

The Mightiest Little Peasant Chapter 3365

“A great treasure?”

The group of disciples' expressions all changed.

Their eyes were burning with passion.

“Hahaha! The heavens are really blessing our Black Lotus sect!”

“I'm rich now!”

They shouted in joy.

“Shh!” Mu Fei immediately made a shushing gesture. “Lower your voice. Don't let anyone hear you!”

“Hey! There's no need to. In the Tangshan region, who would dare to provoke us? Besides, the sect master will definitely come personally this time, what's there to worry about?”

“Yup! Our sect leader is a two star sky celestial realm. In the entire Tang Mountain region, he is invincible!”

The disciples were unconcerned.

“That's what he said!” Mu Fei said.

“That’s true! I was too cautious!” Then, he chuckled and shook his head, blaming himself for being too cautious.

“Go! Hurry up and go over!”

The group increased their speed.

They were riding on an Eagle and were extremely fast.

“Treasure land? A precious treasure?”

In the spatial Rift behind them, Tang Hao’s expression changed.

He had planned to kill the Black Lotus sect disciples on the way, but now, he didn’t want to.

He was more interested in the so-called treasure and the other important treasures than the grade-two and grade-three divine crystals.

To be able to make a two star heavenly God Realm expert personally move out, it was indeed a pretty good treasure.

The sky celestial realm was equivalent to the celestial of the great all-embracing heaven, which meant that this thing was also useful to him.

He followed her all the way.

About two hours later, this group of people swept into a mountain range. Someone swept out of the mountain and took them in. They then disappeared into an abyss.

“What a heavy Yin Qi!”

Tang Hao flew to the sky above the abyss and checked the situation.

There was a thick evil Qi below, blocking his vision, making him unable to see the situation below.

He didn't want to alert the enemy, so he couldn't use his divine eyes.

After a moment of silence, he raised his hand and wiped his face.

In an instant, he changed his appearance, from the appearance of a lecher to a tall and strong middle-aged man.

Then, he retracted his aura and descended.

After descending for about 30000 feet, he heard movement from underground. It was rumbling, as if something was being bombarded.

At the bottom of the abyss was a complex underground cave.

He followed the sound and searched for a while before he got close to the scene.

Not far in front of him, there was a huge cave, and many people were gathered there. They were all dressed in black. They were from the Black Lotus sect, and there were hundreds of them.

At a glance, he could see many spiritual God Realm cultivators. They were all elders of the Black Lotus sect.

He also saw Mu Fei and the others standing behind the group of elders.

At the front of the crowd was a tall and strong man. He looked to be in his forties and had a beardless face. His expression was dignified and his aura was as deep as the abyss. He was a heavenly God.

It was obvious that this man was the master of the Black Lotus sect.

Tang Hao only looked at him for a while, then retracted his gaze.

Two stars celestial deity realm was about the same as his cultivation level. His Supreme Dao cultivation level was only three stars celestial deity realm. If he stared for a long time, he would be easily discovered.

This person was taking the lead and bombarding one of the walls in the cave.

BOOM! BOOM!

Along with a series of loud explosions, golden light kept flashing on the wall.

On this wall, there was a formation.

“Work harder and break this formation as soon as possible. The ancient God’s cave is inside. There must be treasures.” “Die!” The sect master roared and struck out with his palm again. The wall trembled and golden light burst out.

“Use all your strength. Hurry up. Don’t just stand there, you disciples. If we drag this out for too long, other forces will find out. Things will be bad!”

An elder shouted as he turned around.

“Yes! Elder!”

Everyone shouted in unison, as if they had been injected with chicken blood, and they all activated their full strength to blast at the wall.

The ancient God’s cave!

This was the most tempting of all the treasured lands.

Those who could be called ancient gods were all Celestials from ten thousand years ago. Their bloodlines were stronger, and their realms were stronger, so the treasures they left behind were naturally better than the ones they had now.

This was also the first time that the Black Lotus sect had discovered a real ancient God’s cave.

“Soon!”

After striking for another hour, he saw that the golden light on the wall had dimmed by half.

They cheered and began to bombard with even more effort.

After about two hours, the Black Lotus sect master finally shattered the golden light with a single palm strike. The wall exploded with a loud boom, revealing a cave.

“Hahaha!”

The Black Lotus sect master laughed out loud, unable to contain his excitement.

He took a step forward and took the lead to step into the cave.

“It is indeed the ancient God’s cave dwelling!”

After entering the cave, he looked around, and his eyes became extremely hot.

This was a huge cave with a Palace inside. The treasures must be inside.

“There’s no danger, come in!”

He activated his divine eyes and scanned the surroundings. Then, he turned around and spoke to the elders outside.

A few whooshes.

A group of elders rushed in impatiently.

“Judging from the style and material of this Palace, it must be something that only a yang God Realm expert can possess ...”

Sweeping their eyes over the palace, they began to discuss in low voices, their faces excited.

An ancient yang God Realm powerhouse!

This was a Supreme Being!

“Sun god? A Celestial King-level relic!”

Tang Hao followed him in and hid in the void.

He was also a little excited. Immortal King-level ruins were not low, and there were no lack of treasures.

“It’ll be good if I can get a suitable weapon!”

He said to himself.

He had many divine weapons on him. The most powerful one was the black divine spear of the Lei clan’s heaven’s favorite. However, that was an ancestral god weapon. Its origin was too great and too eye-catching. It would easily attract the attention of the Lei clan. If he was hunted down because of this, it would be bad.

The Lei clan had an ancestor God, and not just one.

As for the other God weapons, their grades were too low. They were all true God weapons and were of no use.

It would be perfect if he had a Celestial King-grade divine artifact.

“Go! Follow me!”

The sect master took a deep breath, suppressed his excitement, and rushed toward the palace.

Fortunately, there were no more restrictions in the palace. They could enter directly with formations.

They headed straight for the center.

“What is this aura?”

When they approached the central area, their expressions changed. They sensed a terrifying pressure coming from ahead.

They immediately stopped, not daring to move forward.

“Allow me to probe!”

The Black Lotus sect master activated his divine eye again and looked ahead.

“It’s in that Palace!”

Soon, he found the center of the pressure. He activated his divine eyes and looked over.

However, in the next moment, he let out an “ah” and his body trembled violently. He staggered a few steps back and raised his hands to cover his eyes.

“Sect leader? What’s wrong?”

The elders of the Black Lotus sect were shocked.

The sect leader was a heavenly God. How could he be blinded? could there be something terrifying in the hall?

“There ... There’s a skeleton there!”

After a while, the Black Lotus sect master recovered. He looked at the palace in front of him with a serious expression.
