

The Mightiest Little Peasant Chapter 3387

“Look, it’s that mu guy!”

“This guy is so lucky! He’s clearly a perverted Bandit, where did he get such good luck from? the wretched heavens are really unfair!”

On the way to the merit Palace, there were people pointing at him from time to time.

In the past two days, his identity had been completely spread.

Most people were jealous.

A little perverted Bandit from the hundred territories had made a great contribution on the first day of the war. Not only did he receive 12 spirit pills, but he also received 10000 merit points!

Even if they fought with their lives on the line, they would not be able to earn so many merit points!

Tang Hao ignored him and walked straight into the merit Hall.

“Give me five of these God pills!”

Tang Hao said boldly as soon as he entered.

In the merit Palace, there were two kinds of pills for sky celestial realm cultivators. One was the ordinary sky celestial pill, and the other was the sky celestial great pill. It was the enhanced version of the former, and its medicinal effects were stronger.

With Tang Hao's current cultivation base as a nine-star celestial God, one pill could increase his cultivation base by quite a bit.

Soon, he got the pills. There were five in total.

"Good pill!"

He opened the box, took out one pill, and carefully examined it.

This was a great all-embracing heaven grade pill. Even in the immortal realm, it was quite precious.

Looking at the pill's appearance, it was clear that it had been made by a divine nation alchemy expert and was of high quality.

"Shameless thief!"

As soon as he walked out of the hall, he saw a few people blocking his way.

The leader was that Lackey Hong. He was dressed in golden armor and looked like a human.

"Isn't this brother Hong? what's wrong?"

Tang Hao smiled at him.

"Who's your brother Hong? I, Hong Tianyi, don't want to be brothers with a shameless thief like you."
Hong Tianyi was furious and scolded.

“If it’s not, then it’s not. Why are you so excited?”

Tang Hao smiled.

“Hmph! Mu, don’t be too proud. It’s just a small achievement. Just you wait, soon I will also make an achievement and surpass you. At that time, I will even step on you!” Hong Tianyi gritted his teeth and said.

“Alright! Then I’ll be waiting!”

Tang Hao smirked and walked past him.

“Brother Hong, why are you angry with such a small fry!”

“Yup! He’s still in the cannon fodder Battalion, and he might even die in the battle the next time he goes out. There’s no need to be angry with this kind of person!”

The few people beside Hong Tianyi advised.

“That’s true! Let’s go!”

Hong Tianyi sneered and turned away.

“It’s actually not broken yet?”

Tang Hao didn’t return to the tent immediately, but went to find out more about the battle.

The divine martial Kingdom's formation hadn't been broken even after two days. It was said that one of the grandmasters there had fainted from anger and hadn't recovered from it for two days, so it had been delayed.

"He even fainted from anger. He's too useless!"

He muttered softly.

If Grandmaster Tian He was here, he would be so angry that he would vomit blood and faint again.

After a stroll, he returned to his tent.

After sitting down, he took out five celestial God great pills and threw them into his mouth.

As the pill entered his stomach, it immediately released a vast medicinal power that spread to his limbs and bones.

After circulating it once, it surged into the divine sea in his dantian and was absorbed by his divine core.

Soon, he finished absorbing. The few rings of light around the divine core became brighter, especially the ninth ring. This also meant that his cultivation had increased by quite a bit. He was one step closer to the peak of nine-star.

"Let's directly display our open-air divine realm cultivation!"

After thinking for a moment, he adjusted his aura to 1-star celestial deity.

In theory, five celestial God great pills could help one break through to the celestial God Realm.

The higher his cultivation level, the more convenient it would be for him to do things in the future.

In the next few days, there was still no situation outside. He stayed in the cave dwelling in the tent and read some divine Dao books.

It wasn't until four days later that there was news that the formation had been broken.

"I heard that master Tianhe is not convinced and has set up another formation. He said it's the God slaying formation and is making a fuss over there!"

"God Punisher, God Punisher, it sounds very dangerous!"

One day, Tang Hao walked out of his tent and heard people discussing.

"God Slayer!"

Tang Hao furrowed his brows.

He didn't know what kind of immortal arrays that master had merged with.

He walked to the city wall and saw a group of people heading toward the enemy formation.

However, after a long time, no one returned.

“It seems like they’re all dead!”

Tang Hao said to himself.

Master Tian He, who was known as the number one array master in the East continent, did have some skills. With the support of the entire Vermillion Bird divine Kingdom, he definitely did not lack materials. It would not be difficult to create a top-notch array.

“I’d like to go in and take a look!”

Looking at the enemy formation in the distance, he felt a faint sense of anticipation.

He really wanted to see what this array master could do!

Two to four hours later, another group of people left.

However, none of them returned.

“This God Slayer formation seems to be even more dangerous than the nine prison heavenly gates Formation!”

In the commander’s city, a group of generals gathered together, their faces extremely serious.

Just now, they had sent out two teams of people. The first team was the human camp, and the second team was the earth Camp. However, both teams had been completely annihilated.

One had to know that in the earth barracks, there were quite a few heavenly gods. In the end, not a single one had walked out.

“Who should we send next?”

The Commander-in-Chief hesitated.

As the Commander-in-Chief, he couldn't just send people to their deaths. Even if they were cannon fodder, their deaths had to be worth it.

“Commander, why don't we ... Send the people 8th Battalion up!”

A God general suddenly said.

“You're talking about ... That kid?” The Commander-in-Chief was stunned for a moment, but he quickly reacted.

“That's right! If we send other people up now, even the heaven barracks may not be able to come back alive and provide useful clues. It's better to send this kid up and try his luck. ” The God general said.

“This ...”

“We can reward him handsomely, he will be willing to take the risk.”

“Good! As for the 8th Battalion, there's no need for that. We've just lost half of them, it's not suitable to send them to support the formation now. ” The Commander-in-Chief pondered for a moment and said.

“Yes!”

“Yes,” someone replied and left to carry out the order.

“If I come back alive, I’ll have 100000 contribution points and 10 deity pills! If the Commander-in-Chief agrees, I’ll go!” Tang Hao said as soon as they landed in commander city.

He knew what was going on when he received the order.

“Good! You have guts!”

The Commander-in-Chief praised.

Although this mu kid’s identity was a little disdainful, his courage was first class, which really made him look at him in a new light.

The generals from all four directions were also shocked by this courage.

“If you can come back alive and help me break the formation like last time, I will not only reward you with this, but also promote you to a Captain by two levels.” The Commander-in-Chief laughed.

“Alright!”

“Okay,” Tang Hao replied, then turned around and left.

This was the effect he wanted. More merits meant more deity elixir. There were also many corpses in the array waiting for him to collect. These could help him break through to the Yang God Realm as soon as possible.
