

The Mightiest Little Peasant Chapter 3219

“That’s amazing!”

“What a great profit!”

The quarry was in an uproar.

Everyone had a fervent look on their faces as they excitedly discussed.

They looked at the Golden origin core with envy, jealousy, and hatred.

“Hey! What’s there to be envious of? they opened it with five million Yuan. Do you have five million Yuan?” Some people laughed at themselves.

Tang Hao took a few steps forward and examined the origin core.

“It’s almost the same as the origin core that Fang Jinghong created!”

He was a little surprised.

Fang Jinghong’s origin core was man-made, an imitation of the immortal spirit origin core, one of the three great origin cores, while this one was born with it. There was not much difference in quality between the two, both at the level of seven apertures.

“Seven apertures is not bad!”

He muttered to himself.

It would be amazing if he could mass-produce seven-apertures elemental embryos.

“Chunxuan, just accept it! Refine an avatar!”

Tang Hao pondered for a moment, then turned to look at Ji chunxuan.

A seven-orifice vital embryo was not of much use to him, so he might as well give it to the two girls.

This one was given to Chun Xuan, so Fang Jinghong’s artificial vital embryo would naturally be given to Qiu Ci.

“Young master, this ...”

Ji chunxuan was stunned.

From the reactions of the people around her, she could tell how precious this origin core was, yet the young master had actually thrown it to her so casually.

“Take it!”

Tang Hao said indifferently.

“Yes! Young master!”

Ji chunxuan could only nod and take a step forward to keep the origin core.

Steward Liu, the heaven Immortals, and everyone else in the building were all stunned.

They could not believe their eyes and ears.

This origin core was a late-stage heaven immortal. Due to its high quality, it was much easier to cultivate it. It would soon reach the Golden immortal stage. In their eyes, the value of this origin core was equivalent to a golden immortal expert.

And this person had actually thrown such a precious thing to someone else.

From her tone, she seemed to be a maid!

Oh my God!

Who was this person?

“Oh my God!”

Steward Liu was also stunned, and his heart was in turmoil.

He had never seen such a rich person!

Even the royal family and golden Immortals were not so generous!

“This is too F * cking awesome!”

He was so excited that his entire body trembled.

He knew that this person’s status must be extremely high. If he wasn’t a disciple of the zenith heaven, then he must be an extremely powerful old monster of the Golden immortal realm!

“My Lord! Do you still want to bet?”

He bent down and said respectfully.

“Let’s wait and see!”

Tang Hao said.

He realized that betting on origin stones was quite interesting. Even if he opened five or six apertures, he could use it to refine his clone.

“Right, I can see if there are any immortal stones suitable for refining man-made elemental embryos. I can buy some and study them.” He pondered in his heart.

He had always been interested in the other party’s artificial elemental embryo.

“My Lord, is it still the origin core stone?”

Said manager Liu.

Tang Hao nodded. "Let's cut a few more pieces!"

"Alright!"

"Let's go!" Manager Liu shouted excitedly as he led Tang Hao to the top floor.

Everyone from all four sides immediately followed, and the situation was extremely lively.

"This piece, and this piece, this piece, I want all three pieces!"

He walked around the top floor and randomly picked three pieces.

One was a silver immortal stone with a smooth surface like a mirror, one was completely black and made of black jade, and the last one was ten meters tall and completely green.

"This is a water mirror stone, three million!"

"This piece is called Black Dragon, and it's worth four million!"

"The last piece is called the green Lotus, and it's also worth four million!"

Steward Liu said one by one.

"Three origin core stones, a total of 11 million!"

He shouted again and called for people to move the three origin core stones to the high platform below.

The old man cut the green Lotus stone first after consulting Tang Hao.

When the origin fetus stone exploded, a green figure appeared. It was extremely tall, like a giant ape.

“Five apertures! Late earth immortal realm!”

The old man instantly identified the quality and shouted.

There was another clamor all around, and it was somewhat boiling.

Five apertures was already a pretty good quality, and his cultivation was also high. He had profited from all this.

Of course, it could not be compared to the one just now.

“Fellow Daoist, you’re really lucky!”

The old man exclaimed as he looked at Tang Hao.

Being lucky once was nothing, but being lucky every time was the most amazing.

This time, the origin core was quickly suppressed. Its consciousness was wiped away, and it was delivered to Tang Hao.

Tang Hao reached out and took it.

He didn't think much of the five acupores grade, and he didn't want to give it to the two girls. He was going to give it to the fair sky sect.

On the stage, the old man continued.

The next one was the water mirror stone. After opening it, his cultivation was still in the late-stage earth immortal realm, but its quality had dropped again. However, it was still worth it.

In the last piece, Black Dragon had opened another five apertures, but his cultivation was only in the mid-stage earth immortal realm.

Tang Hao was quite satisfied with the result. At least he did not lose anything.

“Do you have high-quality and aged immortal stones in your quarry? they must be from top-grade mineral veins or some naturally-born psychic stones?”

Tang Hao asked manager Liu after paying more than ten million immortal crystals.

“There are! Of course I do!”

Manager Liu nodded.

The Holy Spirit quarry could be said to be the place with the most rare stones and ores in the entire immortal world. How could it not have any?

“Then bring them all over. I'll take as much as you have, regardless of the price!”

Tang Hao said.

“Alright!”

Steward Liu clapped his hands excitedly and quickly called a few people over, giving them a few instructions.

Very quickly, the few of them went to prepare.

Tang Hao sat down and waited.

After a while, the atmosphere in the quarry calmed down and the crowd began to disperse. However, there was still a touch of excitement on their faces.

After a while, those people came back with bags of immortal stones and presented them.

Tang Hao opened the boxes and was satisfied with them.

“I’m taking them all!”

Tang Hao accepted all of them and paid for them.

“My Lord, do you want to continue watching?”

Manager Liu asked.

Tang Hao was about to reply when a group of people walked in from the entrance of the stone workshop. In the middle was a young man with a feminine face. He was wearing a golden immortal robe embroidered with Dragons, which was exactly the same as the third Prince 's.

“Another Prince!”

Tang Hao thought to himself.

After entering, the group of people looked around. Then, one of them raised his hand and pointed at him. He then whispered a few words to the Prince.

The Prince immediately looked over.

Then, he walked over.

“Fellow Daoist, I heard that you’ve just opened a top-grade seven-orifice nascent embryo. I wonder if you’d be willing to part with it and give it to me. Don’t worry, I’ll definitely give you a satisfactory compensation!”

The Prince smiled and cupped his hands.

“Greetings, Your Highness!”

Steward Liu and the others bowed in unison and greeted him respectfully.

Everyone in the building also bowed and paid their respects.

Tang Hao put his hands behind his back and sized up the eighth prince. He shook his head and said, "I'm sorry, I'm not selling!"

Hearing this, the eighth Prince's face changed.

The faces of the group of people behind him darkened.
