

The Mightiest Little Peasant Chapter 3197

Boom! Boom! Boom!

Between heaven and earth, the rumbling sounds continued.

Over a hundred golden Immortals gathered together and activated their treasures, blasting them forward.

As for the dark golden giant, he waved his huge palm and used lightning to slap away the divine lights and treasures that were coming at him.

Even if there was a divine light that leaked out, it would only leave a faint mark on his body.

After bombarding for more than an hour, the group of Emperor puppet sect elders were all incomparably shocked.

After such a long battle, the immortal spirit body didn't seem to be injured. Its aura was still there and it could even split its attention to activate the divine furnace. They could hear the screams and howls coming from the furnace.

“Look, he's stepping on the immortal Meridian and has the nine Heavens divine thunder above his head. His strength is endless. How long will this fight last?”

“How did he trigger so many immortal meridians and divine lightning?”

They looked at the sky and the ground, their expressions extremely grave.

This immortal spirit body was like a giant combination of arrays that could draw on the power of heaven and earth. It was too difficult for them to break through its defense!

“BOOM! We can only do this!”

The first elder shook his head and said helplessly.

He didn't have a better idea.

With his perfected golden immortal cultivation base, two immortal Emperor Supreme treasures, and a powerful immortal spirit body, he was helpless.

“How could it be like this!”

On the side, the members of the Fang family were all extremely anxious.

The screams from the other side made their hearts clench.

They found it hard to believe that even with more than a hundred golden Immortals attacking him, they could not do anything to this kid.

“Those people ... Why haven't they come yet?”

The Fang family's head said anxiously as he looked around.

Since these people from Emperor puppet sect couldn't do it, he could only count on great eternity Immortals.

“Someone’s coming!”

Another hour passed, and finally, a divine light swept over from the horizon.

However, upon closer inspection, they were only golden Immortals.

Moreover, these divine lights stopped when they got close, not daring to get close at all.

This scene made the Fang family even more anxious.

As time passed, a few more groups of people arrived. They stopped nearby and watched from afar.

The immortal spirit body’s aura had stunned them from afar, and they didn’t dare to move forward.

They also recognized the group of people who were fighting. They were the immortal robes of the Emperor puppet sect.

This was still Emperor puppet sect’s territory, so they didn’t dare to casually interfere.

Even if they wanted to make a move, they would have to take advantage of the chaos and fish in troubled waters. If they went forward now, they would only offend the Emperor puppet sect.

“What? That kid suppressed that monster from the Fang family and wants to refine him to death?”

“Heavens! This is too brutal!”

When they found out about the situation here, they were all dumbfounded.

They had thought that this time would be the same as the time in Nantian city, where they would come up empty-handed, but they did not expect that this kid did not leave at all. He still wanted to refine a golden immortal to death here.

On the other hand, the hundred golden Immortals of Thearch puppet sect were unable to break through their defenses even after two to four hours of bombardment.

“This kid is truly terrifying!”

They looked into the distance and took in a breath of cold air. Their eyes were filled with fear.

This monster was already invincible in the Golden celestial stage. Unless a celestial of the great all-embracing heaven made a move, no one could do anything to him.

“I heard he’s already in the great circle. The people of the Emperor puppet sect are so enthusiastic. I’m sure it’s not just because of that Fang Jinghong, but also because they want to suppress that kid and get his secret technique.”

“To be able to create a perfected golden immortal in five years, tsk tsk! Even a Celestial King would be envious!”

They discussed in low voices.

“What’s going on?”

At this moment, there was a group of people flying in the distance.

The leader was a purple-robed celestial maiden. She raised her head and looked at the divine light that was rapidly passing through the sky, revealing a puzzled expression.

This was the second time she had seen such a divine light.

These divine lights were all at the level of gold Immortals, and their speed was extremely fast. They were all heading in the same direction.

“I wonder where Brother Qin has gone!”

“It’s really strange. The demonic Dragon and Brother Qin have both disappeared!”

Behind her, the crowd mumbled, their faces full of confusion.

Previously, they had entered the lake with Brother Qin to track that demonic Dragon. However, in the end, the two of them had disappeared.

“Something must have happened over there. Let’s go and take a look!”

Princess Zi Yang followed the direction of the divine light and looked over. Her brows furrowed slightly.

Over there, she saw a dazzling divine light and intense fluctuations of immortal Qi. It seemed like there was an earth-shattering battle going on.

“Maybe Brother Qin is over there!”

She said.

She felt that Brother Qin must have chased the demonic Dragon and left the lake long ago. Perhaps Brother Qin would sense the commotion over there and rush over to watch. That way, they would be able to meet up.

The disciples nodded.

The group of people quickly left.

“Heavens!”

“What’s that?”

When they got closer and saw the situation, they were all stunned.

The scene in front of them was too shocking!

A dark golden giant controlled divine lightning to battle hundreds of golden Immortals with earth-shaking momentum.

“That’s ... The immortal spirit body!”

Princess Zi Yang’s mouth was wide open, and her beautiful eyes were wide open.

She had heard of this thing before.

Didn't that mean that he was that heaven-defying monster?

And those people, weren't they the elders of her Emperor puppet sect?

Why were they all here, fighting with this monster?

"It seems that this demon has exposed his tracks here, which attracted the elders' attention. This demon has many treasures on him." A disciple said.

They watched for a while more and frowned.

Looking at this situation, it seemed that these elders of their Emperor puppet sect were not good enough! Even with over a hundred people joining forces, they still couldn't deal with that demon!

"This guy is really awesome!"

Some disciples clicked their tongues and sighed.

A single person had blocked all of the elders of his Emperor puppet sect. This level of strength was truly explosive.

"Yup!"

Princess Zi Yang exclaimed in admiration.

He was undoubtedly the number one genius in the immortal world and was probably the number one in the Golden immortal stage now. He was invincible under the celestial of the great all-embracing heaven!

Such a character was enough to go down in history, a legendary genius whose name was passed down through the ages. He was an existence that even she had to look up to.

“I wonder if Brother Qin is here?”

After a while, Princess Zi Yang turned around and looked around.

Then, she furrowed her brows and looked disappointed.

Brother Qin was nowhere to be seen.

“Maybe he’s chasing the demonic Dragon to another place!” She mumbled.

She wasn’t worried. With Brother Qin’s strength, even if he couldn’t kill that demonic Dragon, nothing would happen to him.

She was prepared to stay here for a while. When things were settled, she would look for Brother Qin and continue to complete her mission.

However, at this moment, she heard people discussing not far away.

“This Emperor puppet sect is also too useless. It’s fine if they let this kid sneak into the sect, but now their own elder is almost refined to death and still can’t be saved. Truly disgraceful!”

“Hey! In fact, you can’t blame them. Who asked them to meet such a cunning and terrifying demon!”

As she listened, her expression changed and she was a little puzzled.

Sneaking into the Thearch puppet sect?

This monster was now a disciple of her Emperor puppet sect?

She was stunned for a moment. Suddenly, her delicate body trembled, and an extremely terrifying thought flashed through her mind.
