

## The Mightiest Little Peasant Chapter 3194

Thearch puppet sect, main peak.

A figure was sitting cross-legged in the main hall on the mountain peak.

This person had the appearance of an old man, wearing a golden immortal robe. He had a handsome face and a head of white hair that fluttered in the wind.

His eyes were closed and he was meditating.

Suddenly, a ripple appeared in the void in front of him, and a jade talisman emerged. It was golden in color and had a Luan pattern engraved on it. It was the communication talisman used by the Emperor puppet sect.

“Eh? Who sent this?”

The old man opened his eyes and glanced at the Jade talisman in front of him. His face revealed a surprised expression.

A talisman that could be directly sent to his eyes must have been sent out by him.

“It’s Madam Fang!”

“How ... How is this possible?!”

He grabbed the Jade talisman and opened it. At first, he raised his eyebrows slightly in surprise.

However, in the next moment, his body trembled and he suddenly jumped up.

His eyes were wide open, filled with shock and disbelief.

The information in the Jade talisman was too shocking and unbelievable!

It said that the disciple surnamed Qin was the heaven-defying monster that was widely spread before. Moreover, this monster had suppressed elder Fang.

“That’s impossible!”

He mumbled with a look of disbelief.

As the sect’s Grand Elder, although he rarely showed himself, he knew everything that happened in the sect. Naturally, he knew about this disciple. He had never thought that this disciple would be that monster.

Moreover, even if that disciple was the real one, why would he want to suppress elder Fang?

He looked at the Jade talisman in his hand and frowned.

After pondering for a while, he vaguely understood what had happened.

This jade talisman had been sent by the Fang family head to ask for help. Why would the Fang family head and Fang Jinghong fight with that disciple?

Clearly, the Fang family had seen through the disciple's identity and had tried to harm him, but had failed.

"It seems like it really is that demon! Tsk! He's hidden really well, no one actually suspects him."

He sighed and shook his head.

Not only had that monster managed to deceive the elders of his sect and successfully enter the sect, but he had also been in the sect for five years without anyone finding out. He was truly quite formidable.

"That's right, his cultivation level ... Could it be because of the primordial chaos Divine wood? However, even if it's the primordial divine wood, it's impossible to improve so quickly!" He suddenly raised his eyes and looked in the direction of the medicine Mountain.

As far as he knew, that disciple had basically stayed in the cave mansion all these years. In that case, his opportunity must be in the Emperor puppet sect.

In the entire sect, the only thing that could allow a golden immortal to improve quickly was the primordial divine wood.

However, even if he relied on the divine Tree, the speed of his improvement was limited. It was far from reaching the heaven-defying speed of reaching the late stage in three years.

This was also the reason why no elder had suspected that disciple.

"This monster must have Some Kind of Heaven-defying secret technique that allows him to use the primordial divine wood ... No wonder! Even the Fang family can't take it anymore. They actually dared to take the risk to deal with a late-stage golden immortal." He muttered.

There were so many people in his Emperor puppet sect, and they had researched for more than a thousand years, but they hadn't been able to come up with any good solutions. In the end, a hundred-year-old kid had actually done it. This truly made him feel a little emotional.

He stood in place and pondered for a moment. Then, his figure flickered and disappeared.

Clang! Clang!

In the next moment, a loud Bell rang through the entire Mountain Gate.

"What's going on?"

All around the mountain Gate, the figures raised their heads and looked at the peak of the main peak with doubtful expressions.

Then, one figure after another flew out and turned into a long rainbow, heading to the peak.

"First elder, what happened?"

They appeared at the peak of the mountain and asked.

"You guys ... See for yourselves!"

The Grand Elder flicked his hand, and a jade talisman flew out.

"How ... How did this happen?"

“That’s impossible!”

All the elders used their divine senses to check, and after checking, their faces changed drastically, as if they had seen a ghost.

The information inside was too absurd!

How could that brat Qin be that demon? furthermore, how did he manage to suppress elder Fang?

“This ...”

Elder di, elder Zhao, and the others were the most shocked.

They were the most familiar with the kid and had more contact with him, so they were even more shocked.

They had never doubted that the kid was that monster.

“The Fang family is really bold!”

Very quickly, an elder understood what was going on. His face darkened as he chided.

Even if that evildoer had disguised himself and infiltrated his Emperor puppet sect, how he was dealt with was his sect’s business. How could the Fang family interfere? now that they had failed, they still had the face to ask for help from his sect!

“That brat is also despicable. He actually dared to lie to us. We have to capture him and punish him properly. Also, we have to make him explain how he advanced and whether he has any secret techniques.”

An elder shouted.

When he mentioned the secret technique, his eyes became a little hot.

In just a few years, it was a secret technique that could make people go from the early stage to the late stage. It could be said to be heaven-defying to the extreme. Even his Emperor puppet sect would be envious and drool over such a secret technique.

Elder di frowned and said, “great elder, that kid has entered the sect and has not done anything to harm our Emperor puppet sect. Instead, he has helped us a few times and won against the nightless club. I don’t think we should make things too difficult for him. Just ask him to release the person. As for the secret technique, it depends on whether he is willing to hand it over.”

When the great elder heard this, he looked at the crowd and could not help but smile bitterly. Have you all forgotten the rumors about that demon?”

All the elders were stunned and immediately fell silent.

Many of the elders’ faces revealed a look of ridicule.

That’s right!

They had really forgotten and subconsciously thought that it was still the disciple surnamed Qin from their Emperor puppet sect.

That guy was a heaven-defying monster!

In the immortal world, there had never been such a shocking figure in the past ten thousand years!

Although his Emperor puppet sect had many golden Immortals, they didn't have a single Grand Luo immortal. It was still a little lacking to suppress this child.

"Let's go and meet that demon! If it's possible, I don't want to fall out with you." The first elder sighed and shook his head.

Elder di was right. After this monster entered the sect, he had helped his Emperor puppet sect a lot. Therefore, he didn't want to really fall out with him and become his mortal enemy.

As for elder Fang, he had to be saved.

After all, he was a member of his Emperor puppet sect. Even if he was wrong, he should be punished by his sect.

"Let's go!"

He took the lead and turned into divine light, heading straight out of the sect.

The group of elders followed closely.

In an instant, hundreds of divine lights rushed out of the Thearch puppet sect.

"What happened?"

Within the sect, countless disciples of the Emperor puppet sect looked up at the scene, their hearts filled with shock.

Almost all the elders in the sect had shot out hundreds of golden immortal level divine lights.

How could an ordinary matter alarm so many elders?

Something earth-shaking must have happened!

They discussed animatedly, their faces filled with doubt and worry.
