

The Mightiest Little Peasant Chapter 3429

“Late heavenly God Realm! Although it’s a little weak, it’s still okay!”

Tang Hao mumbled as he clenched his fist.

Bang!

There was a muffled sound.

The void whale in front of him was crushed just like that, its blood and flesh splattering everywhere.

Then, he reached out his hand and collected the soul and flesh, putting them into the divine furnace.

Even though the ferocious beasts had the bloodline of the untainted, they were not doing well in the divine world. They were no match for the divine race at the same level, unlike in the immortal world where the bloodline of the untainted was stronger than the cultivator at the same level.

That was because the bloodline of the Dragon count divine clan was too strong. It far surpassed these primal bloodlines.

The value of a corpse of the same level as the primordial bloodline was far lower than that of a God race.

Only those with pure blood, extremely ancient and powerful bloodlines, could possibly compare.

However, there were not many of such existences in the divine realm.

Tang Hao kept the divine furnace and continued his search.

Along the way, he encountered many ferocious beasts, most of which were at the heavenly God Realm. He killed them one by one and kept them in the furnace.

“Still nothing!”

After searching for an entire day, he was a little disappointed to not find any yang grade divine herbs.

“The ethereal Lake is so huge, so there must be yang grade divine herbs there. However, it’s precisely because it’s so huge that it’s not easy to search every corner ...”

He muttered to himself.

Suddenly, he thought of the ferocious beasts that he had killed earlier.

They had been living here for a long time, so they were very familiar with the situation here. From their memories, he might be able to find some traces of yang grade divine medicine.

He then took out the souls of the beasts and searched them one by one.

“There it is!”

A moment later, he made a discovery.

One of the ferocious beasts had once spied on an Overlord’s nest from afar and saw a yang grade divine medicine.

“Over there!”

He scanned his surroundings, identified the direction, and quickly swept over.

After two hours, he stopped.

In front of him, a vast abyss appeared.

The Yang grade divine herb was right below.

This abyss had an owner. It belonged to one of the overlords of the lake, a true dragon at the Yang God Realm.

“A true dragon at the Yang God Realm is not easy to deal with ...”

He stood where he was, frowning in deep thought.

The bloodline of a true dragon was rather powerful, and it was at the Yang God Realm.

With his current strength, he was confident that he could defeat it easily, but he was not sure that he could kill it. If the true dragon realized that something was wrong and swallowed the divine medicine before it could escape, he would be at his wit's end.

A moment later, he had a plan.

His figure flickered and disappeared from where he was.

An hour later, a shark entered the abyss.

It dove all the way down and found the true Dragon's Nest. It also found the Golden divine medicine growing on the edge of the nest.

The true dragon was lying around the divine medicine, as if it was sleeping.

The scales on its body were silver in color, and each scale was glistening with divine light.

Its body had shrunk and was only maintained at about 30000 meters.

A true dragon that had yet to become an immortal was at least a few million feet long. Once this immortal King level true dragon expanded its size, it would be unimaginable.

The shark concealed its aura and headed towards the divine medicine.

Before it even got close, the true dragon moved. It raised its head and stared at him with disdain in its eyes.

The next moment, it suddenly sprang out and pounced at the shark.

At this moment, Tang Hao, who had been hiding in the void, moved.

He instantly rushed out and reached out to grab the divine medicine.

"A formation?"

“Hmph! A small trick!”

There was a formation surrounding the divine medicine.

However, it was not very brilliant. He instantly crushed it and broke it completely.

Although the process was fast, it was enough for the true dragon to react.

“You have guts!”

“Die!” It roared, and endless lightning instantly exploded around its body.

At the same time, it swung its tail and lashed out.

“Freeze!”

Tang Hao flicked his hand, and a beam of divine light flew out. It was his sea calming Pearl.

The godly Pearl appeared and shook slightly. The water in the surroundings instantly froze.

Even the endless lightning stopped.

Tang Hao seized the opportunity to approach the divine herb and put it into his pouch.

“Brother long, thank you!”

Tang Hao put the sea calming divine Pearl away, smiled at the true dragon, and tore open the void.

“That’s ... The sea calming Pearl?”

The true dragon didn’t follow him. Instead, it stood frozen on the spot in shock.

It recognized it. It was the legendary sea calming divine Pearl, a rare item, an ancestral God artifact level treasure!

Even if it caught up to someone who possessed such a treasure, it would be useless. It would be impossible to get the godly medicine back.

“I’ve got one!”

In the lake, far away.

Tang Hao emerged from the void, his face full of joy.

He had checked it just now. The divine medicine was quite good and contained an astonishing spiritual essence. If it was refined into a pill, it could be made into a yang God great pill.

A pill like this would allow his cultivation to rise by a large margin.

“There are still a few overlords in this Lake. I can go and check it out. Maybe there are still ...”

He was thinking about the other overlords 'nests.

For example, the true dragon just now had built its nest in the place where yang grade divine herbs grew.

In the next few days, he searched through all the nests of the overlords in the lake and obtained another godly medicine.

After searching for a few more days and not finding any yang grade divine herbs, he left the Misty Lake.

Two yang grade divine herbs, this was already a great harvest.

Even if there were more in the lake, it would probably be difficult to find them. Instead of wasting time here, it was better to go to other places and see. Perhaps it would be easier to find them.

After leaving ethereal Lake, he went to the next dangerous place.

He had spent a few days without any gains, which made him quite disappointed.

After he left, he did not rush to the next place. Instead, he went to the nearest city and sat down.

Here, he heard a rather interesting piece of news.

"God blood treasure? What's that?"

“You don’t know this! This is a good thing, a spirit object nourished by the blood of an ancient God. That’s why it’s called a divine blood treasure. It’s a great tonic, and I heard that the one we found this time was a yang grade one. ”

“Yang grade? So powerful? No wonder it’s such a big deal. Forces like Wu Xiang Palace and tai Qing Palace are all involved. ”

In the restaurant, people were talking about something called God’s blood treasure.

Tang Hao finally understood what it was after listening to it carefully.

This was a spiritual object born from God’s blood, and it had to be the blood of an ancient God. Only such blood could nourish high-level God’s blood treasures.

Moreover, the older it was, the more spiritual essence it contained.

“That sounds good!”

Tang Hao was tempted.

According to these people, this divine blood treasure’s effects were comparable to several yang grade divine herbs.

“In the min Mountain region?” he asked.

He immediately set off after getting a clear picture of the situation.

This divine blood treasure was now in the hands of a force in the min Mountain region. The forces with yang god level experts, such as Wu Xiang Palace and tai Qing Palace, had all rushed over to compete for the treasure.

He couldn't miss such a lively event.
