

## The Mightiest Little Peasant Chapter 3121

“There’s a spatial fluctuation!”

In the ruins of the valley, Xuanyuan Zheng landed and took a closer look. His expression changed immediately.

There were spatial fluctuations, which meant that the kid had left from here.

If they were only using divine powers and spells to travel through the void, there was no need to level this place.

The fact that the kid had done this meant that there had been a formation here before. He wanted to destroy it and not let anyone else use it.

“Hiss! Hiss! Hiss!”

“That stinky brat couldn’t have really built a teleportation array, could he?”

The other old monsters came over and took a closer look. They were all in disbelief.

The ridiculous guess they had just made was actually true!

“That kid ... How did he do it?”

An old monster scratched his head, his face full of disbelief.

He really couldn’t figure out how that kid could set up so many teleportation formations in such a short time.

“Don’t forget that he’s a God of crafts. Since he’s so good at crafts, how can he be bad at arrays? moreover, he has no lack of treasures and immortal crystals. It’s natural that he can build so many teleportation arrays.”

The heavenly Dao Daoist took a deep breath and suppressed the shock in his heart.

“How he created it is not the key. The key is that he prepared everything before crossing the Tribulation. Our appearance was also within his expectations.”

Xuanyuan Zheng’s brows were tightly knitted together, and there was a deep sense of fear in his eyes.

This kid really didn’t look like a young demon!

“What do we do now?”

The group of old monsters looked at each other, all somewhat at a loss.

They were stunned when they suddenly found out that the kid had a teleportation system that covered every continent. They didn't even know how to chase after him.

That kid was in the neighboring continent now, but when they painstakingly rushed over, that kid would take their own teleportation array and go to the next continent, making them come empty-handed.

“Chase! Every time he changes locations, we have to destroy a transportation formation. As long as we keep chasing, we'll catch up with him sooner or later. ”

Xuanyuan Zheng said viciously.

Could they still give up at this point?

Even if it wasn't for the treasure, for the sake of their pride, they had to chase after him and capture that damned brat.

“Right! We must chase!”

“This brat, just wait and see how I'll deal with him when I catch him!”

The group of old monsters responded, immediately got up, and continued to chase.

They went to the nearest Immortal City and used the teleportation array to go to the neighboring continent.

Just as they had expected, when they were about to arrive, the kid had left again. Nearby, they also found the remains of a teleportation array.

Just like that, they kept chasing, but they missed again and again.

“It's been half a month! Why haven't we caught up yet?”

“That group of celestial of the great all-embracing heaven is too useless!”

The immortal world was in an uproar.

Almost everyone knew that the group of zenith heaven Immortals was chasing after the demon from the lower realm. They had been chasing him for more than half a month and still hadn't caught up!

This result was unbelievable to everyone.

It was abnormal for so many great eternity Immortals to chase a newly advanced golden immortal for so long.

Many people even laughed at the group of Grand Luo Immortals.

In the past, in their minds, the Celestials of the great all-embracing heaven were legendary figures, high and mighty, and extremely mysterious. But now, it seemed that they were nothing more than that. They couldn't even catch up with a golden immortal.

“Hey! It wasn't that they were useless, but that demon was too cunning! I heard that before his tribulation, that monster set up a teleportation formation in every major continent of the immortal world. It was with this set of teleportation formations that he was able to shake off his pursuers.”

“F \* ck! An entire teleportation formation?”

When the news of the teleportation formation spread, the world was left speechless again.

To build a teleportation system all over the immortal world with his own strength, this was too abnormal!

“As expected of master Hao Tian. Amazing!”

Then, everyone sighed and was convinced.

Soon, another seven days passed.

In the pursuit, the group of great eternity Immortals had already passed through more than 40 continents.

They felt more and more aggrieved as they missed again and again. The anger in their hearts was almost out of control.

“Motherf \* cker! How many teleportation formations did this bastard set up? Don't tell me that it's really in all the continents?”

He rushed to another Valley and saw a pile of ruins inside. Heavenly Dao Daoist exploded. He raised his hand and struck out, blowing up the entire mountain range.

His face was red and he looked ferocious.

He had never felt so aggrieved and humiliated before.

“It seems that's the case!”

Xuanyuan Zheng said in a low voice.

His expression was also ugly, dark as water and frighteningly dark.

It had been almost a month, but they had only chased him across 40 or so States. If they wanted to chase him across all of them and force him into a corner, it would take at least two or three months.

“Let's continue!”

He snorted coldly and took the lead to fly out.

This chase lasted for another half a month.

At this moment, someone suddenly realized that the aura they had locked onto had disappeared. They could no longer track it.

“Not good! He’s trying to change his aura to get rid of us. We can’t let him succeed!”

The group of people became anxious.

If that brat really succeeded, they would completely lose him, and this was a very likely thing, because that brat had too many tricks up his sleeve. Who knew what kind of divine ability he had?

“So he was really tricking us earlier!”

The heavenly Dao Daoist’s face twitched a few times, and he felt like vomiting blood.

That brat was walking them, the group of great eternity Immortals, like dogs!

Now, that kid was finally getting serious and was about to get rid of them.

“Hurry up! Hurry up and chase!”

The group of people gritted their teeth and used all kinds of divine abilities, pushing their speed to the limit.

However, this was of no use.

That brat had travelled further and further away. Moreover, after constantly changing his aura, more and more of them had lost him. They could no longer lock onto his aura.

“I can’t detect his aura!”

“I can’t see his trail either.”

They kept exclaiming in shock.

“It must be the ten thousand laws divine mountain! That’s a treasure of the ancient immortal Emperor, and it’s fused with all the techniques of the world. It can change one’s aura and block the tracking of spells easily!”

A Grand Luo immortal said.

As the number of people who could track him decreased, and the brat became further and further away, they gradually fell into despair.

“No more! Even I can’t sense him!”

A day later, the last person stopped with a compass in his hand.

He fiddled with the compass in his hand, his face bitter.

As expected, he was also broken here.

That kid had shaken off all of them and escaped!

Behind him, beams of divine light stopped and celestial of the great all-embracing heaven appeared one by one. They stood in the void with extremely ugly expressions.

After a month and a half, they still lost him.

They could already predict what kind of waves it would cause in the immortal world when the news spread. Their reputations would also be destroyed overnight!
