

## The Mightiest Little Peasant Chapter 3386

“The formation has collapsed!”

“It’s broken!”

With a loud rumble, cries of alarm came from all directions.

Everyone in the building was frozen, dumbstruck.

This was especially true for Grandmaster Tian He, who stood there like a statue.

He only came to his senses after a while.

“No! That was impossible! How could my formation be broken?!” He roared and his face turned red. He rushed to the front of the pavilion and looked at the front line.

In the next moment, his body trembled and his face turned pale without a trace of blood.

He took a few steps back and fell down.

“Master, what’s wrong?”

The generals of Vermillion Bird hurried over, and the building was in chaos.

“Broken? It’s really broken?”

The divine martial Kingdom's side was in an uproar.

Everyone could not believe their eyes.

"Hahaha! Good! That's great!"

The divine martial Army's Commander-in-Chief laughed out loud, overjoyed.

"Well done, you deserve to be rewarded, heavily rewarded!" He turned around and looked at Tang Hao, laughing.

The generals from all four sides also looked over with surprise.

They didn't expect that this puny God would actually be able to help them break the formation.

If he had not provided the clues, this array might have blocked them for more than ten days, and they would have to pay with more lives. This contribution ... Was too great!

"I'm starting to believe that he really has extraordinary luck!"

A God general muttered.

"Commander, we have successfully broken the enemy formation!"

A moment later, the three array Masters returned with more than a thousand people.

“Good! You’ve all done well, and you’ll be rewarded!” The Commander-in-Chief laughed.

“Many thanks, commander!”

“You go first. I’ll reward you with 10000 merit points and 12 spirit pills.” The Commander-in-Chief looked at Tang Hao. “Are you satisfied with this?”

“Many thanks, commander!”

Tang Hao bowed.

He had a detailed understanding of the merit points system. 10000 merit points were equivalent to the merit points obtained by killing an early divine realm expert.

Because heavenly gods were hard to kill, it was not easy to get the merit points. It was already not bad.

Of course, if his status and strength were higher, he might get even more merit points.

On the surface, he was just a puny God, a cannon fodder soldier. Naturally, he wouldn’t be able to obtain too many contribution points.

“The 9th Battalion has been wiped out. We have to move you to another place ...” The Commander-in-Chief said.

“Commander, why don’t you let him join our array Department? I think he’s quite lucky and seems to have some fate with arrays.” The old man from the array Department walked out at the right time and said in a clear voice.

“This ...”

The Commander-in-Chief hesitated.

“Elder Yu, if he knew about arrays, he would have joined your array Department long ago. I think he’s just lucky and isn’t suitable to join your array Department. Why don’t he join my Feilian Army?” A God general in green armor laughed.

His title was Feilian, and the Army he commanded was also called the Feilian Army.

“Al! Brother Feilian, your Army is already full of talents, you don’t lack people at all, why don’t you give this to me!”

A God general in purple armor said.

Following that, many divine generals also spoke up, all of them with the intention of pulling him in.

This little soldier’s strength wasn’t much, but his luck was really good. If he could take him under his command, he might be of use in the future.

“Why don’t you join my Flying Phoenix Army?”

That graceful and moving figure could not help but speak.

In an instant, many people from all directions revealed envious looks.

Joining the flying Phoenix Army was the dream of many!

“This ... I’m afraid it’s not very appropriate!” The Commander-in-Chief hesitated for a moment and smiled bitterly.

“Oh? What’s wrong?”

Divine general Fei Feng asked in surprise.

“I’ve just checked this person’s file. His identity is a little special and he’s not suitable to join your Flying Phoenix Army.” The Commander-in-Chief said tactfully.

He had already recalled where he had heard this name before.

Not long ago, there had been chaos in the hundred territories. It was said that a perverted Bandit had kidnapped the Saint of the Tai Qing Palace, and the name of this perverted Bandit was mu Xiaoyao.

He had found out just now that this matter had nothing to do with mu Xiaoyao. He had only been impersonated. However, his identity as a pervert was still true.

Originally, this was not a big deal. Many of those who entered the human barracks did not have good character. Some of them had even committed crimes and were sent to join the army. However, if they wanted to enter the flying Phoenix Army, they were not suitable.

Most of the members of the flying Phoenix Army were women.

“Since the general has said so, then so be it!”

She replied.

The divine generals on the left and right looked at each other and didn't say anything.

From what the Commander-in-Chief said, this person's identity seemed a little tricky, so there was no need for them to take him in.

"You can choose. You can go to the array Department or the other logistics departments."

The Commander-in-Chief said as he looked at Tang Hao.

"I want to stay in the human Battalion. Since the 9th Battalion is gone, I'll join the 8th Battalion." Tang Hao said.

He didn't want to go to the logistics department. How could he pick up the corpses and make any contributions in the rear?

The reason he had joined the Army was to break through to the Yang God Realm.

"What? You still want to stay in the human barracks?"

The Commander-in-Chief was startled and greatly surprised.

There was also a low uproar.

This guy was probably a fool!

He didn't even want the chance to save his life, must he be cannon fodder?

He was lucky this time and survived, but what about the next time? What about the next time? Could he really guarantee that he would be able to live until the end of this war?

“Good! Since you’ve made your choice, then you’ll go to the 8th Battalion. ”

The Commander-in-Chief hesitated for a moment before nodding.

“Many thanks, commander!”

Tang Hao thanked him and retreated to the back.

Next, it was time to reward the formation Department and the soldiers of the 8th Battalion.

After the rewards were given, Tang Hao and the people from the eighth camp returned to the human camp on the city wall.

After becoming a Centurion, he had his own tent.

A tent was equivalent to a cave abode and had all the functions.

“The divine martial Kingdom has broken the opponent’s formation. Next, it’s time for the opponent to break the formation. It might take a day or two, and I’ll just take the time to absorb those corpses.”

He sat down in the cave in the tent.

He flicked his sleeve and the great void divine furnace flew out.

The furnace was filled with nearly 6000 corpses. Although most of them were at the intermediate or upper level, there were many of them, and many of them were at the spiritual God Realm.

He took out the divine crystals one by one, extracted their essence, and refined them in the divine furnace.

In two days, he had refined and devoured all of them.

There were also the twelve spirit pills that he had been rewarded with. He swallowed them all at once. Although the medicinal effects were low, it was better than nothing.

“It’s increased by quite a bit!”

After he finished devouring, he looked inside and saw that his cultivation had improved a lot.

“I can show my cultivation as a spiritual God!”

His expression changed and he began to adjust the aura in his body.

From the mid-level deity stage, he rose all the way to the 2-star spiritual God stage.

“I’ll go exchange my merit points again. I can exchange them for a few God pills and increase my cultivation by quite a bit. By then, I’ll be able to display my cultivation at the peak of the spiritual God Realm.”

Tang Hao thought about it, then stood up and left the tent.
