

The Mightiest Little Peasant Chapter 3329

“Another rank-9 has been broken! It’s the Taishang Daoist!”

“This time, it’s celestial venerable Tang’s turn!”

Over the past few days, such exclamations had been heard all over the medicine God mountain.

In the rank-9 area, every half a day, there would be a burst of light. It was either celestial venerable Tang, the Taishang Daoist, or the Buddha of origin. Occasionally, there were other old monsters, but the frequency was relatively low.

The tests in the rank-9 area were basically all passed by the first three people.

Especially celestial venerable Tang, who had broken through the most, followed by the Taishang Taoist, who was only one test away, and then the Buddha of origin.

“Celestial venerable Tang is the youngest. Even if he’s tied with the other two, he’s still ahead of them, not to mention that he’s leading by quite a bit now.”

“Yup! Celestial venerable Tang’s alchemy Dao is without a doubt the best below the immortal King realm!”

Everyone was shocked by the result.

Of course, they knew that celestial venerable Tang’s alchemy skills were profound, but his current opponent was the zenith heaven priest, number one on the zenith heaven roll!

It was hard to believe that a person from the ancient era had lived for so many years and accumulated so many years of alchemy knowledge had been surpassed by a young man who was just over a hundred years old.

“No more!”

After another test was passed, Tang Hao stood up and looked around. He realized that all the tests in the rank-9 area had been passed.

“Virgin brother, do you keep your word?”

He looked at the primordial chaos boy and said with a smile.

“Fuck!”

Hearing this, the primordial chaos boy’s mind was in a mess. The cauldron in front of him shook and exploded.

“Did I say anything? There’s nothing here, so don’t talk nonsense!” He said angrily, his face full of shame.

This time, he had lost all his face again!

He was afraid that Tang Hao would continue to pursue the matter, so he scurried out of the room.

“You little brat, just you wait. When I finish refining the treasure, I’ll suppress you!”

From afar, his angry roar could be heard.

“This guy ...”

Tang Hao chuckled as he watched him leave.

When he looked further down, the rank-8 area and the rank-7 area were basically all gone.

“It’s almost time!”

He mumbled to himself and started to search for the nation protecting Saint and the others.

He had already gained a lot from this trip. In the rank-7 area, he had passed more than twenty tests, which meant that he had gained more than eight hundred stars. In the rank-9 area, he had passed ten tests, which meant that he had gained five thousand stars.

In total, he had gained more than 6000 stars in this trip.

At this moment, he had already entered the realm of 20000 stars.

This speed was already very fast.

He found three people in the rank-6 area.

The three of them were still trying to pass the test, so he began to wait.

“Congratulations, fellow Daoist! The harvest this time is not small!”

After a while, the Saint passed the test. He stood up and laughed when he saw Tang Hao.

After a short while, the other two fellow Daoists also stood up.

The four of them chatted and laughed as they flew out of the mountain.

After leaving the area covered by the divine light, the nation-protecting Saint was about to take out his immortal boat.

However, Tang Hao's expression suddenly changed. He seemed to have noticed something.

Suddenly, a ripple appeared in the air beside him. A golden light rushed out with a terrifying aura.

One could vaguely see that it was a brush!

There were mountains, rivers, Suns, and moons on the brush, as well as the illusionary images of all kinds of strange beasts. It was the Emperor brush!

The clan protection Emperor weapon of the Xuanyuan clan!

“Be careful, my fellow cultivator!”

The nation protecting Saint and the others also noticed it. They cried out in shock, their expressions shocked.

They were about to rescue him.

However, at this moment, there were also ripples on their side. A few divine lights were shot out. Their auras were slightly weaker. They were not Emperor weapons, but they could not be underestimated.

“The Xuanyuan clan?”

Tang Hao snorted coldly in his heart. The gods Palace, ten thousand spells divine mountain, and the sea-calming divine Pearl in his body shook at the same time, creating circles of ripples. They pressed forward, trying to stop this group of renhuang divine artifacts!

Whoosh!

At this moment, another beam of divine light pierced through the void and attacked.

It was a black light, and its appearance could not be seen clearly. One could only sense that it was emitting a shocking evil Qi.

“What is this?”

Tang Hao was shocked.

He had never seen such a powerful evil weapon!

In terms of aura, it didn't lose to the Emperor brush at all. It was obviously an ancient Emperor artifact!

“Be careful, my friend. It's the underworld God spear!”

The nation-protecting Saint summoned a treasure to block the divine light in front of him and shouted at Tang Hao.

At this moment, the black light had already pierced through Tang Hao's defense and was right in front of him.

Behind the two Emperor weapons, it was obvious that they were being activated by the old zenith heaven cultivators. It was already difficult for them to block the Emperor brush, so they naturally had no way of blocking the underworld God spear.

"Not good!"

Tang Hao's expression changed. He flicked his sleeve, and the blue deathtrap sword flew out.

He grabbed the sword and slashed.

Clang!

The sound of metal clashing rang out.

Then, he watched in shock as the celestial King weapon, the blue deathtrap sword, was broken by the black light.

At this time, he finally saw the appearance of the black light. It was a completely black bone spear with golden and extremely strange talismans engraved on it. It was not a celestial talisman that he had ever seen.

The bone spear was shrouded in a shocking evil Qi.

After shattering the blue deathtrap sword, the bone spear continued to attack him, heading straight for his face.

In the nick of time, Tang Hao's mind flickered. The sea calming Pearl flew out and hovered in front of him, blocking the attack.

Clang!

There was another loud bang.

Even though he managed to block it, the unparalleled force exploded, causing him to groan and fly back.

Without the suppression of the sea-calming divine Pearl, the Emperor brush that had been blocked began to move. With a stroke, it blasted down a beam of divine light.

Tang Hao hastily blocked it, but his body shook again as he was sent flying.

"Fellow Daoist!"

The nation protecting Saint, tantai Feiyun and the old sage Emperor's expressions changed as they cried out.

However, at this moment, they were also tied down and had no time to spare.

"Look, that's the Emperor brush! The Xuanyuan clan is attacking celestial venerable Tang!"

“That black spear is the underworld God spear, right? It’s said that an ancient demon God made it from the bones of a powerful expert of the same clan after killing him. The runes on it are the ancient runes of the demon God clan and are extremely powerful. ”

“It seems like the old monster of the Xuanyuan clan and heavenly venerate Styx River have made their move!”

At this moment, everyone on the medicine God mountain noticed this and looked over.

They were all extremely shocked.

Those were two clan and sect guarding Emperor artifacts! It was one of the most powerful treasures in the immortal world!

The people who activated these two treasures were the top ten people on the zenith heaven roll!

“Whoosh!”

With two air-piercing sounds, the two Emperor weapons, the dark god spear and the Emperor brush, attacked again.

Tang Hao stopped and gritted his teeth. There was a loud boom, and the aura around him exploded.

The gods Palace and ten thousand laws divine mountain flew out one after another.

He also activated the sea quelling Pearl. The three Supreme treasures rushed forward together to meet the two Emperor weapons.
