

## The Mightiest Little Peasant Chapter 3348

Two figures descended from the immortal ancient bridge.

One of them stepped forward and crossed the celestial bridge, entering the deep darkness.

“Ancestral God, please show yourself!”

He shouted as he knelt down in the air.

“What’s the matter?”

An extremely dignified voice boomed through the air. It was like muffled Thunder, rumbling and reverberating in the air, causing one’s heart to tremble.

On the bridge, the Lei clan genius also knelt down. His entire body trembled and he felt as if the blood in his body was about to freeze.

This was the might of the ancestor God!

Just his voice alone contained Supreme divine might!

“Did Emperor Tianhuang appear?”

The voice rang out again, like a thunderclap, shaking the void.

At the same time, a pair of enormous golden divine eyes appeared in the darkness.

In his eyes, there was endless divine fire burning, as if it could burn all the heavens and worlds.

“No!”

The old man on the ground trembled, unable to withstand the might of the ancestor God.

“Then why did you call me?”

The voice shouted, and there was a hint of anger.

“It’s ... It’s like this. A genius from the Lei ... Lei clan fell. The Lei clan ordered me to capture the murderer, but ...” The old man’s voice trembled.

“But what? Just take it, you actually called me for such a small matter!”

“However, I’ve used all kinds of methods, but I still can’t find this person. This person is extremely cunning and sinister. Therefore, I want to ask the ancestor God to help us find this person. As for capturing him, I’ll do it!”

The old man said.

In the darkness, there was a long silence.

“Is he really that cunning?”

The voice sounded again, with a trace of doubt and shock.

“It’s absolutely true!”

The old man said respectfully.

There was another round of silence.

Then, a powerful spiritual will gushed out of the darkness, left the immortal bridge, and rushed over.

After an hour, the divine sense returned.

“I found the place of his death. There was no aura at all. Even I couldn’t find any more traces. This person is just as you said, extremely cunning!” The Elder God said.

His tone was a little unhappy.

He was an ancestor God, but he had found the aura of a puny human Immortal King. It was truly embarrassing.

“Then ... Does Lord ancestor God have a way to find this person?”

The old man said.

“If I had mastered the power of time, I could try to reverse time and trace back the traces. However, among the many divine abilities I have mastered, I don’t have this divine ability.” The voice mumbled in the darkness.

“That’s right, isn’t that brat outside also from the Lei clan? come over, I’ll borrow your blood!”

In the darkness, a huge force appeared and pulled the Lei clan genius over.

Pfft!

A soft sound.

A bloody mark appeared on his cheek, and another drop of nine-colored blood gushed out.

“This should work!”

When the old man saw this, he was immediately overjoyed.

If the ancestor God took action and used the power of the bloodline to trace back, he would definitely be able to find it!

“How did this happen?”

“No? How could there not be any? It’s impossible!”

However, in the next moment, an angry roar came from the darkness.

The old man was stunned and couldn’t believe it.

Even the ancestor God had failed?

This was too unbelievable!

This was an Elder God!

Besides, the method of tracing back the Lei family's bloodline should be foolproof. Although that guy had killed Lei Jue, he couldn't do anything to Lei Jue's body. Even if he wanted to refine it, it would take a long time.

It had only been a day or two. Lei Jue's body must still be there. How could they not trace it back?

"This fellow is indeed very cunning!"

After a moment of silence, the ancestor God seemed to be gritting his teeth.

"Since tracing back the bloodline doesn't work, does Lord ancestor God have any other methods?" The old man asked.

"Let me think ..."

Then, there was a long silence.

After an unknown period of time, the voice rang out again. "Previously, you all said that the Lei clan brat died because he was chasing after a human female immortal. Since that's the case, why don't we just track down that woman!"

"We ... We don't know if she's dead or if Lei Jue has devoured her." The old man said hesitantly.

“We’ll know once we try!”

The ancestor God snorted.

“Lei clan’s brat, didn’t you swallow that female immortal’s clansmen? spit out some blood.”

“Yes!”

The Lei clan genius responded and did as he was told. He spat out a ball of blood essence.

The ancestor God absorbed the blood essence and began to trace back.

At this moment, in the ancient tai Chu land.

Inside the cave, Feng Qingyan, who was sitting cross-legged on the ground and meditating with her eyes closed, suddenly trembled.

She opened her eyes and looked up, her face turning pale.

“What’s wrong?”

“What’s going on?” Tang Hao asked when he noticed her unusual behavior.

“Someone is following me! He’s an Almighty being!” Feng Qingyan said in shock. As she spoke, she suddenly stood up.

"I can't stay here any longer. If I'm caught, I'll get you in trouble!"

Her figure moved and she was about to go out.

"You can 't!"

Tang Hao said and stopped her.

In order to prevent them from tracking him, he had set up countless arrays in all four directions. The people of the Dragon count divine clan wouldn't be able to catch up to him in a short period of time.

This was the ancient tai Chu land, and the aura here was extremely chaotic. Coupled with the concealment of his formation, even if the people of the gods race managed to find the approximate location, they wouldn't be able to reach here.

"But ..."

Feng Qingyan said anxiously.

"Don't panic! Let's wait and see!"

Tang Hao said calmly.

"Can you sense the cultivation of the person who is tracking you?" He pondered for a moment and asked.

“He’s very strong. I’ve never seen such a strong person before!”

Feng Qingyan said with a frown, her face pale.

“That’s the Elder God!”

Tang Hao said.

His brows furrowed and his expression was slightly solemn.

He was still rather wary of the ancestor God’s means.

“I’m afraid they’ve used all their means and can’t catch me, so they came to track you. How about this, you go into my divine furnace and I will use the Taixu divine fire to envelop you. Then, I will use the ten thousand laws divine mountain to suppress you. This will reduce the chances of you being found.”

After thinking for a moment, he had a plan.

He flicked his sleeve and the divine furnace flew out.

“Alright!”

She responded and jumped into the divine furnace decisively.

Tang Hao immediately activated the divine furnace, then took out the divine mountain and placed it on the furnace.

“Eh? What was going on? His aura disappeared again? I was so close to finding it!”

“Dammit! That guy couldn’t have found out, right? Who is he? how can he stop me from tracking him?”

At this time, an angry roar sounded again in the dark void.

That ancestor God long Bo was already unable to contain his anger.

At the same time, he found it even more unbelievable that a mere human Celestial King could block the means of an Elder God of the Celestials!

This was unbelievable!

What was the background of this human?

Hearing this earth-shaking roar, the old man and the young man both prostrated on the ground and trembled.

At the same time, they were also in disbelief.

The ancestor God had taken action and used many methods, but he still could not find any traces of that fellow. From the looks of it, he had been intercepted halfway and blocked the ancestor God’s pursuit.

This ... This was too absurd!

How could a mere Celestial King of the human race have such a powerful super power?
