

The Mightiest Little Peasant Chapter 3066

BOOM!

Within the great void divine furnace, the flames were blazing.

Tang Hao sat cross-legged, took out a Golden Pearl, and tossed it into the furnace.

It was the Dragon Soul of the gold immortal realm.

He was only at the peak of heaven immortal realm. Without the divine furnace, he would not be able to suppress the Dragon Soul.

Now, after refining it in the divine furnace for a few days, this Dragon Soul would be subdued. Then, it could be easily refined into the celestial sword.

Just like that, he refined for five days before he finally refined the Dragon Soul.

Then, he took out the nine-colored sky Crystal and the other materials and threw them into the furnace one by one. He refined them all and then fused them together.

After another half a month of refining, the embryonic form of an immortal sword was formed.

“Not bad!”

Tang Hao took out his sword and nodded in satisfaction.

He had designed the sword to be cool and domineering. After being tempered with divine fire for so long, the material of the sword had reached an extreme level.

The next step was to fuse the Dragon Souls and draw the rune arrays.

This was also his specialty.

In the blink of an eye, another ten days passed.

He finally finished drawing.

Buzzzzzz!

The moment the sword was formed, the body of the sword trembled and a shocking divine light burst out.

At the same time, with a roar, the Dragon Soul soared into the sky and let out a deafening dragon roar.

Boom! Boom! Boom!

In the sky, thunderclouds emerged and accumulated, quickly turning into a sea of lightning.

That divine sense once again probed down from the sky.

“This ... Could this be?”

“Heavens!”

The immortals in the surroundings had long gotten used to the sound of thunder. They didn't have any reaction when they heard the rolling Thunder. It was just that the master had refined another good treasure. With the master's level, it was just a common meal!

However, when they sensed the majestic divine sense in the sky, they were all shocked.

They all rushed out of their homes and looked up at the sky with disbelief on their faces.

It was the spiritual will of the immortal list again!

Could it be that the master was going to be on the list again?

This ... This was too unbelievable!

He had already been on it twice, how could he be on it again?

“They haven't retreated yet, I'm afraid they're going to attack again!”

“Get on the immortal list three times? This ... This is crazy!”

The crowd couldn't suppress the shock in their hearts and shouted out one after another.

The Dragon Mountain was soon in an uproar.

Furthermore, it was constantly spreading in all directions.

Everyone was both excited and in disbelief. They felt like they were in a dream.

Getting on the immortal bestowment board three times!

This was an achievement that no one had ever achieved before, and probably would not be achieved in the future!

“This sword ... What is its name?”

After the lightning tribulation dissipated, that familiar voice appeared again.

“Let's call it Star Cloud!”

Tang Hao was too lazy to think of a name. Since it was a request from the star Cloud immortal Palace, he would just call it that.

“Alright!”

“This sword, Star Cloud, can be ranked tenth on the treasured weapon ranking!”

The voice was like thunder, rumbling in the sky.

At the same time, a golden stele appeared in the sky. The position of the tenth line changed, and two words appeared: The Nebula.

“Let’s go! He’s really going!”

“He’s actually tenth!”

Everyone raised their heads to look at the Golden stele in shock.

Not only did he make it, but his ranking was also so high!

Moreover, this was the treasured weapons ranking, which was even more competitive than the armor ranking.

“It’s ... It’s the immortal list again?”

Spirit Toad continent, heaven seeking Pavilion headquarters. Feng Qingyan raised her head and saw the Golden monument in the clouds. She couldn’t help but be stunned.

Then, her Phoenix eyes widened so much that they almost popped out.

It was the immortal list again!

Since when did the list of Immortals, which was rarely seen in the past hundreds of years, become so common that it appeared every few days?

“It’s the weapon ranking again. It can’t be master Haotian again, right?”

Upon closer inspection, she could not help but be dumbstruck.

In her heart, she was extremely shocked.

Who else could it be other than master Haotian?

And this was already the third time!

It would be difficult for others to go up, but this master Hao Tian came from time to time, as if he was the one who made the list. He was extremely relaxed.

“It really is ...”

After a long while, she finally came back to her senses and laughed bitterly.

For a moment, she really couldn't think of any words to describe how amazing this master was.

It was because his power had already exceeded the level she could imagine!

“Is it master Hao Tian again?”

In the wondrous Palace, long Xiaozi raised his head and was stunned.

After a long time, he lowered his head in silence, his expression somewhat numb.

The previous two times and the third time didn't seem to make much difference. Anyway, the clear sky Association and that Shi guy were already glorious enough.

“Look, it's a Star Cloud! It must be a sword made by master Haotian, hahaha! That's great!”

“This sword can become the legacy of our Star Cloud immortal Palace and be passed down for generations to come.”

Star Cloud Palace.

The moment the Golden stele appeared, the crowd was in an uproar.

All the disciples were extremely excited.

A sword that could rank tenth on the immortal list was already one of the best immortal swords in the immortal world. Only those extremely ancient immortal swords that had been passed down from the ancient times could surpass it.

“Worth it! It's worth it!”

“Quickly go to the Treasury and take some more immortal materials to send to the master later!”

All the elders of the celestial Palace burst into laughter.

Taking out one-third of the immortal materials in the treasure vault as a reward for this Commission, they had some intention of gambling. Because the previous Grandmaster had only refined armor-type materials, he might not be very good at refining immortal swords.

But the result now proved that they had made the right bet.

One-third of the immortal materials in exchange for an immortal sword ranked tenth on the immortal list was worth it!

“I'm afraid it's master Haotian again!”

“This ... This is too terrifying!”

All the major continents were in an uproar.

The people of the world raised their heads and looked at the Golden tablet. Some of them cried out in excitement, while others had a dazed look on their faces. They still didn't dare to believe it.

Soon, master Haotian became the center of attention.

It took more than half a month before the temperature gradually subsided.

But at this moment, the immortal list appeared again, and this time it was the twelfth place on the treasured weapons list.

This time, everyone was in an uproar and extremely puzzled.

Logically speaking, he had already been ranked tenth on the treasured weapon ranking, so how could he still be ranked twelfth again? this was simply illogical!

Some people even wondered if there was something wrong with the investiture of Immortals.

“I think it's because of master Haotian's unique refining technique. His cultivation is only at the level of true immortal, and the materials he used are at most at the level of golden immortal, but the things he refined are comparable to those at the level of zenith heaven immortal. It's enough to prove how special and brilliant his refining technique is.”

“That's why the immortal list acknowledges him and puts him on the list.”

Soon, a master from the path of crafts stood out and suggested his own guess.

And this thought was gradually accepted by the world.

Because this was the only way to explain why master Haotian could break the rules and be listed on the list of Immortals.

For a time, the various continents of the immortal world were in an uproar and extremely lively.
