

The Mightiest Little Peasant Chapter 3228

“Sister nine, I heard you’re going to participate too?”

“This is the helper you found? Just this one? Hahaha! You’re too funny! What are you thinking!”

As soon as they entered the Imperial Palace, they heard laughter coming from inside.

The princes in Golden Dragon robes looked over and laughed loudly.

When they heard third brother say that ninth sister was also participating in the fight for the throne, they thought he was joking. They didn’t expect it to be true!

This was truly a joke!

She was a Princess, and in the entire history of the Saint dynasty, there had never been a Princess who had participated in the fight for the Saint position. This was the first time!

Moreover, she was still young and her cultivation level was weak. She had no foundation at all. Before this, she didn’t even have a single golden immortal behind her.

Now, he had found a golden immortal from God knows where and dared to participate in the fight for the throne.

Did she dare to be any more childish?

Tantai Mingyue’s face turned red.

“Can’t I just try?” She mumbled indignantly, “father has already agreed. What can you do about it?!”

“Alright, alright, we don’t care!”

The princes laughed and said nothing more.

They glanced at Tang Hao a few times, then looked away and stopped paying attention.

This ninth Royal sister was just here to have fun. She was not a threat at all and was not worth paying attention to.

Tang Hao looked at them and recognized them.

He had already memorized all the information about these princes.

“Let’s go this way!”

Tantai Mingyue brought him to the side of the hall and sat down.

After waiting for an hour, a group of people walked in from the side of the hall. One of them was holding a golden box.

In an instant, the gazes of all the princes in the hall were focused on the box.

In this box was the question for the first test!

“Your Highnesses have waited for a long time!”

This group of people walked over and stopped in front of them.

“His Majesty the sage Emperor has specially sent this lowly official to announce the examination questions. I ask that your Highnesses listen carefully.”

The man in the middle said.

As he spoke, he lifted his hand and opened the box. A scroll slowly flew out from inside.

He held it and opened it.

“The first question, expand the territory!”

“The first choice to become a saint Emperor is to have outstanding achievements, and the fastest way to accumulate these achievements is to expand our territory. Our Saint spirit dynasty has been established for nearly ten thousand years, and through the continuous expansion and improvement of our ancestors, we have the vast territory we have today.”

“All of you need to expand the celestial dynasty’s territory. In the end, your merits will be calculated according to the area of the territory. The person with the highest merit will be the winner of the first round!”

The man read out slowly.

The princes’ expressions changed.

“We’re finished! It’s finished! This is the most difficult question!”

Tantai Mingyue mumbled softly.

Next to her, Tang Hao furrowed his brows.

Indeed, this was the most difficult.

Because the celestial dynasty had developed to this point, all the land that could be developed had been opened, and all the forces that could be swallowed had been swallowed. All that was left were tough bones. It had been thousands of years, and the territory of the Saint spirit dynasty had not changed at all.

Now, to let these princes expand their territory, wasn’t this making things difficult for them?

“Your Highnesses, did you hear me clearly?”

That person closed the scroll and laughed.

“I heard you clearly!”

The princes all responded respectfully.

“Then hurry up and get ready! It will last for a month. At that time, His Majesty Sage Emperor will personally make the decision. ” That person laughed.

“Let’s go!”

The group of princes stood up and left with grave expressions.

“Oh! His Majesty asked me to pass you a message, telling you to take it easy and make a scene as you please, don’t take any risks. ” The person called out to tantai Mingyue as she stood up.

“I know!”

Tantai Mingyue nodded her head.

“He’s my father’s man. He’s in charge of everything in Holy Emperor Palace.”

She said to Tang Hao after they left the hall.

“Sigh, I didn’t expect that the first question would be so difficult. I think we should take a break! With our little strength, what territory can we open!” Then, her face fell.

“That’s not for sure!”

Tang Hao chuckled. “You can stay in bright moon Palace and continue eating and sleeping! I’ll do the rest!”

Back at the bright moon Palace, Tang Hao sat down and took out a map.

It was the map of the continent he was in, and the sacred Spirit dynasty occupied more than half of it.

There was a circle of forces around the Saint spirit dynasty, some of which were celestial dynasties, some were sects, and some were clans.

These forces were all quite powerful, and even the weakest had several golden Immortals.

A golden immortal was already a figure at the level of a magnate. One of them was enough to make people fear him. When several golden Immortals gathered together, even the powerful shengling dynasty would be afraid of them.

This was because golden Immortals were almost unkillable. First of all, they were very difficult to capture. Secondly, they were also very difficult to refine to death.

Under such circumstances, offending one or even several golden Immortals was undoubtedly an extremely troublesome matter.

Therefore, the territory of the Saint spirit dynasty hadn't been touched all these years.

“Three, three, five! This one's a little powerful, nine!”

Tang Hao looked at the factions one by one.

The territories of these forces were related to the number of golden Immortals. The more golden Immortals there were, the larger the territory. One of the territories was quite large, and the name sounded a little familiar.

“Nine Saint mountain? You seem to have heard of it before. Oh, right, wasn't it one of the forces I met in Nantian city? I even killed one of their celestial Immortals!”

Tang Hao quickly remembered.

In Nantian city, many forces had left people behind to keep an eye on him, and nine Saint mountain was one of them.

“What a coincidence!”

He squinted his eyes, and a cold glint appeared in them.

Since they were enemies and had encountered such an opportunity, why not take the opportunity to destroy them!

“Nine golden Immortals. If I can refine them, it will be a huge harvest!”

He muttered to himself.

“It’s him! Let’s destroy the nine Saint mountain first!”

After pondering for a moment, he reached out and tapped on the map.

He would destroy the nine Saint mountain first and then destroy a few other forces.

“It seems like I have to go to the heaven seeking Pavilion again!”

After a while, he got up and left the bright moon Palace.

It wasn't an easy task to destroy the nine Saint mountain. His target was nine golden Immortals. If they ran, he might not be able to catch them. Therefore, he had to find out more about the nine Saint mountain before planning.

When he arrived at the heaven seeking Pavilion, before he could even speak, the shopkeeper had already presented him with detailed information about all the forces in the surrounding area.

“Fixed price, one million!”

Tang Hao was surprised at first, then he came to a realization.

He must have known the test's topic long ago and was sure that he would come to buy information, so he had prepared everything.

Tang Hao left the Imperial City with the information.

As he rushed to the territory of the nine Saint mountain, he read the information and thought of a plan.

Half a day later, he came up with a detailed plan. At the same time, he had already left the territory of the Saint spirit dynasty and entered the territory of the nine-Saint mountain.
