

## The Mightiest Little Peasant Chapter 3069

In the void, the dark aura gathered into a tide and surged over.

Tang Hao was wearing the chaos gold warrior suit. The ten thousand laws divine mountain in his body trembled slightly as he walked forward.

Soon, the tide came and swallowed him.

“I estimate that it will take at most ten minutes!”

He estimated that he could only hold on for ten minutes at most in his current state. Any longer and he would have to take out ten thousand laws divine mountain and fully activate it, which would undoubtedly attract the attention of the treasure Daoist.

At that time, he would also expose his identity.

“There are treasures here and there ...”

He quickly scanned the area and identified some of the treasures nearby. He quickly swept over and collected them one by one.

He moved extremely fast, dashing through the tide water, collecting one treasure after another and putting them into his bag.

“No more!”

In three minutes, he swept from the beginning to the end, sweeping away all the treasures along the way, leaving only a few for the treasure Daoist.

After obtaining the treasures, he quickly rushed out of the ancient tide and stopped in the distance.

“Hu!”

He heaved a sigh of relief, and his face was filled with joy.

He had gained quite a lot from this trip.

He counted, there were nine in total, most of them were gold and iron ore veins, some were crystal type ores, all of them were high grade immortal materials.

“These should be immortal materials that were born when the immortal world was created. They’re all good stuff!”

Looking at the immortal materials in the ring, he grinned.

“Eh? Where’s the treasure? Why is it gone?”

At this moment, treasure Daoist was still searching for treasures in the ancient tide.

Affected by the Qi of absolute beginning, his divine thoughts were greatly hindered. He could not probe too far, so he could not sense Tang Hao's existence.

He had just been taking his time to collect the treasures, but when he finished collecting the Three Treasures, he found that there were no more treasures around him.

This shouldn't be the case!

Previously, he had used his divine ruler to probe the ancient tide. There were at least ten auras of treasures within it.

"Strange!"

He swept through the ancient tide for a moment and searched carefully, but he still found nothing.

"Maybe it's a mistake!"

He muttered.

Although his divine ruler was powerful, it was not always accurate. Furthermore, this was the ancient tai Chu tide, and its aura was too chaotic and violent. It would definitely affect the divine ruler's detection, so it was normal for it to make mistakes.

"Three then! It's not bad!"

He didn't dare to stay any longer. With his strength and divine arts, he wouldn't be able to last long in the ancient tide.

Then, he jumped out of the ancient tide.

He sat down cross-legged and adjusted his breathing for a moment.

Tang Hao sat down and rested in the distance.

About six hours later, treasure Daoist stood up.

He still took out his divine ruler and searched for a while before quickly flying in a direction.

Tang Hao put on his golden fighting robe and followed them.

Soon, he saw another ancient tai Chu tide.

He used the same old trick. The moment he entered the ancient tide, he quickly plundered the treasures. After a round of plundering, he rushed out and hid far away.

“Eh? Why are there only two items? Shouldn’t there be eight or nine of them?”

The treasure Daoist was puzzled again.

His divine ruler seemed to have made a mistake again!

“What’s going on? it feels a little strange!”

He scratched his head and mumbled, his white eyebrows furrowed together.

But he just couldn’t figure out what was strange.

“I’m just overthinking it!”

After a while, he mumbled and shook his head, not caring anymore.

He felt that this strange feeling was just an illusion.

After all, he was the only one in this void space. There was nothing strange about it.

“Continue! Continue!”

After resting for a while, he took out the divine ruler and continued to search for treasures.

Tang Hao followed him and found one ancient tai Chu tide after another. He collected one treasure after another.

These ancient tides all came from the depths of the ocean, and not all of them carried treasures. Some of them didn’t, but these ancient tides were discovered by treasure Daoist with his ruler, so there were many treasures in them.

“What a great treasure!”

Tang Hao’s eyes were burning with desire as he looked at the Golden ruler.

“Senior is also a good senior!”

He exclaimed again.

Although this senior had taken one of his treasures, he had already taken it back, and it was dozens of times more.

Without this senior’s guidance, it would not have been easy for him to find so many treasures.

As for the treasure Daoist, he had gradually gotten used to it.

He could sense that there were seven or eight of them, but usually, there would only be two or three in the end. This was very normal.

“This wave of ancient tide is a little fierce!”

Following treasure Daoist, Tang Hao discovered another ancient tai Chu tide. It was four to five times larger than the previous one, and it was extremely imposing.

Tang Hao’s expression changed.

He estimated that he could only last two to three minutes in this ancient tide. This time, he had to be faster and find the most valuable treasure first.

“Eh? What’s that?”

As soon as he entered the ancient tide, he began to search quickly.

After a few dozen seconds, he found something. There was a huge thing wrapped in the violent Qi of absolute beginning. At first glance, it looked like a mass of mud, and it exuded an unusually ancient and heavy aura.

“This is ...?”

Tang Hao’s breathing stopped for a moment when he saw it clearly. His eyes glowed with a terrifying light.

That was the soil of breath!

An ancient divine item!

This thing was extremely rare and precious. A little bit of breathing earth was enough to create a star. However, the one in front of him was as huge as a small mountain.

“I’m rich!”

Tang Hao was incomparably excited. He immediately rushed forward and put the lump of breathing earth into his bag.

Then, he dashed out of the ancient tide and picked up a few treasures.

He couldn’t hold on any longer and had to leave as soon as possible.

He only stopped when he was far away. He opened the ring, and his face revealed a look of ecstasy.

Such a large piece of breathing earth was definitely his biggest gain this time.

After a long while, he closed the ring, sat down cross-legged, and began to regulate his breathing.

On the other side, treasure Daoist didn’t hold on for long either. He quickly left the ancient tide, looking a little embarrassed.

“My precious!”

He clutched an immortal shield and wailed.

He had only stayed for a little longer, and he had lost a celestial artifact.

“It’s almost time. I’ll come again next time!”

He didn’t continue to explore. Instead, he shook his head and kept all the treasures. He then took out a compass and left quickly following the directions of the compass.

“He’s leaving just like that? What a pity!”

Tang Hao watched him leave and felt that it was a pity.

If this continued, he would be able to find even more treasures.

But thinking about it, senior abundant treasures had already found twenty or thirty treasures on this trip, which was enough.

“I’ll keep looking!”

Tang Hao didn’t plan to leave. He wanted to find more immortal materials and he didn’t want to go back. He wanted to refine the immortal spirit body here. If he did it outside, he was afraid of alerting the immortal investiture list.

The immortal spirit body was his trump card, so he naturally couldn’t expose it.
