

## The Mightiest Little Peasant Chapter 3218

When steward Liu looked at it, he was shocked.

This was a stone embryo worth five million!

“It’s five million!”

“It’s that Golden Dragon Stone!”

Everyone exclaimed in shock.

These origin fetus stones had different names according to their appearance. This one was completely golden and covered with dragon scale-like patterns, so it was called the Golden Dragon Stone.

They had thought that this person would at most open a bid of two to three million, but they didn’t expect him to open a five million one. How rich!

“Master, are you sure you want to open this one?”

Manager Liu said excitedly.

“Open it!”

Tang Hao took out a heaven-earth bag and tossed it over.

“Al! Alright!”

After taking the bag and opening it, manager Liu's smile bloomed again.

"There's an important guest opening the origin core stone, five million for one!"

He cleared his throat and shouted.

As soon as he finished speaking, the whole building was in an uproar again. The people below rushed up one after another to watch.

Every time the origin core stone was opened, it was the liveliest time in the quarry.

"He just spent three million and now it's five million. He didn't even blink. Where did this person come from?"

"That's amazing!"

Everyone raised their heads and looked at the white-robed man with eager expressions.

Even a golden immortal old monster would rarely be so rich.

Clang! Clang!

Soon, the sound of a Gong rang out in the building. A pair of people from the quarry came up and respectfully welcomed the Golden Dragon Stone, placing it on the high platform downstairs.

In the air, flower petals were falling, creating a festive atmosphere.

“My Lord! “Let’s go down. Opening this origin core stone is different from opening a normal origin stone. This origin core is alive and has its own consciousness. Once it breaks out of the stone, it will escape, so we must be on guard and be ready to suppress it at any time. ”

“Don’t worry, you don’t have to do anything. I have many experts in the quarry. No matter how powerful the stone embryo is, it can be easily suppressed!”

Supervisor Liu led Tang Hao to the ground floor.

The four sides of the high platform had been cleared, and there were Immortals dressed in the robes of the stone workshop standing around, all of them with the cultivation base of heaven Immortals.

The person on the stage had also changed. He was also an old man, but his cultivation was higher.

He stood on the stage, looked at Tang Hao, and bowed.

Then, he slowly walked towards the birthstone.

With a shake of his sleeve, he reached out and touched the birthstone, as if to determine the position and posture of the origin core.

After a while, he stopped and pressed his palm on the birthstone, slowly circulating his celestial core power.

In all directions, everyone was staring at the birthstone, even holding their breath.

Their expressions were filled with excitement.

It was five million!

What could be more exciting than this!

“There’s some movement!”

“He’s awake! It’s about to open!”

After a short while, the fetus stone started to move, buzzing and trembling.

Then, with a few cracking sounds, cracks appeared on its surface.

As the crack expanded, a bright golden light bloomed from inside. At the same time, there was a vast and majestic aura.

“This is ...?”

The old man’s expression changed instantly. His eyes widened and he revealed a look of disbelief.

“Heavens! This aura is ...”

Everyone’s expression changed as they exclaimed in shock.

Bang!

At this moment, the entire fetus stone exploded.

A golden figure emerged from within. He raised his head and howled to the sky. A surging aura spread out, shaking the entire building.

Two beams of divine light shot out of his golden eyes and swept in all directions. With a few booming sounds, boundless divine light exploded.

The entire building shook violently again.

“It’s a late heaven immortal!”

“Heavens! Hurry up! Stop him! We must suppress it!”

The heaven Immortals standing in the ring cried out in shock and moved in unison, pressing down on the Golden figure.

Boom! Boom! Boom!

Another wave of divine light exploded.

The group of heaven Immortals was unable to suppress the Golden origin core for a while.

In all directions, even more people from the quarry poured in. Some joined the battle, some set up formations, and enveloped the entire area.

“F \* ck!”

Steward Liu stood rooted to the ground, dumbfounded as he looked at the Golden figure standing in the air!

Late-stage heaven immortal?

What kind of F \* cking luck was this! How did he manage to open an origin core of this level?

Looking at the combat power of this origin core, it was at least of the five apertures level, or even higher.

“It’s a seven-aperture, a late-stage heaven immortal origin core! Hurry up! Call more people! We can’t hold on any longer!” A heaven immortal in the middle of the battle shouted.

This sound shook the entire building.

“Seven apertures? Heavens!”

“And it’s a late heaven immortal!”

The crowd was in an uproar. They were all in disbelief.

Their eyes were red as they looked at the origin core.

The quality of an origin core was usually three apertures, four apertures, five apertures, six apertures, and seven apertures. That was the highest quality, a dream-like quality.

As for the eight or nine apertures, they were legendary.

The legendary three great origin embryos were the existences of the nine apertures. They were all divine objects born from the creation of heaven and earth!

Therefore, this seven-orifice origin core was already of the highest quality.

What's more, this was a late-stage heaven immortal, its value was simply immeasurable!

This was because an origin core of this level could possibly become a gold immortal with a little training. At that time, he would become a gold immortal expert!

And the value of a golden immortal was simply incalculable.

Five million was not even a fraction of it!

He had struck it rich!

“Evil beast, don't be so arrogant!”

With loud yells, more Immortals from the quarry poured out and worked together to suppress the origin embryo.

“My Lord! Let's quickly retreat!”

When steward Liu came back to his senses, he quickly pulled Tang Hao away.

He looked at Tang Hao with shock in his eyes.

He had just cut out so much great sun true gold and even made a small profit, which showed his extremely strong luck. Now, he had even cut out a seven-apertures late-stage heaven immortal origin core. How terrifying was his luck?

“Seven apertures, not bad!”

Tang Hao mumbled to himself as he retreated a few meters and studied the origin core.

He didn't make a move. After a while, he saw a group of Immortals from the quarry displaying their magical abilities and working hard to suppress the origin core, tying it firmly with an immortal rope.

“Congratulations!”

They heaved a sigh of relief, then turned to Tang Hao and congratulated him.

Their expressions were filled with admiration and envy.

This origin core was ranked second in the history of his quarry. This person's luck was really good!

“Master, do you want to directly erase its consciousness or leave it there first?”

Said manager Liu.

“Wipe it!” Tang Hao said.

It was useless to keep its consciousness, anyway, it was used to refine an avatar.

“Alright!”

Steward Liu responded. He waited for the heaven Immortals to wipe away the consciousness of the origin core before sending it over.
