

The Mightiest Little Peasant Chapter 3188

“I keep feeling that there’s something wrong with this kid!”

Fang Jinghong was lost in thought as he flew.

The first factor was their age. Both of them were just over a hundred years old. This was too much of a coincidence!

The second was the time. He had checked. Not long after that freak advanced to golden immortal and got rid of the pursuit of the group of zenith heaven Immortals, the sect opened its mountain. The time just happened to match.

As for why he was able to enter the sect without the elders knowing, it might be because this kid had some powerful divine ability.

“I have to investigate this Daoist maple. As long as I find out who he is, I’ll be able to confirm whether this kid is the real Daoist maple or not.”

He mumbled, his expression becoming somewhat fervent.

It would be great if this kid was really that monstrous.

This was because this meant that this kid had a way to quickly increase his cultivation. This method was definitely related to the primordial divine wood.

As long as he could obtain this method from this brat, he would be able to improve quickly and reach the late-stage as soon as possible.

With this thought in mind, he quickly walked away.

Tang Hao stood at the entrance of the cave abode and watched the man leave.

After a while, he shook his head and turned to enter the cave.

He had already expected this situation, but he didn't care much about it. After some time, when the pills were refined, he would be able to smoothly reach perfection.

"I'd better hurry up and refine pills!"

He returned to the hall, took out the divine furnace, and continued to refine pills.

This refining process took more than half a year.

Finally, he finished refining all the divine liquid.

He took out the divine elixir and started to swallow it.

He tossed the 90 primordial chaos Divine pills into his mouth like he was frying beans. After they entered his stomach, they immediately dissolved and turned into a rolling Dao accumulation that rushed towards the Dao ocean immortal abode. There was also a majestic power of spiritual essence that surged to his limbs and bones and was absorbed by his physical body.

Not only could this one divine pill produce golden flowers, it could also greatly strengthen the immortal body.

His immortal body was already far stronger than Immortals of the same level. Now that he had swallowed so many primordial chaos Divine pills, he was even stronger. He could completely crush Immortals of the same level and even face those at the origin immortal level.

After swallowing about ten, the ninth petal bloomed on the Five Golden Flowers.

Then, it continued to grow, strengthen, and become solid.

By the time all the pills had been consumed, the ninth petal had matured.

Even the tree of Dao grew a section taller, becoming a towering tree of Dao.

“Perfect!”

Tang Hao opened his eyes and breathed a sigh of relief.

He had been in the sect for almost five years, and he had also refined pills for almost five years. Finally, he had raised his cultivation to the perfection stage.

“The next step is to break through to the zenith heaven realm!”

He said to himself.

Then, he was startled and laughed bitterly.

The zenith heaven realm was not easy to break through. It was even more difficult than breaking through to the Golden immortal realm.

It was actually quite easy to break through to the gold immortal realm. As long as there were enough connate spirit items and a little more preparation, one could successfully transcend the Tribulation.

However, this zenith heaven realm was much more troublesome.

In order to break through to the zenith heaven, one had to open up a world in one's body, which was also called the Natal world or the zenith heaven world.

This world wasn't real. It was formed by the Taoist connotation. However, it was no different from the real world. It was extremely magical and contained supreme power.

With a wave of a Grand Luo immortal's hand, he could borrow the power of a world. That kind of divine power was not something that a golden immortal could compare to.

"I have many ways to open up my Natal world. It's time to study it."

He was not in a hurry.

In his mind, there were too many such methods. The inheritances of sky extermination immortal Emperor and nine luminaries immortal Emperor also contained such secret techniques. There were also inheritances of immortal kings and perfected golden Immortals from all walks of life.

And they had a variety of methods.

Therefore, he had to study it carefully and then come up with the most perfect method.

"Let's go out and take a look!"

He was not in a hurry to study it. Instead, he got up and left the cave.

He had been in seclusion for half a year. It was time to go out and show his face.

“You’ve finally come out!”

On the way, he ran into elder di.

Elder di was a little surprised.

This brat would stay in the cave dwelling for three to four months, or even more than half a year. He had no idea what he was doing.

“How’s your cultivation level? when are you going to cross the Tribulation?”

He asked.

“Soon! It’s almost there!”

Tang Hao grinned.

“What do you mean by soon? if you think that this is a slow way to cultivate, I can arrange for you to go to the pharmacy division’s Mountain peak.” Elder di said.

“No need! It’s so boring to sit under that tree every day!”

Tang Hao said, waving his hand.

“You ...”

Elder di glared at him and rebuked, “you! When will you stop being so lazy!”

“Alright! Then I’ll go do some missions?”

Tang Hao said.

“Don’t! Please don’t!” Elder di trembled in fear. If this kid really went, elder Zhao would skin him alive.

“You can do whatever you want!”

He mumbled and walked away resentfully.

After strolling around the sect, Tang Hao returned to his immortal’s cave.

He wrote down all the methods to create the Natal world and studied them one by one.

At the same time, he also took the time to go to the medicine Mountain peak to get some more divine liquid while he was free.

This divine liquid was a good thing, so it would be a waste not to take it.

Just like that, half a month passed by.

The doorbell rang again. It was elder di.

“What’s wrong, elder?”

Tang Hao opened the door. “Is it the nightless club again?” he asked in surprise.

“Not this time!”

Elder di shook his head.

“It’s like this, not far from our Emperor puppet sect, there’s a demonic Dragon that has appeared in a certain area. It has already devoured many people, causing everyone to be in a state of panic. Someone from that area has come to our Emperor puppet sect to ask for help. ”

“I’ve sent some disciples over before, but they all failed and many of them were injured. Although that demonic Dragon is only a half-step golden immortal, it’s extremely powerful and cunning. ”

Elder di said with a frown.

“Elder, do you want me to go and capture this demonic Dragon?”

Tang Hao said.

“That’s right! With your strength and a few disciples, you’ll be able to take down this demonic Dragon and bring some face to our sect. If we can’t get rid of it, it’ll be a disgrace to our sect.” Elder di said with a smile.

“Alright!”

Tang Hao nodded.

Since he had nothing urgent to do now, he could go and meet this demonic Dragon.

“Then let’s go! The disciples are all waiting!”

Elder di turned around and led the way to the main hall.

When he arrived at the main hall, he saw a group of more than ten disciples already waiting for him. They were all the ones who had gone with him to the Immortal King’s remains last time. Princess Zi Yang was one of them.

“Brother Qin, long time no see!”

Princess Zi Yang stepped forward and called out in a tender voice.

“Brother Qin!”

The other disciples also came forward and called out enthusiastically.

Tang Hao cupped his hands and greeted them.

“Let’s go!”

After exchanging some pleasantries, Tang Hao bade farewell to elder di and left with the others.

This time, their destination wasn’t far. They didn’t use the teleportation array in the immortal City. Instead, they took out the immortal boat and sped over.
