

## The Mightiest Little Peasant Chapter 3224

“What?”

Tantai Mingyue was stunned.

Her eyes widened as she looked at Tang Hao in disbelief.

“I said, I’ll help you fight for the Saint position. How about it, are you interested?”

Tang Hao smiled at her.

“Hahaha! You really know how to joke! What am I fighting for the Saint position for! Besides, you won’t be able to win by yourself!” Tantai Mingyue laughed, thinking that he was just joking.

“I’m serious!”

Tang Hao put down his teacup and said slowly.

Tantai Mingyue was speechless.

Then, he laughed bitterly. “Let’s not talk about whether I’m interested or not. It’s impossible to do it. It’s not that easy to fight for the saint’s position. My royal brothers are all scheming and have many helpers. What do I have to fight with them?”

“Are you doing this on purpose to take revenge on me for laughing at you?”

Then, she pouted and mumbled softly.

“Am I that petty?”

Tang Hao chuckled.

“There are!”

She nodded heavily.

Tang Hao laughed again. This girl was so naïve that she was a little cute.

“However, it’s not like I can’t consider this matter. If you can agree to stay in the Holy Spirit dynasty for a while longer, I’ll go and try. It’s fine even if I fail, I’ll just treat it as a fun thing to do.”

Suddenly, she rolled her eyes and smiled slyly.

“Alright!”

Tang Hao was surprised, but he quickly agreed.

He had been worried about how to persuade her, but now, he didn’t need to.

He really wanted to help this little girl become a saint.

Although they had only known each other for a short time, he could see that she was very pure and kind, unlike the third Prince, eighth prince and the others who were all overbearing and arrogant, which made him quite disgusted.

He had his own reasons for doing this.

The Saint spirit dynasty was huge and was known as the number one dynasty in the immortal world. It had a lot of resources and people, especially all kinds of immortal stone mines, which he needed a lot of top-grade immortal stones.

He'd bought quite a few from the workshop, but he knew that the royal family had better and more.

In short, there were many benefits in helping her rise to power.

"Then it's settled. You'll stay here with me. When the time comes, you'll help me fight for the Saint position." Tantai Mingyue laughed, "in the past, I had never thought that I would fight for the Saint position. Now that I think about it, it seems rather interesting."

She tilted her head and had a strange temperament.

"It must be very interesting!"

Ji Qiuci said with a smile.

She also had an eccentric personality, and the two of them got together.

"All right, tell me about the rules of your Saint dynasty. Also, tell me about the strength of your royal brothers, who are their helpers, and what trump cards they have."

Tang Hao looked at her and said sternly.

“The rules are quite simple. There will be a few tests, and whoever completes the most will be able to obtain the Saint position and be conferred the title of the next Saint Emperor.” Tantai Mingyue replied, “as for Royal brother’s strength, how would I know!”

“You don’t know at all?”

Tang Hao was stunned.

Tantai Mingyue only shook her head. In the past, she only knew how to eat, drink and play. Who would have thought that one day, she would have to fight for the Saint position.

“Then ... Do you have any experts by your side? Gold immortal level?”

Tang Hao asked again.

“No, I didn’t! How could I have it! The most powerful people in my Palace are only a few celestial Immortals. They are the guards of the palace, not my men.” Tantai Mingyue shook her head even faster.

Tang Hao was stunned when he heard that.

F \* ck! That was too sloppy!

This girl was simply broke! And he said he didn’t know anything!

How could they fight for this Saint position?

He knew that the test would not only test one's combat power, but many other things as well. Therefore, it would be useless to rely on him alone.

"Aiya, you don't have to be so serious. Since we can't win, we'll just play casually!"

Tantai Mingyue laughed casually.

She didn't want to win at all, because she wasn't stupid. She knew that she couldn't win at all. She just wanted to keep this person and stay for a while longer!

Tang Hao furrowed his brows and muttered to himself.

There was no reason for him to be so casual about what he wanted to do. Since he had decided to push her to the top, he must do it.

"I don't know much about the Saint spirit dynasty, and it's not that easy to find out. Maybe I can buy some information from the sky seeking Pavilion."

"I can also get a lot of helpers ..."

"There's also the origin core. Fang Jinghong's method isn't difficult. As long as I have enough materials, with my current cultivation, I can easily create a batch of high-quality man-made origin cores and cultivate thousands of clones, which will become an important combat force."

He had already begun to think of various methods.

After pondering for a while, he calmed down.

He was really determined to get this Saint position!

“Come, the dishes are here, eat!”

Tantai Mingyue greeted him warmly from the side, but she was completely unaware of his thoughts.

“As the princess, you should be able to enter the palace’s Treasury, right?”

Tang Hao asked.

“Sure! What do you want? My father dotes on me a lot, so it’s not a problem for me to get some treasures!” Tantai Mingyue said.

“Didn’t you say that your Saint spirit dynasty is very good at cultivating the nascent embryo? there should be some elixirs or secret techniques that can quickly increase the cultivation of the nascent embryo. I need these things, and I need a large amount of them. ”

Tang Hao said.

“There are! We call it the Saint spirit pill, and it’s made from something called the Golden marrow of the Saint spirit. It’s produced in our largest immortal stone mine, the mine that gave birth to our Saint. How many do you want?”

Tantai Mingyue said.

"I'll take as many as you have, the more the better." Tang Hao said.

"Don't you only have two origin cores? They're all at the late heaven immortal realm or even the peak heaven immortal realm, so they don't need a few pills!"

Tantai Mingyue was surprised."That elixir has a very strong effect. For example, your five elements origin core is at the peak. About three pills will be enough to break through the shackles and advance to the Golden immortal realm. As for the seven-orifice one, I think six or seven pills will be enough."

"I want 10000!"

Tang Hao said seriously.

"What? Ten thousand?"

Her eyes widened in shock.

"You ... How many origin cores are you trying to cultivate?" She said, clicking her tongue.

"A lot of them!"

Tang Hao smiled."Go ahead and ask for more. The more, the better. Do you understand?"

"Alright! I'll try my best!"

She said hesitantly.

10,000 pills was too much. She wasn't confident. After all, these pills were very precious. Even with her status, it would be difficult to get so many.

"I already have a large amount of spiritual essence. As long as I have a few thousand more of these pills, I'll be confident!"

Tang Hao said to himself.

"Next, I should go to the heaven seeking Pavilion, the Holy beast Palace, and Nantian city! Oh right, there's also the Emperor puppet sect. I'd like to meet fellow Daoist Zi Yang! Her Taiyi celestial dynasty is also a top-notch celestial dynasty!"

After pondering for a while, he had a plan.

"You guys eat first. I'm going out for a while. I'll be back soon!"

He got up, bade farewell, and quickly left.
