

The Mightiest Little Peasant Chapter 3176

King Yan's realm.

On a deserted island.

Tang Hao stood on the peak of the mountain and looked around.

He was already very familiar with this shark King World, so he did not need to explore it again.

What he needed to consider now was how to steal the Pearl from the hands of the Qiang tribe again.

"The Pearl is probably not in the Treasury anymore. It's probably with the old king of Xi. That's why elder Zhao is so confident that I can't complete the task. This is a bit troublesome!"

He mumbled and frowned.

The old kun King's strength was close to that of a golden immortal, and he was surrounded by countless powerful beings of the Xiu clan. It would be very difficult for him to kill the old kun King without revealing his strength.

"Hahaha! This kid is really at his wit's end!"

Outside, the elders laughed complacently.

All the disciples also had an expression of "as expected."

This 7-star Mission wasn't something that could be completed by one person. Furthermore, this was the second time. The difficulty had increased greatly. It was normal for Brother Qin to not be able to complete it alone.

"Although it's difficult, there's a way!"

On the deserted island, Tang Hao muttered to himself for a long time. Many ideas had already appeared in his mind.

A head-on confrontation was definitely not an option, as it would expose his strength.

He didn't want to leave Emperor puppet sect before his cultivation reached perfection.

Then he could only use some schemes and dirty tricks.

"Set up a trap to kill? It's feasible, but it's too troublesome to use. It's better to use poison!"

He pondered again and had an idea.

"But which poison should I use?" He muttered to himself as he squatted down and took out many bottles and jars. He placed them in front of him and looked at them one by one.

"What are these?"

"Medicinal pills! That's strange, what's the use of pills now?"

Outside, the crowd was stunned and somewhat surprised.

“Eh? What’s this? why is it so colorful?”

In the image, the young man picked up a jar and opened it. There was a five-colored powder inside.

“No! No! This is a little too vicious!” The young man looked at the powder in the jar and muttered softly.

“Poison? Could this be some kind of poison?”

Elder Zhao asked in surprise.

“It does look like poison, but it shouldn’t be a powerful poison!” Elder di said.

He didn’t know much about poison, but judging from this kid’s age and cultivation, it shouldn’t be a very powerful poison. It wouldn’t be of much use to the black Phoenix race.

There were many heaven immortal experts in the black Phoenix race, and the king of the old Phoenix was infinitely close to the Golden immortal realm.

“Hahaha! ‘This kid is too naive!’ You want to take down the Darklight King with just a little poison?”

“What an idiot!”

Long Xiaozi and the others sneered, their faces full of mockery.

In their eyes, the poison Path was just an unorthodox path.

The rest of the people looked at each other and shook their heads slightly. They didn't think that using poison would work.

"Something's wrong! This poison ... I'm afraid it's not ordinary!"

At this time, an elder suddenly frowned and revealed a suspicious look.

Then, he narrowed his eyes and stared at the five-colored powder in the picture.

"What's so special about it? It's just some powder, what can you see!" Elder di mumbled.

They could only see the images, so they had no way of knowing the smell of the poison, let alone determining its grade.

"Look at the jar in his hand, that's the best material, immortal tear gold! Think about it, what kind of poison would need the best immortal material to contain it? This means that this poison is extremely overbearing and terrifyingly powerful. Normal containers can't contain it!"

The elder suddenly raised his hand and pointed at the jar in the picture.

"No way! It's just a jar, and it's all made of immortal tear gold?"

"This is too extravagant!"

The surroundings were in an uproar.

Everyone's attention was on the immortal tear gold.

Immortal tear gold was a top-grade metal material. It was extremely precious and was usually used to refine important magical treasures. It was a waste to use it to refine a container for poison.

"It's really immortal tear gold, and all these bottles are! Heavens!"

Elder di and the others took a glance and exclaimed in shock.

Then, their expressions turned grave.

A poison that needed to be packaged in gold immortal tears was definitely not ordinary.

"Old Zhao, can you let us sense the aura inside?" An elder said solemnly.

"It's possible, but the kid will sense it."

Elder Zhao said hesitantly.

"I'm fine! That kid is so smart, how could he not know that we're watching him?" Elder di said.

"Alright!"

Elder Zhao hesitated for a moment, then raised his hand and flicked it again. The image shook, and it looked more real.

The next moment, a sea breeze blew from the picture.

It was accompanied by a shocking evil and icy Qi.

As this aura brushed past them, everyone froze. Then, they began to tremble uncontrollably.

“Oh my God!”

Elder Di’s eyes were wide open, revealing extreme shock and even fear.

Just the aura alone was enough to make him, a golden immortal, feel fear. This was enough to show how powerful the poison was!

“This ... This is the decaying immortal powder! It’s not the most powerful poison, but it’s the most vicious and difficult to deal with. Once you’re poisoned, it’s like gangrene attached to the bone, impossible to cure. Your immortal soul and immortal body will slowly rot. ”

“Of course, people can’t die. They can still be reborn. However, after rebirth, they will continue to rot for hundreds or even thousands of years, causing people to suffer.”

The elder who spoke earlier said in a trembling voice, his eyes filled with fear.

He was well-versed in alchemy and had done some research on poison, so he knew how powerful this poison was.

“That’s not possible! How could he have such a powerful poison? although this poison is powerful, it’s very difficult to refine. It requires hundreds of kinds of strong poisons. ” Then, he cried out in surprise again, his face full of disbelief.

Gulu!

When everyone heard this, they all swallowed their saliva and their faces turned pale.

This seemingly unremarkable five-colored powder was actually so vicious?

Also, how did Brother Qin get his hands on such a vicious thing?

Looking at the five-colored powder in the picture, they felt their blood run cold.

On the side, long Xiaozi and the others were also pale, and they had lost all their previous pride.

They were even more dumbfounded!

Didn't this Qin guy look like a decent guy? how could he have such a vicious thing?

When they heard the elder's explanation just now, their scalps almost exploded.

Coming into contact with this poison was not as simple as having one's anus split open. It would be even more miserable, worse than death.

"This kid, how does he have this kind of thing? It's too scary!"

Elder Di's hands were trembling and his face was pale.

At this time, he saw the young man put the lid back on the jar and put it aside. Then, he picked up another jar and opened it. There were huge and round pills inside, all black.

On the surface of the elixir, there was a dense black mist.

When the elder took a closer look, his eyes almost popped out.

“The immortal devouring pill! This is the immortal devouring pill!”

In the next moment, he shrieked, and his eyes were filled with fear.
