

## The Mightiest Little Peasant Chapter 3244

“The sky billow state is not bad. It has many immortal veins and various mineral veins.”

“However, there aren’t many people. Originally, there were only a dozen small countries with a population of about one billion.”

On the way, Dragon-slam Daoist explained the situation in the tianlan Prefecture.

This piece of land was Dragon Elephant cave’s territory.

“It’s only a billion!”

Tang Hao furrowed his brows. It was only a state, but the territory was huge. So few people were indeed a little too few.

“It’s about the same for the other states. They all have this number. However, the other princes have connections and can directly move people from all over the celestial dynasty. They will surpass us very soon.” Daoist Qingcheng said worriedly.

In the final assessment, population was a very important factor.

“Moreover, I’m afraid that the other princes will make a move on us. After all, we’re the number one now and the target of public criticism!” Daoist Qingcheng said.

Tang Hao nodded.

He had also considered that there were many methods that could be used in this round. For example, snatching the other party’s population, poisoning, or ordering some ferocious beasts to cause chaos

could all achieve the goal of weakening the other party.

And as the number one, there would be more than one family that would attack them.

In this round, not only did he have to develop his territory, but he also had to guard against the other princes' dirty tricks. It was indeed much more troublesome than the previous two rounds.

"This tianlan Prefecture is still a bit too big. We only have so few people, we can't defend against it! Unless we can gather everyone together." Dragon-slam said with a frown.

"Yup!"

The other old monsters also had vexed expressions.

The Crown Prince and the third Prince each had sixty to seventy golden Immortals supporting them. The eighth prince was a little worse off, having more than forty golden Immortals. The other princes, no matter how bad they were, had at least a dozen golden Immortals supporting them.

If these people were to break into the tianlan Prefecture at the same time and cause trouble, they wouldn't be able to stop them.

"You don't have to worry about that." Tang Hao smiled.

He really did not lack people. Previously, the sage Emperor had given tantai Mingyue 4000 Sage Spirit pills. He had also added a little spiritual essence to raise all of his origin embryos to the Golden immortal stage.

Three thousand golden immortal avatars were enough.

Although these clones were no match for him in a one-on-one battle, they had the advantage in numbers. If they swarmed him, even the Golden Immortals would not be able to stop them.

“This Sage-Emperor is quite a good friend!”

He muttered softly.

These 4,000 Saint spirit pills were probably the last bit of wealth that the Saint spirit dynasty had accumulated over the years, and it just so happened that he’d emptied them all out.

Looking at the map in front of him, he pondered for a moment and said, “How many Saint spirit dynasty immortal cities are there in the tianlan Prefecture?”

“There’s only one. It’s erected on the original Mountain Gate of my Dragon Elephant Cave. That’s the place where immortal veins gather. It’s a blessed land.”

Dragon-slam Daoist said, “right now, that’s where the state capital of the tianlan state is located.”

“The other small countries also have some cities, but their grades are not high, and they are not big enough.”

“Alright, we’ll build another eight immortal cities and gather the people near them. This will make it easier to defend. We’ll also build teleportation arrays in the cities to connect with each other.” Tang Hao said.

“Eight more?”

“We still need a teleportation formation?”

When the seven people heard this, they were all speechless.

This was too big of a deal!

To build an Immortal City, one would first need to spend a lot of gold and iron, and then a lot of energy. Therefore, the Saint spirit dynasty had only built one.

“I’ll do this. As for the migration, I’ll leave it to you.” Tang Hao said.

“Alright!”

The seven of them were stunned for a moment before they realized that the person in front of them was a God of crafts. It was nothing to refine a few immortal cities.

“We have the city, but where are the people?”

Daoist Qingcheng asked in confusion.

If he were to create eight immortal cities, in addition to the one in the tianlan prefecture capital, that would be nine immortal cities. He would need someone to defend them, right?

Furthermore, a golden immortal was far from enough.

“You don’t have to worry about this, I have my own way!” Tang Hao said.

The seven of them nodded and stopped asking.

Since this person had already considered this, they had nothing to worry about.

“An Immortal City?”

Tang Hao immediately began to think about how he should build the eight immortal cities.

Although he had never refined an Immortal City before, he understood a lot about it. In principle, it was similar to an immortal boat. As long as the size and structure were slightly modified, it would be fine.

Soon, he had a general idea.

“I’m still short of materials. Looks like I’ll have to go to the heaven seeking Pavilion again!”

He had quite a lot of gold and iron immortal materials, which he had taken from those old demons, but their grades were too high and there were too many varieties. They weren’t suitable for building an Immortal City.

To build something as huge as an Immortal City, a large amount of materials were needed, and the grade did not need to be very high.

After pondering for a while, he took out a jade talisman and sent it to the heaven seeking Pavilion in the Saint spirit royal capital.

Then, he began to design the refinement map of the immortal City.

“We’ve arrived at the tianlan Prefecture!”

An hour later, they arrived at their destination.

The Saint spirit dynasty’s officials and troops had been stationed in the immortal City for a long time, and they were now under their management.

Daoist Qingcheng and the rest got busy, counting the population and preparing for the migration.

Tang Hao, on the other hand, was engrossed in designing the blueprint.

When the materials from the heaven seeking Pavilion arrived, he would start to make it.

At this time, the princes from the other provinces had also arrived in their respective provinces and started to move.

Rui Lin Prefecture, the prefecture capital Immortal City.

The third Prince sat in the main hall of the state capital. On the table in front of him, there were stacks of scrolls.

These scrolls, recorded the various aspects of the Rui Lin Prefecture.

“Hmph! I’d like to see how that old man is going to compete with me in this round!”

The third Prince raised his head and looked in the direction of the tianlan Prefecture.

In the first two rounds, he had suffered a crushing defeat.

However, this round was testing on something completely different. He did not believe that the old man would be able to be ahead of him again.

“Don’t worry, Your Highness. This round, the ninth Prince’s side will definitely lose miserably. Right now, we are not the only ones watching their tianlan Prefecture, the other princes are also watching. No one will let them take the first place again.”

“The current tianlan Prefecture is surrounded by wolves. It’s impossible to defend it with just a few golden Immortals. I think they’ll be at the bottom this round. The position of Saint will no longer belong to ninth Highness.” Jiang Chen said.

Many people in the hall laughed.

“Hahaha!”

When the third Prince heard this, he could not help but laugh.

“Old man, old man, you think you’ve won? What a pity! You still can’t stop this Prince!”

He sneered to himself.

Although that old man had helped sister nine get first place twice, as long as he was last in this round and he got first place, the position of Saint would be his.

“You guys should develop Well first. In a few days, we’ll go to the tianlan state and take good care of them! When the time comes, it’s best to inform the Imperial Brothers and let them go together to give ninth sister a big surprise. ”

The third Prince laughed out loud as he spoke, his face filled with joy.
