

The Mightiest Little Peasant Chapter 3421

“This formation is very unique!”

“Yup! Advanced! As expected of an ancient divine formation!”

A group of Masters entered the formation, touching here and touching there, their faces full of admiration.

“Cough! Everyone, don’t forget that we’re here to break the formation. ”

Grandmaster Tian He let out a dry cough upon seeing this.

“Oh! Yes, yes! Break the formation!”

The grandmasters laughed, and with a straight face, they walked along the passage.

“I understand now. This formation is like a maze. As long as we find the right path, we can walk out. But it will reset after a period of time and completely mess up.”

“That’s right. If we want to break the array, we must completely crack the rules. Only in this way can we find a way out before the array is reset again!”

Soon, they all saw something.

After all, they were all Masters, and their reputation was not undeserved.

“This formation is too big and too complicated. It’s indeed a little difficult to fully grasp its rules. No wonder those people from Jade Dragon Mountain haven’t been able to break the formation after so long!” Grandmaster Tian He’s expression also turned slightly grave.

“However, don’t worry, everyone. We have more people and more power. If we calculate together, we will be able to break the rules sooner or later and find a way out!”

Then, he smiled and consoled everyone.

“Yes! It’s extreme!”

All the Masters nodded.

They continued to walk forward and observed the changes in the formation.

“Grandmaster Tian He ...”

Tang Hao sat cross-legged in a small pavilion by the lake. His gaze pierced through the void and he saw the situation in the formation.

He sized up Grandmaster Tian He, and the corners of his lips curled up slightly, his expression somewhat contemplative.

He had heard that this old man hated him to the core and had scolded him a lot in Suzaku. Now that he had come to break the array, he must be here for him.

He wasn’t like the other grandmasters, who had come purely for the sake of formations.

“Since you’re here, I’ll entertain you well!”

He smiled and flicked his sleeve. Materials flew out.

He was going to create a formation, the nine prison heavenly gate formation that old Tian He had set up.

Of course, he made some slight changes to make this formation even more perfect.

Within the formation.

The group of Masters walked around for a few hours. The excitement and confidence on their faces had all disappeared.

Their expressions were unusually grave.

Just now, they had thought that they had already seen through the operation of this array, but now they realized that they had been too naive!

“How could there be such a formation in this world?”

“Unbelievable! It’s unbelievable!”

At this moment, they were extremely shocked.

Every time this array changed, even the basic algorithm would change. This was simply impossible in their eyes.

The so-called algorithm referred to the nine palaces, Eight Trigrams, and the operation of the stars in the sky.

Most bewildering formations were designed based on these calculations.

However, every formation could only be calculated in one way. This was common knowledge in the formation world and an iron rule.

They had never seen a maze formation that had several sets of arithmetic.

What shocked them even more was that every algorithm in the array was extremely complicated. Even if they used all their energy, they could not crack it.

If this was the case for one set, then there was no need to mention a few sets.

The existence of this array technique would definitely shake the entire array Dao world and cause a huge commotion.

“This array is impossible to crack!”

“Yup! This is a flawless formation that can not be broken!”

Many grandmasters sighed, their faces dispirited.

Even if they tried their best to crack it and calculate it continuously, they didn't know when they would be able to figure it out. It could be a few thousand years or even ten thousand years.

Just the thought of it made one feel despair!

“This array ... Where did you get it?”

“To be able to create such an array, how high must his array Dao attainments be?”

Even Grandmaster Tian He’s heart was filled with shock.

He raised his eyes and looked around at the high walls in all directions, a sense of powerlessness growing in his heart.

He had always thought that his array Dao had already reached the peak and was already very impressive. But now, he realized that his attainments were nothing. Compared to the true peak, he was far too far away.

The only thing that made him feel a little better was that this was an ancient divine formation. It came from the hands of an ancient God and not the current generation’s array master.

“I can’t believe Emperor shenwu has such a good item. I’ll have to find out where he got it from. Perhaps I can find out the background of that Almighty.”

He muttered as he walked.

He had only taken a few steps when he suddenly felt the void around him twist.

Caught off guard, he was directly pulled in.

“What’s going on? What is this place?”

He fell to the ground with a thud, feeling a little lost.

When he got up and looked around, he was stunned.

“This ... This is impossible!”

He mumbled, his mind extremely shocked.

He was all too familiar with this scene!

This was one of the sub-formations of the nine prison heavenly gates Formation he had invented, the ice prison formation!

But that was impossible!

This was a formation that he had created himself, so why would it appear here?

“An illusion? No! This isn’t an illusion!”

“It’s indeed my ice hell formation, but something seems to be wrong. It’s different ... It’s the direction. I can’t see where the life gate is.”

He looked around carefully again and couldn’t help but gasp, his eyes wide open.

In his chest, there was a raging wave.

There was actually someone who had learned his formation, improved it, and then placed it in front of him!

This ... He couldn't believe it!

This was because he had only used his formation once, so how could it be learned by others?

Just by walking around the formation once, he had learned the refining method?

Wasn't this a heaven and earth tan Tan!

Even an array master like him would not be able to do it.

Even in the entire divine realm, there would not be such a person!

Perhaps the ancient God who created the shocking maze formation could do it.

However, that was a legendary figure. How could he appear in the divine martial country?

"What's going on?"

"Who is it? Was it that guy surnamed Yu? He was the number one array master in the divine martial Kingdom! However, his skill level is obviously very ordinary, not even as good as mine. It can't be him!"

“Who else could it be besides him? It can’t be that kid, right?”

He paced on the spot and muttered in a trance.

“Who is it?”

“Forget it. Let’s break this array first. Once we get out, we’ll naturally know who it is!”

He began to break the formation with all his might.

But very quickly, he discovered that the formation that he was clearly very familiar with was completely different. He couldn’t find the life gate at all.

Although this formation was not as shocking as the bewildering formation, it was still extremely complicated and had many changes.

This change seemed to be out of order and couldn’t be calculated at all.

It was just like ... Chaos. It was completely chaotic and without order.

“How did this happen?”

After a while, he stopped in his tracks and revealed a desolate expression.

The number one master in the East Province was just a fart!

This person had only modified his array a little and he had completely trapped him. Compared to this person, his array Dao attainments were nothing, like a child's play!

This person was a true expert!
