

## The Mightiest Little Peasant Chapter 3217

The atmosphere in the quarry was extremely lively.

People from all levels squeezed to the railing, fighting to look down.

It was rare to see hundreds of raw stones cut at once.

“I don’t know which family this young master is from, but he’s so generous!”

Many people’s eyes swept toward the high platform in the middle and landed on the man in white. They were somewhat curious.

To be able to spend millions of immortal crystals at once, he must not be an ordinary person.

At this moment, the first knife had already been cut.

The raw stone was cut open like tofu, and a bright golden light bloomed from it. At the same time, there was a scorching heat. It was as if there was a sun hidden in it.

This was the great sun true gold, a rare material that had been born after absorbing a large amount of pure Yang Qi.

It was the best material to refine pure yang treasures.

“This aura ... It’s immortal level!”

“Look at this size, I’ve earned it!”

The crowd looked over and burst into an uproar.

The first pill was worth it, what a good start!

“It’s indeed at the immortal level. Judging from the patterns and color, it’s a 4000-year-old ore of excellent quality. Its initial valuation is 120000 immortal crystals!”

The old man opened the entire raw stone, revealing the great sun true gold inside.

It was the size of a millstone, and its entire body was a dazzling golden color, emitting a threatening divine light.

“Congratulations!”

He cupped his hands together and congratulated Tang Hao.

“My Lord, you’re quite lucky!”

Manager Liu stood next to Tang Hao and smiled warmly.

“Let’s continue!”

Tang Hao chuckled and waved his hand.

The old man at the bottom responded, took another raw stone, and continued to cut it.

There were both good and bad raw stones that were cut too many times. There were losses and gains. After they were done cutting, everyone calculated and realized that they had earned a lot! He earned a little more than 100000 Yuan!

The stone that was cut for 3.3 million could be sold for 3.4 million according to the market.

“This luck is a little too good!”

“Yup! You can even earn this!”

Everyone clicked their tongues in wonder.

Usually, if one cut up to a hundred stones like this, they would lose a lot of money. This was because most of the raw stones were of poor quality, and Supreme-grade ones were only a few.

“My Lord, you’re really lucky!”

Even manager Liu was surprised.

“Master, are you going to sell this great sun true gold to our quarry or keep it for yourself? if you’re going to sell it, we’ll offer you the market price.” Steward Liu said respectfully as he looked at the dazzling divine gold on the ground.

“I’ll keep it!”

Tang Hao said.

He had use for these divine metals and wanted to let the immortal spirit body devour them.

“You guys don’t have any more?” He asked.

“No!” Manager Liu laughed bitterly. “Gold and iron ore raw stones are rare to begin with, and there aren’t many people who gamble either. That’s why there’s only this much in the entire quarry.”

“What else do you have in the quarry?”

“There are a lot of them! You can try all kinds of Jade and strange stones!”

Manager Liu pointed at each floor and said.

Tang Hao glanced at it and shook his head.

He was not interested in these things.

“I heard that the items on the top floor are very expensive. One pill costs millions, even tens of millions?” He looked at the top floor and said with interest.

“Yes! Those are the best things in our entire quarry, all of them are origin core stones. We spent a lot of effort and a lot of money to collect them from all over the immortal world. Each stone is pregnant with an origin core. ”

“You know how rare an origin core is, so it’s naturally expensive. The lowest price is at least a million. What we’re betting on is the quality of the origin core and the cultivation level.”

“Our quarry has produced several heaven immortal grade origin cores in the past.”

Manager Liu said excitedly.

“Ye, why don’t we go up and take a look first?” He said with some anticipation.

Because those origin stones were expensive, ordinary people couldn’t afford to cut them at all, so they rarely opened for business. The last time someone cut origin stones was a matter of several years ago.

“Alright!”

Tang Hao nodded.

“Then, my Lord, please!”

Steward Liu was so excited that he trembled and hurriedly led the way.

He was all smiles. Just now, this person took out more than three million Yuan without even blinking his eyes. He was simply rich. It seemed that today, he could finally make a fortune for this origin core stone.

Seeing the group of people heading to the top floor, the people on each floor gradually became excited.

Many people flew out and followed.

“Are we going to cut the origin core stone?”

“It’s been many years since someone cut it! I remember the last time, that guy lost terribly. He cut a five million Yuan piece and lost a whole four million Yuan!”

“I remember, it was the prodigal son of the divine Prime Minister estate. I heard that he vomited blood at that time! That’s 4 million immortal crystals! That’s not a small number!”

The crowd discussed excitedly.

Steward Liu, who was leading the way in front, was slightly stunned when he heard this.

This group of people, don’t they know how to say something nice?

If this master was frightened and stopped cutting, would they still have the show to watch?

“My Lord! That’s a small probability. Even if you’re unlucky, you won’t lose too much. If you’re lucky, you’ll make a huge profit!” Supervisor Liu turned around and smiled at Tang Hao.

After a short while, they reached the top floor.

This floor was extremely spacious and luxuriously decorated. There were about 30 stones on the floor, each of them with a different color and aura.

Some were seven to eight Zhang tall, while others were only three meters tall. Some had craggy surfaces, some were as smooth as mirrors, and some were covered with dragon scale-like patterns.

“Master, please take a look first. There are prices on the side. Look, this one is two million Yuan and this one is three million Yuan.”

Steward Liu pointed at the stone embryos and said.

Tang Hao landed on the ground and walked up to one of the stone slabs. He examined it closely.

It was similar to the one at the entrance below. He could sense the life aura coming from it, but he couldn't tell what quality it was or what cultivation level it was.

This was because these elemental embryos were spiritual objects. They had a layer on their surface that could isolate them from the probing of divine sense and spells.

“Master, you can't see what's inside of these origin cores. You can only rely on luck. The origin core stone at our entrance was born from the largest immortal stone mine in the Saint spirit celestial dynasty and has been in the process of being nurtured for a long time. Its value can almost be confirmed, and that's why it's become the most precious treasure of our Saint spirit stone workshop!”

“And the value of these origin cores can not be determined. That's why they can be used for gambling. Whether it's good or bad, it all depends on luck!”

Said manager Liu.

Tang Hao started to pace around the floor.

His eyes swept across these stone embryos one by one.

The price of these stone embryos should be set according to the material itself. The better the stone, the higher the possibility of producing a top-grade stone embryo.

For example, his heaven and earth origin embryo was born from the ancient five-colored divine stone.

The two girls followed behind him, looking left and right, chattering and discussing non-stop.

After three full circles, Tang Hao stopped in front of a stone.

“This one!”

He turned around and looked at steward Liu who was standing at the side as he spoke indifferently.
