

The Mightiest Little Peasant Chapter 3391

“Are you sure?”

Elder Yu’s expression was grave.

“I just feel ...” Tang Hao shook his head.

Of course, he could see it clearly, but he couldn’t say it out loud.

“Elder Yu, do you think that’s possible?” The generals at the side asked.

“That’s possible, but if that’s the case, it’ll be even more difficult to break the formation ...” Elder Yu nodded, his expression becoming more and more serious.

“Little mu, then can you tell which one is most likely to be real?”

After a moment of silence, he asked again.

This kid’s formation sense was invincible. Maybe he could see the flaws again.

Hearing this, the four generals all focused their eyes on him.

Their expressions were filled with anticipation.

This kid had already created two miracles. He might be able to create another one.

“I feel ... It will be that one!”

Tang Hao hesitated for a moment, then raised his finger and pointed at one of the lights.

“Good! Let’s take a gamble then. I’ll send the order to launch a surprise attack and attack this place with all our might.” The Commander-in-Chief nodded.

Very quickly, the order was given.

The situation on the battlefield had changed. The teams on Tang Hao’s side began to charge forward. They seemed to be attacking many formation disks, but in reality, the most elite team was heading toward the target Tang Hao had pointed out.

After a moment of intense battle, the array board was penetrated by an arrow.

“It’s broken! It’s broken!”

On the battlefield, there were cheers.

In the next moment, balls of bright divine light burst out.

It was the light that burst out when he revealed his divine body.

“Hahaha! Good! That’s great!”

The Commander-in-Chief laughed out loud. "You brat, you're really that Grandmaster Tian He's nemesis. If he finds out that you're the one who broke it this time, who knows how many mouthfuls of blood he'll spit out!"

"Hahaha!"

All the generals laughed out loud.

It was a strange thing that a famous array master in the East continent had been defeated by a kid from the hundred territories.

When the war was over, this news would definitely spread and cause a sensation everywhere.

Especially in the array Dao world, it would probably cause a huge wave.

"You've done something good again. What do you want this time?"

"I don't want merit points anymore, just directly exchange them for pills!" Tang Hao said with a smile.

"Good! Then I'll give you the pill, five sky god great pills!" The Commander-in-Chief laughed.

"Many thanks, commander!"

Tang Hao cupped his hands and bowed.

Although five pills were not much, it was already worth 10000 contribution points. He had just moved his lips and earned 10000 contribution points for free. It was already not bad.

He took the pill and put it away.

With these five pills, he now had 44 God pills.

“The formation is gone. If I want to earn merit points, I have to kill people. However, it’s not easy to kill a heavenly God.”

Tang Hao muttered to himself as he looked at the battlefield.

To kill a heavenly God, he had to use his full strength, which would undoubtedly expose his strength.

After pondering for a long time, his eyes suddenly lit up.

“General, how many merit points can capturing a heavenly God alive get?”

He asked.

“Captured alive? Hahaha! How is this possible?”

A God general at the side laughed.

It was very difficult to kill a heavenly God, and it was even more difficult to Capture One alive. The two countries had confronted each other for thousands of years and fought hundreds of Wars, but the number of times a heavenly God was captured alive was very few. Even if there were, it was all because of a few coincidences.

The Commander-in-Chief also laughed. "If we can really catch them, the merit points will be three times that of killing them. Now, the merit points are three times that of usual. In other words, it's nine times more!"

"Nine times?"

Tang Hao's eyes glowed even brighter.

Catching one of them would cost him at least 90000 merit points. This was a great deal!

"Don't even think about it. You were only a mid-level deity a few days ago, and in a short few days, you've charged to become a 3-star celestial deity. Your level hasn't stabilized yet, so it's best that you don't go out and take risks!" "Of course." The Commander-in-Chief laughed. "Moreover, with your strength, you are far from being able to capture a heavenly God alive."

"Yup!"

Elder Yu also advised from the side.

This kid was a rare array path genius. How could such a talent go out and fight? it was too dangerous!

"That's not for sure!"

Tang Hao chuckled. "I do have some tricks up my sleeve that can capture a heavenly God alive!"

"What kind of method?"

The Commander-in-Chief was stunned. He didn't believe it.

"Medicine!"

Tang Hao said with a smile.

"Medicine?"

Everyone was stunned for a moment, and then, their expressions became a little strange.

Is this kid talking about knockout powder?

That's right! He had almost forgotten that he had been a notorious perverted Bandit in the hundred territories and was best at this.

"But that's a celestial deity realm!"

The Commander-in-Chief said hesitantly.

Wasn't it said that it wasn't this kid who had bewitched the geniuses of the hundred territories and kidnapped the saintess? it was someone else in disguise. Where did this kid get the medicine to bewitch a heavenly God?

This level of medicine was the best in the world. Even he, a yang God Realm master, did not have it.

"Although that person was impersonating me, he used the medicine that he had snatched from me. I obtained these medicines from an ancient God's cave." Tang Hao said.

“The ancient God’s cave?”

The four sides gasped.

Then, they all looked relieved.

This was very likely!

“This is my plan, Supreme Commander ...” Tang Hao explained his plan briefly.

“Good! Then let’s do this!”

Hearing this, the Commander-in-Chief’s eyes lit up and he quickly nodded.

Soon, the day’s killing was over.

Both sides withdrew their troops.

The Vermillion Bird country had the upper hand in the beginning, but when the sealing formation was broken, the situation was reversed by the divine martial country, and it could be considered a draw.

“What? That kid again?”

That night, in the Vermillion Bird Commander-in-Chief’s residence, master Tianhe suddenly stood up in anger.

He had just received news that the divine martial Kingdom was able to break his great array today because of the guidance of that mu brat.

“It can’t be wrong. Everyone in the divine martial Army is talking about this matter, just like a few days ago.”

A God general said.

A few days ago, that divine martial soldier had walked out of the Vermillion Bird country’s formation twice. Not only did he shock the Vermillion Bird country’s Army, but he also caused a huge commotion in the divine martial country.

“They’re all saying that this person is a one-in-a-billion array Dao genius and has an invincible array sense!”

A God general sighed.

Why did such a talent seek shelter in the divine martial Kingdom? it would be great if he came to his Vermillion Bird kingdom.

“A one in a billion genius?”

Grandmaster Tian He gritted his teeth, and his expression grew increasingly unsightly.

“Cough! What genius? he’s just a little pervert!” A God general quickly said after observing his expression.

“That’s right, that’s right. He’s a shameless lecher. Only the divine martial Kingdom treats him like a treasure!”

The other God generals came to their senses and hurriedly said.

Only then did master Tian He’s expression ease up a little.

“Everyone’s right, this is a shameless lecher. He just had a bit of luck and just happened to break my great formation. There’s nothing to praise.” He snorted.

“Master is right!”

The divine generals hurriedly smiled.

“This little thief is just too lucky. If he continues like this, it’ll be very disadvantageous to our battle. We have to find a way to get rid of him!” Grandmaster Tian He’s face darkened, and his voice was filled with killing intent.
