

The Mightiest Little Peasant Chapter 3412

There was a dead silence.

Everyone from Mount Jade Dragon was frozen on the spot. Their bodies were shaking like screening chaff, and their faces were extremely pale.

The dignified Sky Eagle envoy, a first grade genius and a peak sky god expert, had his head blown off in front of them.

This palm strike was as easy as chopping melons and vegetables!

It was complete abuse!

Although this guy had advanced to the sun god Realm, he had only used the power of a Nine Star celestial God. How could he so easily destroy a first grade genius like the heavenly Eagle envoy?

Could it be that he was an existence that had surpassed first-grade?

But that was impossible!

There were only a few people who had surpassed the first grade, even on Jade Dragon Mountain. In the entire divine martial country, there was only general Fei Feng. As for the hundred territories of the eastern barren territory, no one had ever heard of such a genius.

And why was this guy's aura so terrifying?

He was like ... A peerless demon!

They looked at the devilishly handsome young man with the divine crystal in his hand under the moonlight, and their bodies trembled even more.

They had seen a lot of old demons and old monsters, but they had never seen someone with such a terrifying aura. His cold eyes were filled with killing intent. One look at him was enough to freeze one's soul.

"This is too terrifying!"

They wailed in their hearts and wanted to move their feet to escape from this mansion.

However, their feet seemed to be filled with lead, and they couldn't move at all.

"They're both late heavenly God ... Not bad!"

The young man in white put away the divine crystals in his hand and the corpse, then looked at them.

Whoosh!

His body flickered like a ghost.

In the next moment, Peng, Peng, Peng, a series of light sounds rang out.

The heads exploded one after another, and divine blood gushed out.

“Thirty-one divine crystals, all late gods. As for their grades, one is grade one while the rest are grade two.”

He reached out and collected all the divine crystals. After counting them, Tang Hao was satisfied.

This wave could be considered a small profit.

Not only did the sky Eagle emissary have a first-grade divine crystal, but he was also a peak sky god. The essence of his body was the strongest, and after devouring it, his cultivation would increase by a lot.

After putting away the divine crystals, he flicked his sleeves and put all the corpses into the divine furnace.

Returning to the small pavilion by the lake, he sat down and began to refine the corpse.

“Why isn’t he out yet?”

“How long would it take to kill that perverted Bandit? could it be that Emperor shenwu had planted more people inside?”

Countless eyes were focused on the carefree mansion from all over Shen ‘du.

They were all a little curious.

The people from Jade Dragon Mountain had been in there for fifteen minutes and had not come out yet. There was no big movement inside.

This was not normal.

If Emperor shenwu did not have people inside, the group of people from Jade Dragon Mountain could easily kill mu. If there was, there would definitely be an intense battle and some noise would be heard.

In fact, it might even destroy the small world in the mansion.

“Maybe there’s some kind of maze or illusory formation that’s delaying their time.”

Someone guessed.

They continued to watch and wait.

“Still no movement?”

In the Imperial Palace, Emperor shenwu was sitting on a lotus throne in his bedchamber, resting with his eyes closed.

After a while, he opened his eyes and called out to the purple-robed man standing outside.

“Your Majesty, not yet! Things seem a little strange ...”

The purple-robed man said respectfully.

“It’s a little strange. ”

Emperor shenwu nodded in the palace.

After so long, there should have been some movement. But now, the carefree mansion was like a pool of stagnant water, which was very abnormal.

“I heard from elder Yu that there are a few formations in the carefree mansion that the kid has created himself. I think they can block those people from Jade Dragon Mountain. There’s no hurry. We can wait a little longer.”

Emperor shenwu closed his eyes as he spoke.

“Yes! Your Majesty!”

The purple-robed man responded and continued to stand there. From time to time, he raised his head and glanced at the carefree mansion in the distance.

Time passed by quietly.

Two hours, four hours ...

The carefree mansion was still in a dead silence.

The various forces in Shen du were even more bewildered.

It’s been so long, why haven’t the people from Jade Dragon Mountain come out yet?

Could it be that they were trapped in the carefree mansion and couldn’t get out?

As soon as this thought came into their minds, they were overwhelmed with shock.

There were more than thirty late heavenly gods, and their leader was a first grade genius, a peak heavenly God expert. How could they be trapped to death in a small mansion?

What kind of array could there be in the carefree mansion that could trap this Sky Eagle Messenger from Mount Jade Dragon?

As the geniuses of Mount Jade Dragon, they had a deep understanding of formations. They could easily break some powerful formations.

“In my opinion, this must be Emperor shenwu’s doing. I wonder what kind of formation he gave that kid.”

“I think so too. The divine decree had just been issued, and the person died that very night. Isn’t that a slap to the face? Emperor shenwu would never let such a thing happen.”

Everyone felt that this was Emperor shenwu’s doing.

This was because only Emperor shenwu was capable of doing so. The royal family must have some powerful formations.

As for that kid, although he had a powerful array Dao talent, he had only learned the array Dao for a short time. How could he have refined such a powerful array technique?

“It’s a pity that I won’t be able to see that kid’s tragic death tonight.”

In a Pavilion, Hong Tianyi looked in the direction of the carefree mansion and snorted.

His face was full of regret.

He had been standing here for so long to see how the kid would die. However, from the current situation, the kid would not die for the time being.

“Brother Hong, why are you in such a hurry? we’ll just have to wait a little longer. A few hours, half a day, or even a day, and we’ll be able to break the formation. That Sky Eagle envoy is no ordinary person. Even if it’s the divine martial imperial family’s formation, he’ll be able to break it sooner or later.”

Someone at the side laughed.

“That’s true!” Hong Tianyi nodded and his expression softened. “I hate this guy too much, so I’m a little anxious.”

“In my opinion, it should be broken in six hours!”

“There’s no need to take that long!”

The people in the pavilion started to discuss.

Meanwhile, in the carefree mansion, Tang Hao had refined the corpses and swallowed them along with the divine crystals.

After he finished absorbing, he could clearly feel that his cultivation had increased by a small amount.

“Not bad!”

He chuckled and was quite satisfied.

He had already absorbed the five yang spirit pills from before. With today’s harvest, his cultivation had already improved greatly.

This speed was quite fast.

“The sky Eagle Messenger is dead. Jade Dragon Mountain must know about it and will be furious. I should tell the celestial Emperor about this so that he can be mentally prepared.”

After pondering for a while, he took out a jade talisman, entered a message, and then sent it out.

After a while, in the palace, the purple-robed man’s expression changed. He saw the void in front of him distort and a jade talisman came out.

“It’s general mu. It looks like he’s fine!”

He smiled and took the Jade talisman.

However, the next moment, his entire body trembled as if he had been struck by lightning.

His eyes suddenly widened, and they were extremely round, revealing extreme shock.
