

The Mightiest Little Peasant Chapter 3433

The street of the pill houses was bustling with activity.

Many of these pill houses were opened by the grandmasters of the pill Sea Mountain. They accepted commissions for pill refining to earn some extra money.

Most of the people who came here were also here to ask for pills.

“What’s going on in front?”

Tang Hao strolled around for a while. He saw that the front of an elixir dispensary was packed with people. It was very noisy and lively.

“Hey! What else could it be? they’re fighting!”

At the side, someone laughed.

In this pill House District, it was always the most lively when there were grandmasters fighting.

“Who is it?”

Tang Hao asked curiously.

“They’re all the gold medal Masters here. One is master Xu. His pill house is the largest here, and he’s also a level 1 pill master of the pill Sea Mountain. The other one isn’t weak either. His pill house is a little small, but he’s still a level 1 pill master.”

Someone said.

“Level one ...”

Tang Hao raised an eyebrow.

He had stayed here for quite some time and knew a bit about the situation in the pill Sea Mountain.

The alchemists on the mountain were divided into nine levels. From nine to one, the level one alchemy Grandmaster was the highest.

Those who were able to advance to this level were all top alchemy Masters. Each of them had profound alchemy attainments and their cultivation was not low. They were basically all in the Yang God Realm.

It was said that there were sixty to seventy such level one alchemy grandmasters in the mountain.

Among the level 1 alchemy grandmasters, the top five were elected as pill elders to jointly manage the pill Sea Mountain.

“Let’s go and take a look!”

Tang Hao smiled and walked forward.

“This pill of mine used a total of 9999 ingredients. The structure of the pill formula is so exquisite that it’s rarely seen in the world. Your lousy pill doesn’t even have the right to carry my shoes!”

“Bah! So what if you have a lot of materials? I’ll instantly kill you with this medicine!”

As he squeezed his way to the entrance of the pill house, he heard the sounds of an intense argument coming from inside.

Looking again, there were two people sitting opposite each other and cursing, their ears red.

The surrounding people looked like they were watching a good show.

“You’re not convinced, are you? Alright, let’s continue!”

The green-robed man on the left seemed to be tired of scolding. He panted for a while and said.

“Alright! Let’s continue then, I’m not afraid of you!” The other white-robed old man didn’t show any weakness.

“Let’s not compete in pill making recipes. Let’s go straight to the point and bring out our own unique skills. Whoever attracts the loudest cheers will win!” The green-robed man said.

“Alright!”

The white-robed old man nodded.

It was a literary battle earlier, but now it was a martial battle.

“Alright!”

The crowd burst into cheers.

Everyone was excited.

What they loved to see the most was the scene of these grandmasters personally refining pills.

In order to gain support, these grandmasters would use very dazzling pill techniques, which were very enjoyable to watch.

“This pill, the spirit gestating pill!”

“Good! I’ll refine this pill!”

After confirming the pills to be refined, someone prepared four sets of ingredients and sent them up. Each master had two sets.

Even a master alchemist couldn’t say that the success rate was 100%. The higher the grade of the pill, the lower the success rate. For example, the spiritual brewing pill was a heavenly God grade pill. For a rank 1 Alchemist master, the success rate was only about 80% to 90%.

This success rate was already very high.

After all, not everyone was like him. No matter what pill he refined, he basically had a 100% success rate.

“Showing off your skills! Interesting!”

Tang Hao stood at the front of the crowd and watched the show.

After checking the materials, the two masters took out their pill cauldrons, lit a divine fire, and put in the materials.

“Watch me, four symbols Core Fusion technique!”

With a loud shout, the green-robed master on the left took the lead to show off.

In front of him, divine light suddenly brightened. The Phantoms of the Vermillion Bird, Black Tortoise, Azure Dragon, and white Tiger condensed and ran around the pill furnace.

For a time, divine light dazzled and was extremely gorgeous.

“As expected of master Xu! He’s using the four appearances pill fusion technique to the acme of perfection!”

“Wonderful! Wonderful!”

Everyone was mesmerized by the scene.

Many alchemists exclaimed in admiration, their faces full of admiration.

Even Tang Hao nodded his head slightly.

In terms of showing off skills, this person’s attainments were quite high. Even if he were here, he might not be able to do better.

“Hmph! It’s just four beasts!”

On the other side, the white-robed master said in disdain.

With that, he clapped his palms together and formed a hand seal.

In the next moment, a bright divine light burst out in front of him. Countless illusionary stars surged out and covered the entire area. As the stars rotated, dust that looked like diamonds scattered. It was extremely dreamy.

“This is the heavenly cycle stars pill fusion technique!”

“Why is it still so shiny? it looks like Master Zhou made some major improvements to it. It’s so beautiful!”

Everyone looked over and gasped in surprise again.

Tang Hao’s mouth twitched when he looked over.

The two of them were really gaudy to the extreme.

When he first entered the alchemy path, he also liked this kind of alchemy technique. However, later on, as his level gradually improved, he slowly abandoned this kind of gaudy thing.

“What do we do? The two masters are very powerful!”

“Yup! Regardless of what it is!”

After seeing the two's dazzling skills, everyone looked left and right and was in a dilemma.

The two masters were both very powerful. In their eyes, they were about the same level. It was hard to say which one was more powerful.

The two grandmasters were also listening to the voices around them. When they saw this situation, they frowned.

Since they couldn't win by showing off their skills, they could only win by quality.

"Hahaha! Old man Zhou, you're going to lose!"

Master Xu, who was on the left, laughed out loud.

He flicked his sleeve, and a small white jade bottle flew out.

"I've been saving up for this. I'll definitely have more than you. I'll definitely win this time!"

He said proudly.

The white-robed Master Zhou's expression changed.

He also took out a white jade bottle and opened it. He frowned.

He had used a lot of the treasures in here, but they were definitely not as good as that Xu guy.

“What’s that?”

Tang Hao was curious.

From the two grandmasters’ expressions, it seemed that the thing in the White jade bottle was very powerful and could determine the final quality of the pill.

“That thing is called the myriad elixir essence!”

Someone explained.

“Myriad elixir essence? Is it a concocted spiritual liquid?”

Tang Hao said.

He knew that there were a lot of spiritual liquids that could improve the quality of pills, and this myriad pill essence should be one of them, and it should be of a relatively high grade. Otherwise, the two grandmasters wouldn’t have valued it so much.

“No need! This thing is natural!”

That person laughed.

“How can it be natural?”

Tang Hao was surprised.

“Brother, you don’t know this, but the myriad elixir essence is one of the most famous treasures of the pill Sea Mountain. In the entire East continent, no, in the entire divine world, only they have it.” That person laughed. “It’s said that this thing was born naturally from an abandoned cauldron. Isn’t that natural?”

“An abandoned cauldron?”

“That’s right! In the deepest part of the pill Sea Mountain, there’s a huge pill cauldron that’s like a mountain. It’s said to be an extremely ancient pill cauldron. No one knows where it came from, but it’s been there for a long time. It was built even before the pill Sea Mountain. ”

Tang Hao’s expression changed when he heard that.
