Palace!”

“They’ve also come to Commission?”

When they saw a group of people landing and joining the group, there was a commotion.

This was because these people were from the nine cloud Palace. They had previously forced master Haotian to fight with them and had grudges with the Haotian club.

“My fellow Daoists, the nine cloud Palace is not here to cause trouble. We have great respect for master Haotian. This time, we are here to congratulate him on behalf of the nine cloud Palace.”

The leader of the nine cloud Palace shouted in all directions.

He didn't want to be misunderstood and cause trouble again.

With master Hao Tian's current prestige, if they were really mistaken as looking for trouble, the people here would immediately throw them out.

After nine cloud Palace, forces from other continents came one after another.

The queue on the street grew longer and longer.

“Hahaha!”

From time to time, someone would come out of the door with a happy smile on their face. It was obvious that their commissions had been accepted.

“You accepted all of them?”

“No way! Can Grandmaster make it?”

As the crowd watched, they were all somewhat worried about Grandmaster.

So many commissions, don't tire out the master.

“Hey! What do you guys know? this is the true realm of a master! Even at such an unparalleled height, he didn't slack off in the slightest. He was still so diligent and disciplined. This is the reason why Grandmaster is so powerful.”

Someone said.

When everyone heard this, their bodies trembled, and respect welled up in their hearts.

Many people even blushed and revealed looks of guilt.

They had some achievements in the path of crafts, but they were not as diligent as Masters. They were not even one-tenth as diligent as Masters. Compared to Masters, they were simply trash.

“Let's go! Let's hurry back to forging!”

Many of them suddenly felt remorseful and left in a hurry.

They had to learn from the master and become more diligent.

The Grand occasion in Nantian city lasted for seven days.

In these seven days, Tang Hao had been receiving these people and taking on commissions non-stop.

Of course, the requests came with a large number of immortal materials of all kinds, and Tang Hao accepted all of them.

In any case, as long as it was an immortal material, it could be refined into an immortal spirit body.

After seven days, he counted and found that he had accepted thousands of commissions.

“It’s almost time!”

With so many commissions, it would be enough for him to refine for several months.

He released the news that he would stop accepting commissions and returned to Dragon Mountain.

He first arranged the immortal materials and piled them into his vast heaven ring. Then, he began to sort out the commissions, which were divided into two categories, one was relatively simple, and the other was more difficult.

He didn’t need to spend much effort on the simple ones and could finish them quickly. As for the more difficult ones, he had to spend some time and effort on each one and design them well.

After all, he did not collect so many immortal materials for nothing.

After making some preparations, he began to make the simple ones.

However, no matter how simple it was, it was naturally of extraordinary quality when refined by him. Although it couldn’t be listed on the immortal list, it could trigger a lightning tribulation every time.

The lightning tribulation in the sky above Dragon Mountain was unheard of. It was at least sixfold lightning.

In the beginning, everyone was watching the scene with interest. Every time a lightning tribulation appeared, they would look at Dragon Mountain for a while.

But later on, they became numb to it and got used to it.

“I’ve finally finished refining!”

It took Tang Hao a month to finish the simple ones. He placed them in the restaurant and asked Changchun Taoist to inform the major forces to collect them.

Then, he started to make the more difficult ones.

“I’ll refine this celestial sword first!”

Tang Hao thought for a while, then picked up the materials from the star Cloud immortal Palace.

Among the many requests, the difficulty of forging this sword was one of the best.

He had to work hard on this sword. Maybe he could break the record again and get on the immortal list.
