

The Mightiest Little Peasant Chapter 3155

“Dao attainment, fifty thousand.”

“Four connate spirit items.”

“Five celestial artifacts, one Celestial King, four zenith heaven.”

“Ten top grade immortal materials, fifty rare plants ...”

Tang Hao took out the sect’s reward first.

Whether it was Dao attainment, connate spirit items, or immortal materials, they were all things he needed, especially the latter two, which he urgently needed. He had to give the connate spirit items to Chun Xuan and the others so that they could reach the Golden immortal level as soon as possible.

Immortal materials could be used to increase the power of the immortal spirit body.

One or two pieces would not have any visible effect, but as long as he kept devouring them, there would be results sooner or later.

As for the celestial artifact, the celestial King grade one was a sword, a green ancient sword.

When he had obtained it, he had already checked and found that the material was a connate spirit item.

Only connate spirit items could be taken a fancy to by immortal kings and refined into artifacts. Because of the high grade of materials, the power of such Immortal King treasures was far greater than that of zenith heaven treasures.

“The blue deathtrap sword, not bad!”

He quickly refined it and drove the ancient sword to circle the hall.

Along with the green sword light, the shadow of a Green Phoenix appeared. Its wide wings flapped, and a dazzling light bloomed out. It was extremely dazzling.

After playing with it for a moment, he put it away.

Then, he took out a pile of rings, which he had taken from the nightless club disciples.

” 150!”

He counted and couldn’t help but grin.

Among these one hundred and fifty, only a small part of them were earth Immortals, while the rest were early stage heaven Immortals, and a small number of middle stage heaven Immortals. The scale of their collection was extremely shocking.

“I’m rich! I’m rich!”

Tang Hao opened them one by one and organized them.

Countless immortal crystals, immortal materials, and Dharma Treasures dazzled his eyes.

With the help of the split souls, it took him more than half a day to organize everything.

With so many treasures on him, he suddenly felt that he was a bit richer.

“Get the girls out!”

He got up and strolled around the cave abode.

This was the highest level, the elder level cave dwelling, which was even bigger than the ordinary heaven level disciple’s cave dwelling. It was completely a Palace, and could accommodate many people. The previous cave dwelling was a little small, only suitable for one person.

“Young master!”

After coming out of the cave, Chun Xuan and Qiu Ci bowed and greeted.

“Young master Tang!”

Then, it was lady SU’s turn. She bowed and paid her respects, but she was somewhat restrained.

“Big liar, you’ve changed your location?”

Ye Siyao, on the other hand, didn’t hold back at all and spoke a little carelessly.

She looked around in surprise.

Whether it was the material of the palace or the concentration of immortal Qi inside, she had never seen it before.

“Yup!”

Tang Hao briefly explained the situation to them.

“So, you guys can stay here for the time being! I’ll find a place to settle you down later.” He said as he looked at lady su and the servant girl.

“Young master Tang can make the decision!”

Su Xuezi gently smiled and said.

Of course, she wanted to stay by his side, but she also knew that it was not appropriate. She was a strong person and could not always rely on him. If she continued to rely on him like this, she would be looked down upon by young master Tang.

Seeing her nod, ye Siyao didn't object.

"Then you can choose your own palace!"

Tang Hao let them choose their own place.

He sat down in the hall, took out the divine furnace, and continued to refine pills.

Before the competition, he had stolen thirty drops of divine liquid and only refined seven cauldrons. He still had twenty-three cauldrons to refine.

This refining process took a full three months.

After he was done, he swallowed all 30 primordial chaos pills. The Seventh Petal of the Golden Flower in his body had grown quite a bit, and it was close to maturity.

"I guess I still need another 30 to fully grow and open the eighth petal!"

He estimated for a moment, and his heart felt a little hot.

When the eighth petal bloomed, it meant that he had entered the late golden immortal realm.

At this stage, even if he met a Grand Luo immortal, he wouldn't be afraid.

After calculating the time, he left the cave, put on the Golden fighting robe, and went straight to the medicine Mountain.

After obtaining the divine liquid, he immediately returned to his immortal's cave and began to refine pills.

This refining process took another four months.

"It's done!"

Tang Hao could not help but smile when he was done with the last batch of pills.

These 30 grandmist golden pills were enough for him to break through to the late golden immortal realm.

Suppressing his excitement, he took out the Golden pills and swallowed them one by one. In his body, the tree of Dao was already extremely lush. If it was just a small sapling when he had just advanced, it was now a towering ancient tree.

However, there were only Five Golden Flowers on the lush branches.

This was because the Golden Flower needed to use a connate spirit item as a guide to bloom.

By the time he had absorbed the medicinal effects of the ten pills, the Seventh Petal had already ripened. After he had absorbed the remaining twenty pills, the eighth petal had also grown out as he had wished.

“Hu!”

Tang Hao felt relieved when he saw that.

He had finally reached the late golden immortal realm!

Calculating the time, it had only been three years.

In just three years, he had advanced from a newly-advanced golden immortal to the late golden immortal realm. This speed was truly astonishing.

When he had just advanced, Tang Hao did not think that he would be able to reach the late-stage so quickly.

“Time to go out!”

Tang Hao rested for a while and pondered.

He had stayed in Emperor puppet sect for three years. It was time for him to go out and see some old friends. He would then find a safer place to settle lady su and the others, as well as those who would ascend in the future.

“Let’s take a walk around the sect first. If there’s nothing else, we can go out. ”

He got up, left the cave, and strolled around the sect.

“Brother Qin, how are you?”

“Greetings, Junior Brother Qin!”

As soon as he went out, he immediately received a lot of attention. When the disciples who came and went saw him, they all stopped in their tracks and saluted him, calling out to him enthusiastically.

No matter if it was this batch or the previous batches of disciples, they were all extremely polite to him, and even somewhat reverent.

Tang Hao returned their greetings and smiled at them.

“Yo! You’re finally willing to come out!”

Soon, he saw elder di.

Elder di was surprised to see him.

Since the end of the competition, this kid had disappeared without a trace. He had been staying in the cave all day long, and no one knew if he was sleeping or doing something else.

However, he didn't care anymore. The kid's cultivation base had already reached the peak and he had already obtained six connate spirit items. The next thing he had to do was to refine the spirit items, bloom golden flowers, and break through to the Golden immortal realm.

And this required time and couldn't be rushed.

Elder di left after giving a few more instructions.

Tang Hao continued to stroll around the sect. He heard a lot of recent news from the passing disciples, such as how long Xiaozi and the others slandered and scolded him every day. He didn't care about that.

Long Xiaozi was no longer worthy of his attention.

Moreover, he was already a late golden immortal now. How could he put a half-step golden immortal in his eyes?

Half a day later, he returned to his cave abode, took a few girls with him, put on his golden fighting robe, and left the sect.
