

The Mightiest Little Peasant Chapter 3397

At the carefree mansion.

Lakeside Pavilion.

Tang Hao put away the divine furnace.

In a month and a half, he had refined more than 500 sets of materials and finally gathered 1000 celestial God pills.

“I can break through now!”

After a short rest, he stood up and set up several layers of arrays in various parts of the mansion.

Although he didn't need to go through the Tribulation to break through to the Yang God Realm, he would still cause a lot of commotion and would have to use a formation to conceal his aura.

He only returned to the pavilion and sat down after the arrangements were done.

With a flick of his sleeve, countless golden lights flew out, all of which were huge and round deity elixir.

He opened his mouth and inhaled. The pills flew over and were swallowed into his stomach.

BOOM!

The deity elixir disintegrated in his body one by one, releasing a strong medicinal power.

At this moment, it was as if there were countless torrents surging in his body, rampaging.

He suppressed the medicinal power and began to absorb it.

Very soon, the pure divine essence surged into his dantian divine sea and accumulated.

His divine sea could no longer contain more divine essence. At that moment, Tang Hao's mind shifted, and the divine core suddenly exploded and disintegrated.

If he wanted to break through to the Yang God Realm, he had to break through first.

Hualala!

As the divine core exploded, endless divine essence gushed out in all directions. The entire divine sea started to shake and was in chaos.

Tang Hao opened his mouth again and sucked in a deep breath. The rest of the pills came in.

Then, he raised his hand and pointed at the divine crystal between his eyebrows.

The divine crystal was the bloodline inheritance of a God clan. It was the core of their power.

Next, he only needed to activate the divine Crystal's power and reform the crystal core to break through to the Yang God Realm.

Compared to immortal cultivation, this was undoubtedly a little too simple.

This was also the reason why there were so many yang gods in the divine world, but only a few immortal kings of the same level in the immortal world.

Of course, it was related to resources. The divine realm had more resources, but the cultivation of the divine Dao was relatively simple, which was also an extremely important reason.

Buzzzzzz!

The divine crystal on his glabella shook slightly. Beams of nine-colored divine light were released, pouring into his dantian and divine sea.

In the divine sea, divine essence rumbled and started to condense.

At first, it was just a small crystal core, but as it absorbed more and more power, it began to gradually grow larger and more brilliant.

Previously, when he was at the heavenly God Realm, the crystal core was as bright and clear as a diamond.

At this moment, it was a dazzling golden color and was filled with an extremely yang and intense aura.

Occasionally, there would be a flash of nine-colored light.

“Is it not enough?”

Just like that, the crystal core continued to devour divine essence.

Soon, the power of the 500 pills was completely absorbed.

However, the crystal core did not show any signs of stopping, nor was it in a perfect state.

Hualala!

The divine essence transformed from the medicinal pill was still surging over.

600,700 ... It didn't stop even when it reached 900.

Tang Hao was a little shocked.

"It must be because of the God crystal. I've absorbed the fragment of the ancestral God crystal, so I'll need to use even more energy to break through," He thought to himself.

Fortunately, when he reached the 950th crystal core, it gradually stopped.

Suddenly, the crystal core trembled and released a dense golden light.

"I've succeeded!"

Tang Hao was overjoyed.

This was the sign of a successful advancement. Next, the power in the crystal core would flow back into the body.

Sure enough, in the next moment, a golden light gushed out of the crystal core and spread to his limbs and bones, transforming his physical body.

Tang Hao opened his eyes half an hour later.

The violent aura on his body also gradually stabilized.

“Not bad!”

He clenched his fists and nodded slightly.

After this transformation, his physical body had been greatly improved.

It was a pity that he wasn't a pure God. Otherwise, even his divine body would have changed and gained some divine abilities.

Although he had modified his physical body, he had not completely transformed into a celestial. Instead, he was compatible with both the immortal and celestial paths, so he did not have his own divine body. He only had the immortal spirit body that he had refined himself.

“I've finally broken through!”

With a happy smile, he stood up and moved his hands and feet to get used to his current strength.

Then, he stepped out of the pavilion and put away the formation.

“It’s time to go out and take a look!”

He retracted his aura and adjusted it to the level of a six-star heavenly God. Then, he walked toward the main entrance.

Since his cultivation had broken through, he had nothing to worry about.

At least, he could protect himself in the divine martial Kingdom.

“I haven’t been out for a long time!”

He heaved a long sigh of relief as soon as he stepped out of the mansion.

It had been two and a half months since he returned to Shen ‘du. Although he had gone out twice, he had changed his appearance and concealed his tracks.

“Let’s go for a drink!”

He happily walked towards the restaurant.

After taking a few steps, he sneered in his heart.

As soon as he stepped out, he sensed many probing gazes. Of course, many of them were prepared to win him over, but there were also many who came with ill intentions.

He had heard from elder Yu that there were many people in Shen ‘du who were jealous of him, especially those children of high officials and Noble families.

He entered a random restaurant and sat down. He ordered some wine and food and began to drink.

“Brother mu, long time no see!”

In less than ten minutes, someone had come looking for him.

Tang Hao looked up and recognized the man. He was also a soldier at the border. He was from the Marquis ‘residence.

“It’s the Marquis of Tiangong! That’s my father!”

The person was very familiar. After sitting down, he picked up the wine jar, took a gulp, and smiled.

“Oh,” Tang Hao replied.

Within this God Country, there were also titles of nobility.

Marquis Tiangong and Marquis Shendan were all Masters of the Dao of alchemy and smithing.

“My name is Zheng Tong. Brother mu shouldn’t have forgotten, right?” He chuckled.

This person had a dignified appearance and was somewhat handsome, but when he laughed, there was a bit of oil in it.

“I didn’t forget!”

Tang Hao said with a smile.

“I’ve wanted to find you before, brother mu. I’ve visited you a few times, but I’ve always seen you hanging a ‘no guests’ sign. I could only leave regretfully. Now, you’ve finally come.” Zheng Tong laughed.

“Brother, you’ve been cooped up for more than two months. You must have been forced to study some array Dao! I’ve heard that the old monster surnamed Yu from the array Department is very interested in you!”

“After being cooped up for so long, you must be panicking! Let’s go, I’ll take you to relax and have some fun!”

As he said that, he leaned over and winked at her, as if he knew what she was saying.

Tang Hao wanted to refuse.

However, on second thought, with his current status, it was impossible for him to refuse such an invitation.

He still had to go, and he could also gain some knowledge.

“Then I’ll accept your invitation!”

He smiled and put down his glass.

“Go! Today, I’ll bring you to have some fun. You’ll see what true bliss is!”

Zheng Tong laughed and slammed the table. He stood up like an old hand.

Tang Hao paid the bill, then followed him out of the restaurant.

The two of them headed toward a corner of Shen 'du.

“This one is the best in the capital. The service is first-class and the reputation is first-class. It’s definitely a man’s heaven!”

A moment later, the two of them stopped.

Tang Hao looked up and saw the words ‘Jade Lake Pavilion’ written on the plaque.
