

## The Mightiest Little Peasant Chapter 3333

Whoosh! Whoosh! Whoosh!

Black light kept appearing around Tang Hao's body.

Very quickly, the number exceeded ten million, reaching the hundred million level!

Then, it broke through one billion!

Tang Hao knew very well that no matter how he refined it, the grade of the materials and his own cultivation would be limited. No matter how similar the spear he refined was, its power would never be comparable to the real underworld God spear.

Since the quality wasn't good, he would win with quantity.

He was well aware of this.

Therefore, in the past five months, he had been refining crazily. In the end, he had made more than 1.2 billion low-quality versions of the underworld God spear.

A single one of them was naturally not powerful, but when tens of millions or even hundreds of millions of them gathered together, the power that erupted would be very impressive.

“Go!”

He stepped into the sky, and the black light around him gathered and turned into a huge divine spear.

Countless golden talismans surrounded the spear, and the divine light they emitted illuminated the world.

Boom! Boom! Boom!

The divine spear struck forward and collided with the divine light.

Heaven and earth shook violently.

The void in this area seemed to be about to collapse, and black light kept flashing.

There were also rings of ripples that madly spread out, easily shaking everything in the way into nothingness.

“He blocked it?”

“What’s with these underworld God Spears? Why are there so many of them?”

Shocked exclamations rose and fell from all directions.

Everyone’s mind was extremely shocked.

That brat actually blocked their joint attack with his own strength!

This was too unbelievable!

It was too terrifying!

Where did those treasures that were similar to the underworld God spear come from? how could they be so powerful?

“This brat ... He refined the underworld God spear into a one-time use treasure. It contains divine lightning and poison. Moreover, the aura of the underworld God spear can be combined into one and explode with even more shocking power!”

“Hiss! How could this kid be so monstrous?”

Ancestor Styx River was the most shocked.

This was because he could clearly see the principles behind the underworld God Spears. He could also understand what this kid had done!

He had comprehended the talismans of the ancient fiendcelestials, mastered them, and used them to create hundreds of millions of treasures ...

This kid only used a short five months to finish all of this!

“Old netherworld River, try my treasure!”

Just as he was in shock, a loud shout exploded.

The torrent formed by the countless divine Spears gushed toward the void where he was.

“Not good!”

Shocked, ancestor Styx River hurriedly called back his underworld God spear and blocked the attack.

Ah!

Then, he cried out in pain and his body trembled.

When the torrents collided with him, they exploded, causing his underworld God spear to tremble.

Although his cultivation was high and the underworld God spear was a Supreme Emperor weapon, he couldn't stand up to his opponent's many treasures, all of which were single-use.

“Don't you have more people? I'd like to see if you have more people or if I have more treasures!”

“Die!” Tang Hao shouted. He manically activated the replica underworld God spear and charged forward.

Boom! Boom! Boom!

The underworld God Spears kept exploding, and each one exploded with a terrifying aura.

“I can't take it anymore, pfft, pfft, pfft!”

With a wail, ancestor Styx River trembled. Finally, he couldn't hold on any longer. He spat out a mouthful of immortal blood and fell backward.

Without the underworld God Spear's protection, the torrent surged over and smashed the spatial gap he was in into pieces.

"Let's go!"

"Let's go!" Ancestor Styx River shouted and put away the underworld God spear. He tore open the void and fled with the other two.

"The people of the netherworld River Cult ... Ran away?"

"Ancestor Styx River vomited blood?"

Everyone was stunned again.

None of them could believe their eyes. So many of them had besieged one person, but they were constantly blocked. Instead, one of them had been beaten away.

Even a high-realm old monster like ancestor Styx River had to flee and spit out blood.

"This treasure ... Is too terrifying!"

"We've blown up so many, but there are still so many left!"

When they came back to their senses and looked at the black torrent, they felt their scalps go numb.

They had already witnessed this kid's monstrous craftsmanship skills in the gods Palace. They thought that was the peak and unsurpassable. They didn't expect that this kid would create something even more terrifying.

Moreover, they could clearly see that it was an imitation of the underworld God spear of the underworld River Cult.

Although these were one-time use items, there were too many of them. Their deterrent force and destructive power were above that of the gods Palace!

"He ran pretty fast. He only vomited a mouthful of blood. That's not enough!"

"Let's go!" Tang Hao shouted. He looked around and glanced at the Xuanyuan clan.

"Not good!"

In the void crack where Xuanyuan was, there were several exclamations.

Everyone's expression changed.

They had witnessed the power of these weapons with their own eyes. If even ancestor Styx River could not resist them, they could not either.

However, before they could escape, the torrent of black light had already arrived and exploded the void gap.

"Aaah!"

There were a few cries of pain and the sound of vomiting blood.

Then, there were panicked shouts.

“Let’s go!”

Xuanyuan and the others turned into divine lights and left in a hurry.

Everyone was stunned again.

“Let’s go!”

Many forces made a prompt decision and turned to leave.

They had come to watch the show and didn’t want to fight. If they continued to watch, they would be affected and that would be bad luck.

“What a disgrace! What a disgrace!”

“After this battle, all the major forces in the immortal world lost their face!”

Many people beat their chests and stomped their feet as they sighed.

If they couldn’t stop this kid this time, they wouldn’t have another chance!

The situation had already changed!

In the immortal world, no one could stop his rise!

“Young master ye, let’s go!”

In the distance, sovereign Taixu pulled ye Futian and shouted anxiously.

Those big Luo were all retreating. If they didn’t leave, when that kid found them, he would definitely take advantage of the situation to kill them.

“Is he really invincible?”

Ye Futian stared into the distance, his face pale. He was in a daze.

He had wanted to see the boy’s miserable appearance and escape in a sorry state, but in the end, he only saw the boy’s posture of showing his divine power. He was still as invincible and invincible as before.

The little bit of confidence he had regained after becoming a zenith heaven was once again shattered by this scene.

“Let’s go!”

Supreme Taixu sighed and pulled him along as they ran outside.

Of course, the kid was not truly invincible, but at least for now, with the power of those treasures, he was invincible.

From now on, no one would be able to stop this kid!

Unless a Celestial King was born!

Moreover, they had to pray that it was their people who had advanced to the celestial King first, and not that kid!

Once that kid broke through first, everything would be over!
