

## The Mightiest Little Peasant Chapter 3135

“The Golden pill of the great way? What kind of pill is it?”

“It must be the most powerful elixir in the last ten thousand years to be recognized and ranked first on the immortal list! Its effects must also be heaven-defying!”

Countless people in the immortal world looked up at the sky with fiery eyes.

There were countless Immortals in the immortal world. There were many golden Immortals, not to mention heaven Immortals and earth Immortals, let alone zenith heaven Immortals.

Almost all Immortals had extraordinary pill refinement techniques.

There were even more alchemy Masters who were born from it, even more than smithing Masters.

However, even with so many grandmasters of alchemy, no one had been able to break through the alchemy ranking for thousands of years. This showed how outstanding the alchemy pills on the ranking were, so much so that no one had been able to surpass them for thousands of years.

But now, someone had created a divine pill that surpassed all the other pills on the list and took first place!

This showed how powerful this pill was!

It was definitely a heaven-defying level!

“Hurry up! Go and find out which master it is!”

Some of the major powers had already taken action. They used their connections and began to gather information.

“Which fellow Daoist is it?”

“I really want to meet this fellow Daoist and witness the power of this golden core cultivator!”

The alchemy Masters were even more excited.

They were different from the other major powers. They didn't have any ideas about the pill recipe, but they admired and worshipped it.

They also used their connections and began to inquire about the pill realm.

Meanwhile, in the valley, Tang Hao held the purple divine pill in his hand and looked up at the sky. He was a little stunned.

He didn't expect his pill to be so powerful that he could get first place in such a short time.

"Do you really have to do this!"

He muttered softly.

He could already imagine how the outside world was boiling.

The great Dao golden core had attracted the attention of the entire immortal world.

"But it's true. With the materials used for this pill, I'm afraid no other pill can compare to it." After some thought, he understood.

Each of the 36 ingredients listed in the pill formula was extremely rare, especially the primordial chaos Divine liquid, which was a Supreme divine item. It was no wonder that his pill had been ranked first on the immortal list.

Moreover, his pill-making technique was a little special and could be considered a little innovative. In the eyes of the immortal list, it would also be a bonus.

"Alright! Since I've already gone up, there's no difference between first and tenth place. Let them be curious. They don't know it's me anyway!"

Tang Hao grinned and put the pill away.

Then, with a wave of his sleeve, he kept all the arrays and left quickly.

Someone might have noticed the commotion just now. He had to escape far away and refine again in another continent.

After finding the place, he set up the formation again and continued to refine.

With the experience from the first time, the second time was even smoother. In seven days, the second pill was completed.

Two months had passed by the time he was done.

"Let's try the medicinal effects!"

Tang Hao took out a pill and swallowed it.

This elixir was in a virtual state. Once it entered his stomach, it instantly dissolved and turned into a purple torrent that surged into his dantian's sea of Dao, then into the immortal abode and gathered around the wood of great Dao.

Whoosh! Whoosh!

As the torrent surged, it was continuously absorbed by the wood of Dao.

His great Dao tree was growing at a speed that was almost visible to the naked eye. The Five Golden Flowers on it also had obvious changes. They became more solid, and the material was more crystal clear.

“What a powerful medicinal effect!”

“Wow!” Tang Hao exclaimed.

These changes were all visible to the naked eye, which showed how powerful the medicinal effects were.

Moreover, it was not just his Five Golden Flowers. His physical body was also absorbing the energy at a crazy rate. His flesh and blood were constantly changing. His qi and blood were becoming more powerful and abundant. He could clearly feel all these changes.

“Hu!”

An hour later, he exhaled a breath of turbid air and opened his eyes.

His eyes were filled with extreme surprise.

This one hour was equivalent to a hundred years of bitter cultivation for many golden immortal old monsters.

And he still had nine of these pills. If he swallowed all of them, it would be equivalent to nearly a thousand years of time for those old monsters.

“It’s a good pill, but the ingredients aren’t easy to get!”

He sighed.

He could easily obtain the other 35 materials, but the primordial chaos Divine liquid was not easy to obtain. It was a risky thing to do.

Next time, he had to be even more careful. He couldn’t be discovered by others. This way, he could continuously obtain divine liquid to refine the grandmist golden pill for himself and continuously improve his cultivation.

After swallowing all nine pills, the Five Golden Flowers in his body had changed significantly. They were already in the shape of a fourth petal.

Golden flowers usually had three petals when they were just born. As one’s cultivation level increased, they would have four, five, or even nine petals.

“Let’s go, we have to hurry back!”

Satisfied, he stood up and quickly rushed back to the Thearch puppet sect.

He had just entered the sect, but he had already been outside for more than two months. It would not be good if he attracted the attention of those elders.

With the primordial chaos Divine liquid, he did not want to be chased out of the Thearch puppet sect.

Fortunately, when he returned to the sect, everything was fine.

In the past two months, no one had paid attention to him, and no one had come to find him.

In the Thearch puppet sect, he was now quite famous. Many people knew that he was the weirdo who slept during the entrance test and offended the elders. Others would avoid him so much that they would naturally not come to find him.

He made some inquiries. During this period of time, there wasn't much happening in the sect. It was just that some time ago, the alchemy ranking was broken, which caused a heated discussion in the sect.

Among the new disciples, a few monstrous talents also gradually revealed their talents, attracting the attention of many people in the sect.

Tang Hao was not interested in it, so he did not pay much attention to it.

He was more concerned about the situation of the primordial divine wood.

He had wanted to get more divine liquid, but when he looked around, he found that there were already people there. They were a few golden immortal elders sitting cross-legged under the tree, meditating. They were clearly using the magical effects of the primordial divine wood to speed up the growth of the Golden flowers.

In such a situation, he naturally could not make a move.

After asking around, he found out that there were often elders who went there to meditate and cultivate. It was their turn every month.

He only had a few days of free time every month. Last time, he happened to have a free time.

"Wait! The next time I go in, I'll take out more!"

Tang Hao was no longer in a hurry after he found out the pattern. He waited patiently.

Every day, he would stay in the cave abode and guide Chun Xuan, lady su, and the others on their alchemy and weapon techniques. He would also chat with them and drink tea. He was extremely satisfied.

Every few days, he would go out and walk around the sect to make some acquaintances and brush up his presence.

Just like that, after waiting for about half a month, he finally found an opportunity and once again snuck into the medicine Mountain peak.

Three months had passed, and the hole left by the needle had already healed. He made another hole in the original spot and collected the divine liquid.

This time, he took out thirty drops before leaving.
